Moore Seed Co's 1911 Wholesale Price List of Seeds for Market Gardeners and Florists

Moore's King of the Early Tomatoes pays at the rate of $500.00 per acre.

The seed is worth its weight in gold.

Average size of fruit.

Moore Seed Co. 339 Market St. Philadelphia, PA
High Grade Tomato Seed

IS OUR GREAT SPECIALTY

All our Specialty Tomato Seed is grown, selected and saved exclusively from the best specimens for seed, and from what is usually known as crown and second settings, and is of the highest quality. Moreover, no seed is grown twice in succession and is trained to ground and blight of any kind is unknown among any of our tomato seed crops.

Market Gardeners, Large Growers, Shippers and Canners will find our Selected Tomato Seed reliable in every respect.

We have produced, at great expense and personal labor, superb varieties well calculated to meet the requirements of soil, locality, market, market, as well as the many exacting demands of the most critical consumer.

Healthy, Blight-Proof Seed Stock. We also exercise the greatest care in gathering all our seed, that it not only be pure and true to name, but also that it be saved from strong, healthy and vigorous plants, free from all traces of disease of any kind. Our customers may thus rest assured that the seed they get from us will be absolutely free from any trace of disease whatsoever.

The growing of high grade Tomato Seed has long been a leading and important specialty with us and we probably distribute more seed to critical market garden and select canning establishments than any other three seedsmen in the United States.

Remember, the Main Thing in Making a Good Crop of Tomatoes is to Get Your Seed from Us. Buy the Best

Large Planters and Associations looking to purchase seeds in unusually large quantities, should write for special prices. Although we have made prices very low in this catalogue, yet where a number of pounds or bushels are wanted, we can frequently supply at a lower price than by a single pound or bushel. In writing, give us a list of quantities and varieties required, and we will return list promptly with our LOWEST COST PRICE FOR THE LOT.
FARMOGERM (High Bred Nitrogen Fixing Bacteria)

The FARMOGERM Method

DOES AWAY with the use of expensive fertilizers by using nature's method of supplying nitrates. Lime, potash and phosphates are comparatively cheap, and in many cases there is an abundant supply of these in the soil which can be made available for plant food if right methods are used—and the "Farmogerm Method" is the right method. If you wish to improve the condition of your land and grow bigger and better crops, send for book on the "Farmogerm Method." What it has done for thousands of people during the past two years it will do for you.

BUILDS UP the land to the highest state of fertility and productiveness. Don’t give your plants stimulants when they want food. The Farmogerm method not only adds nitrates to the land but improves its physical condition. Nitrate of Soda is a temporary stimulant that soon leeches out of the soil and is not a permanent benefit. Farmogerm supplies at one tenth the cost not only enough nitrates for the growing crop but stores in the soil a large amount for future crops of other kinds.

IN THE GARDEN. Increase your crop of peas, beans and sweet peas from fifty to one hundred per cent. by treating the seeds with Farmogerm. A few minutes extra work and the expenditure of fifty cents means sweeter and better peas and beans, larger vines, heavily loaded with pods, and a longer bearing period. When you can gain so much for so little, isn’t it worth while to try?

ON THE FARM. The practice of sowing clovers, cowpeas and soy beans in rotation with corn, wheat, cotton and other crops is of great benefit. You can double the benefit if you treat the seeds with Farmogerm and follow instructions for putting the land in suitable condition.

ALFALFA. The greatest forage crop grown—yields two to eight cuttings per year, an average of seven to twenty tons per acre. Contains one-third more protein (muscle building food) than clover, and in food value equals a full grain ration. Horses, mules, cattle, hogs and chickens relish it and fatten rapidly on it. The largest stock farms advocate its growth. Eighty per cent. of the farms of this country can grow it, if they use the "Farmogerm Method." You cannot grow alfalfa on wet, soggy land or land with a close lying, hard pan sub-soil; but how much of your farm is like that?

COST

Farmogerm is put up in bottles in the following sizes:

Garden size, containing material to treat the seeds for ½ acre of land, $0.50 each
Acre size, " " " " " 1 " " " 2.00 "
Five acre size, " " " " " 5 " " 9.00 "

FOR THE FOLLOWING CROPS IN ACRE SIZES.

Red Clover, Burr Clover, Berseem, Garden Beans, Canadian Field Peas,
Mammoth Clover, Sweet Clover, Peanuts, Garden Peas, Soy Beans,
Crimson Clover, Alsike, Vetch, Sweet Peas, and all other
White Clover, Alfalfa, Lupins, Cow Peas, legumes.

IN GARDEN SIZE

for Peas, Beans and Sweet Peas; also a mixed culture good for all three.

IN ORDERING state what crop you wish to plant; quantity wanted, and ask for book on the FARMOGERM METHOD:

ALFALFA LIKES FARMOGERM
WHAT OTHERS HAVE DONE YOU CAN DO!

PROF. JACOB G. LIPMAN, of the NEW JERSEY AGRICULTURAL EXPERIMENT STATION, states that he got good results from the use of Farmogerm for alfalfa, clover, and garden peas.

W. E. FRED, VIRGINIA AGRICULTURAL EXPERIMENT STATION, says: "All of Old Process showed contamination. Mostly moulds. Farmogerm was entirely free from contamination."

W. M. T. BROOKS, Director MASSACHUSETTS AGRICULTURAL EXPERIMENT STATION, says: "In reply to your letter of the 21st inst., I beg to say that the only one of your cultures which we found it possible to try during the past year was the culture for alfalfa, and we are rather unable to make a final report at this time.

We made four different comparisons between seed treated with your culture in accordance with directions and untreated seed and in both cases found results which are about as follows.

1. In the case of two of the comparative tests, the growth of the alfalfa which was sown early in August was materially better where your culture was used. It is ranker and of a darker green color.

2. In the case of the other two comparisons there is a little difference; but we judge that the alfalfa where the inoculated seed was sown is slightly better than the other.

W. S. SAYEY, of the MICHIGAN STATE AGRICULTURAL COLLEGE, says: "Pure cultures of nodule bacteria suitable for the various legumes may be used in inoculating the seed just previous to sowing. This method has been used very extensively during the past three years, usually with marked success."

MAURICE MULVANYA, of the UNIVERSITY OF TENNESSEE, says: "I found the bottle of material sent to me to contain a pure culture of living Pseudomonas radicicola.

GEORGE W. CARVER, DIRECTOR TUSKEEGEE INSTITUTE, ALA., says: "My plot of crimson clover which was inoculated with Farmogerm is about three times better than the uninoculated; it is exceedingly luxuriant while the other is straggly, pale and not well cutting."

EDWARD R. MINNS, INSTRUCTOR, CORNELL UNIVERSITY, N. Y., says: "We are studying the problem of producing more and better forage per acre by planting beans with corn intended for silage, and so far we feel quite certain that some form of inoculation for the beans is necessary to success."

J. N. HARPER, DIRECTOR, SOUTH CAROLINA AGRICULTURAL EXPERIMENT STATION, says: "I have your letter of Oct. 21st with the enclosed letters from gentlemen who have tried your Farmogerm, and found it to be of great value. We have tested Farmogerm in a small way and from the results obtained we are very pleased with it."

CHAS. B. MURRAY, of the OHIO STATE UNIVERSITY, says: "In reply to your letter concerning the cultures which you sent me last spring for test, I will say that as you remember, the cultures were to be used for laboratory tests only, and not for field experiments, the cultures were given to advanced students, to have them isolate the organisms present, and to make pot cultures of the different varieties of legumes to determine whether the organisms were virulent or not. The organisms were grown in pure culture from each sample sent. The pot experiments also show that the cultures were virulent in that nodules were formed on the plants tested while the control pots showed no nodules. The experiments were satisfactory in every respect."

L. B. JUDSON, N. Y., COLLEGE OF AGRICULTURE, says: "I take pleasure in stating that I have every confidence in your method of preparing cultures of bacteria for inoculating the various leguminous crops. I believe that the processes you use have all the value you claim for them, and that your method of air bottles in which you send out cultures, is a valuable device.

Your work to me seems full of great promise for the farming industry."

F. O. CLARK, BEREA COLLEGE, KY., says: "Your letter of October 21st inviting as to the results obtained from the use of Farmogerm, is at hand. In our school garden we planted several plots in sweet peas and Canadian Field Peas, using Farmogerm on every other plot. I was quite surprised to find the plants grown in the plots where Farmogerm was used, were nearly twice the size of those on the other plot. This test indicates that your bacteria are of the right sort, and well put up. Wishing you success in extending the use of Farmogerm and thus the use of legumes.

**Moore Seed Co., Philadelphia, PA**

**FREE** a handsome collection of flower seeds, embracing many fine sorts. Address this sheet with a cash order and for this favor we will include in your order vegetables, plants, flowers or poultry, either for home market, or shipping.

KINDLY send us below, names and post office address of your friends and acquaintances who grow seeds, no matter where they may live, who are large farmers or those who grow

IMPORTANT TO YOU. A FAVOR TO US.
American Poultry Journal

Oldest, Largest and Best Poultry Paper in the World
Volume 40; 64 to 164 pages monthly. Acknowledged authority on all poultry subjects.

If you want to make more money out of your fowls; if you want to get good results with less hard work; if you want to learn to breed for exhibition fowls; if you want to know what to do each month in the poultry yard, send for

AMERICAN POULTRY JOURNAL, 358 Dearborn St., Chicago

By sending this coupon you can get American Poultry Journal for 35c for one year (regular price 50c). This bargain can only be secured by sending in this coupon with 35c. If you secure another subscriber at 35c we will send you our "Hand Book of Useful Information" especially written for beginners.

All recognized varieties of Poultry, Turkeys, Ducks and Geese both
Male and Female PRINTED IN COLORS

We will print in colors in American Poultry Journal every recognized variety of poultry, turkeys, ducks and geese raised in America, both male and female. Nearly 200 specimens. Something never before undertaken in the poultry world. These illustrations are beautiful in color and true in markings, relative size, correct shape and no poultry fancier can afford to be without them. Poultry men have long desired and demanded a complete set of colored pictures of fowls. This is absolutely the first and only opportunity ever offered to get them. The complete set cost us $5 000. Think of getting such a wonderful collection in a poultry paper for 35c a year. Write your name and address in space below and address your envelope to

We have over 1,000,000 Strong Two-year-old Roots ready for our Customers

$\frac{2}{3}$ Buyers of 10, 50, 75 or 100 lb. lots of any variety of Asparagus Seed will be quoted special prices upon application.

**STARKEY’S MAMMOTH EARLY PROLIFIC ASPARAGUS**

The Best and Most Profitable Sort to Grow

This highly valuable new variety has been grown for a number of years by one of Philadelphia’s most successful market gardeners. It is among the largest and handsomest asparagus ever sent to this market, from ten days to two weeks earlier than his neighbors and at a price which he always realises very high prices. This asparagus has attracted much attention from dealers and commission merchants generally throughout the State, all anxious to get it. The color is notably different from either the famous Barr’s Philadelphia Mammoth or Palmetto, while the stalks are more tender and succulent. Its mammoth size can be realized from the fact that in whole crops three stalks will average a pound in weight, and it requires much less labor in cutting and bunching, thus lessening the expense of marketing. Everyone who ever saw this highly valuable variety pronounces it many times superior to any other known sort. It is beyond question the finest, largest, earliest and most profitable for the market gardener to grow. Stalks frequently measure two inches in diameter, and even when twelve to fifteen inches long are perfectly tender. The quality is exceedingly fine, growing rapidly and remains in good, tender condition several days after being ready to cut. It is very productive, throwing up a perfect mass of very large stalks of medium green color and very handsome appearance, and invariably commands a much higher price than any other variety. Our customers advise us that it never shows any trace of rust. In every case, after most extensive trials, Starkey’s Mammoth Early Prolific has been found immensely superior to the Palmetto and other varieties for Southern planting. We request our customers to place their orders with us early and we guarantee to fill them promptly.

- **Barr’s Philadelphia Mammoth.**
  - Oz. 10c., 1 lb. 25c., 1 lb. 40c., 5 lbs. $1.35; two-year-old roots, per 100 lbs., $1.00.

  - Oz. 10c., 1 lb. 15c., 1 lb. 45c., 5 lbs. $1.25; two-year-old roots, per 100 lbs., $1.00.
  - **Donald’s Elmira.**
  - Prices of seed: Oz. 10c., 1/2 lb. 20c., 1 lb. 60c., 10 lbs. $2.75; strong roots, per 100 lbs., $2.50; two-year-old, per 100 lbs., $2.00; 2-year-old roots, per 100 lbs., $1.00.
  - **Palmetto.**
  - True stock. Oz. 10c., 1/2 lb. 20c., 1 lb. 45c., 5 lbs. $2.25; very strong two-year-old roots, per 100 lbs., $1.50; over 3,000 roots and over $1.50 per 1,000.
  - **Bounvallet’s Giant.**
  - Very early; good quality. Oz. 15c., 1/2 lb. 25c., 1 lb. $1.00; strong two-year-old roots, per 50 lbs., $1.00; per 100 lbs., $1.50.
  - **Giant Early Argenteuil Asparagus.**
  - A Royal French variety. Oz. 10c., 1/2 lb. 25c., 1 lb. 50c. Two-year-old roots, by express or freight, 70c. per 100, $8.00 per 1,000.

**ARTICHOKE**

SUTTON’S SELECTED LARGE GREEN GLOBE. Pkt. 10c., oz. 25c., 1/2 lb. 75c., lb. 82.75.

**SUTTON’S COLOLASS ARTICHOKE ROOTS.** The best and cheapest hog food known. It is without question the greatest root hog fattener in the world. Its yield is so enormous, bordering on the fabulous, that one can scarcely believe the quantity that can be grown from an acre of our Colossal Artichokes. Farmers who have given them a thorough trial the past year report yields from 4 to 10 bushels per acre. We cannot too strongly urge upon every farmer to plant a barrel or more this spring. Plant the Artichokes where you can allow them to remain, and your hogs, if turned into them, will grow fat and healthy, and will not know what sickness is.

They need not be dug in the fall; the hogs should be turned in on them, and will help themselves by rooting for them. One acre will keep from 20 to 30 head in fine condition from October until April, except when the ground is frozen too hard for them to root. They are not troubled with hog diseases; and they are also highly recommended for milch cows, increasing the yield of milk and at the same time improving their condition. They are well adapted to any soil where Corn or Potatoes can be grown. One barrel will seed an acre, though we prefer 3 barrels to 2 acres, and they should be cut the same as Potatoes, one eye to a cut being sufficient, planted in April or May, in rows 3 feet apart and 1 foot in the rows, and covered about two inches deep. To destroy them, they should be plowed under when the plant is about a foot high, at which time the old tuber has decayed and new ones are yet formed. They are not injured by freezing while in the ground.
No market gardener, trucker or shipper should plant any but our German, French, English, or King of the Early Market stringless varieties. They always sell at fancy prices. Other green-podded sorts never do.

MOORE'S GERMAN STRINGLESS

This superior variety is a prolific and continuous bearer and absolutely stringless. Very tender and of a distinct and delicious flavor. Very hardy and extremely early.

This most excellent variety was introduced by us into cultivation in 1915, and is a distinct improvement in green beans, and at once becomes popular wherever known. The rich dark-green pods are produced in marvelous abundance, being thick, long, very uniform in size, and low, meaty, stringless, very brittle and tender. It is almost a continuous bearer, and is among the first to give edible pods in the spring. The yield is enormous, and it is very early, and the handsome rich green pods remain tender a long time. It is likewise an excellent sort for full planting. It is exceedingly popular wherever grown, is of very high quality and is practically mild and rust proof. It is in great demand among truckermen.

Moore's German Stringless
me. It bears tremendous crops.

Moore's German Stringless
bitter quality until late into maturity. It has a delightful flavor and exclusive of its own. It is a fine shipper and the most prolific green bean I ever grew.

Moore's German Stringless
produces such tender pods; besides it is the most delicious shelled bean for winter

Moore's German Stringless
neighbors. I never saw its equal for yield. It bears one big crop after another. J. H. FISHER, Cape May, N.J.

EARLY FRENCH STRINGLESS

Extra Early, Exceedingly Prolific. Long, Straight, Dark-Green Pods

Retains its delicate tenderness even when a little old. This new variety recently introduced by us has become famous in all the bean-growing sections of our country. At Paris, where we first saw it growing, it was surpassed nearly all other sorts on account of its great deliciousness. It cannot be room planted too high for the local gardener or shipper, for it simply sows on itself. It is a true, stringless, round-pod bean, surpassing many varieties for easiness and excellence in the yield being unusually profuse. The pod is of medium length, in color a very attractive dark green, and is unequalled by any other sort for tenderness and fine flavor. We unhesitatingly recommend it to our many thousands of market garden friends throughout the United States being one of the best and most profitable green-pod beans obtainable. Pkt. 10c., qt. 30c., ½ lb. $1.00, lb. $6.75.

French Stringless
Beans sold for $3.50 a hamper, while my Valentines and Refugees only netted $1.40. The pods are long, straight and smooth and without strings. I will never plant another Valentine if I can help it.

A. O. SIMPSON, Rockport, Va.

French Stringless
was the first to pick with me. Every plant was fairly loaded with long, beautiful green pods, solid, tender and of delicious flavor, and showed no string whatever until quite old. They retain their color and tenderness longer than either the Valentines or Refugees, sell more readily and at a higher price.

JAMES C. O'HALLE, Market Gardener, Frankford, Pa.

MOORE'S ENGLISH STRINGLESS (Newington Wonder)

Extremely Early, Unusually Hardy, Wonderfully Productive, Finest Quality

A new early variety with round green pods, entirely stringless, very meaty, delicious flavor, wonderfully tender, remarkably early. Enormously productive, continues a long time in bearing, valuable for private gardens. This bean was introduced by us last year and is popularly ever since.

The bean is stringless at all stages of growth. It combines unusual hardiness and extreme earliness. No market gardener, shipper or grower of vegetables can afford to miss this special strain of beans. All other sorts are obsolete. Profitable to market gardeners. Pkt. 10c., qt. 30c., ½ lb. $1.00, lb. $6.75.

Moore's English Stringless
Bean surpassed all my expectations. It was the very earliest and finest

J. R. S. MILLER, Freehold, N. J.

The Newington Wonder or English Stringless

and French Stringless Beans have been giving me and my neighboring gardeners great satisfaction, they are the best selling sorts we ever had. We have them the best for either the first or the last plantings. We intend to try your Moore's German Stringless next year. Will want in all about ten bushels.

S. T. JONES, Freehold, N. J.

KING OF THE EARLY STRINGLESS

Ready for picking in 40 days from planting. A grand variety for the Market Gardener.

Green beans I ever grew.

It is fully a week earlier than the Valentine or Refugee, Bountiful, Giant Potted Valentine, Longfellow, or any other variety. The pods are longer, and of better shape, and they yield the past season over another more per acre on the same soil. The delicate green color of the pods is retained after cooking, which adds greatly to its attractiveness when served. Fine market sort. A continuous yielder, and very profitable to grow. Pkt. 10c., qt. 30c., ½ lb. $1.75, lb. $6.75.

EARLY SIX WEEKS (Round Pod)

This excellent variety is a great improvement over the old type, being ONE-THIRD LONGER THAN THAT VARIETY. POIS PERFECTLY ROUND, LIGHT GREEN AND STRAIGHT, and fully as early as it has the additional advantage of being suitable both for early and late plantings, being extremely hardy. It will withstand early and late frosts which kill other varieties. A most desirable sort for the market gardener's fall crop, owing to its enormous yielding qualities, large and handsome appearance and ability to withstand care during storage. We recommend it for the Red Valentine or Refugee, being superior to either in appearance. Pkt. 10c., qt. 30c., pk. $1.50, bu. $5.50.

BODGER'S STRINGLESS. Green Pod. Qt. 25c., pk. $1.60, bu. $6.00.

DWARF HORTICULTURAL. Qt. 25c., pk. $1.40, bu. $4.75.

LONGFELLOW. Round pod. Qt. 30c., pk. $1.50, bu. $5.00.

REFUGEES. Round pod. Qt. 25c., pk. $1.50, bu. $5.00.

EXTRA EARLY RED VALENTINE. Improved round pod strain. A great improvement over the old variety. Qt. 35c., pk. $1.75, bu. $6.00.

IMPROVED EXTRA EARLY REFUGEE. Round pod. Qt. 25c., pk. $1.50, bu. $4.50.

REFUGEE or Improved Easter. Round pod. Qt. 25c., pk. $1.25, bu. $4.50.

BLACK VALENTINE. Round pod. Qt. 25c., pk. $1.65, bu. $6.00.

No We will mail postpaid any 3 ten-cent packets of Vegetable Seeds for 25c., or 7 for 50c.
NEW CALIFORNIA RUST-PROOF BLACK WAX

The Handsomest and Most Productive Flat Podded Wax Bean Ever Grown

In this new very early variety introduced by us, we have one of the very best wax sorts offered to market gardeners and private families. It will sell twice as well and at a higher price than many other flat podded sorts. The pods are longer, broader and of a brighter yellow color than any other sort, very superior quality, tender and stringless. The vines are of vigorous growth, leaves dark green, sturdy, and field manners entirely superior. Good from the ground, and has shown any disposition to rust, no matter where grown. It is from eight to ten days earlier than the Davis or Flageolet Wax or any other flat pod wax sort. It is very hardy and will stand more cold weather in the early spring than any other sort. We particularly recommend this valuable new sort to all our market garden friends. Pkt. 10c., qt. 30c., 1/2 pt. $1.75, pk. $1.25, bu. $5.00. Special prices will be quoted upon application for 5 bushels and upwards.

THE MOST VALUABLE.—Gentlemen: I have been growing beans for twenty-four years, and I find your California Rust-Pr of Wax the most valuable ever introduced. I 1/2 bushel, $5.00.

MOORE'S KING OF THE WAX

New, Perfectly Distinct, Immensely Valuable, Marvelously Productive, Extremely Early, Round Pod, and of Very Fine Flavor

This is a first-class wax bean in every respect, having originated with one of our Philadelphia market gardeners, who never sell the seed to his neighbors for less than $1.00 per bushel. Plant of robust, branching habit, should be planted thinly, so as to allow plenty of space for branching. The pods are round, long and of a beautiful, bright, golden transparent yellow color, very tender, stringless and entirely free from rust, and remain tender a very long time. Pods are long, thick, very attractive, very meaty and handsome in remarkable profusion, and continue to bear a very long time. They will mature fully as early as our now famous California Rust-Proof Wax. As a market sort, it invariably brings the "top notch" price. We commend it to all our market garden friends. Pkt. 10c., qt. 30c., 1/2 pt. 55c., 1 pt. 75c., 4 qts. $1.00, pk. $1.75, bu. $5.00. Special prices on a bu. lots and upwards will be made on application.

We will mail postpaid one packet of each of the above three valuable wax beans for 25c. or any seven 10c. pkts. for 30c., or 15 for $1.00.

PROLIFIC EVERBEARING WAX

The Most Productive, Delicious and Best Selling White-Seeded Wax Bean on the Market

This is a first-class wax bean in every respect. The pods are nearly round, of a beautiful bright yellow color, long and hang in perfect clusters well up from the ground; very early and hardy and containing a large and abundant crop; and this combine with immense productivity and handsome appearance and most delicious quality, has made it a favorite with market gardeners everywhere. As a dry bean for winter use it is the best we have ever seen. Pkt. 10c., qt. 30c., pk. $1.75, bu. $5.00.

HOPKINS' GOLDEN STRINGLESS. A very early, round podded sort of great value to the market gardener. A heavy yielder and good market sort. Will stand more cold weather than other wax sorts. Pkt. 10c., qt. 30c., pk. $1.75, bu. $5.00.

HODSON WAX. Perfection Wax. Qt. 30c., pk. $1.50, bu. $5.75.

DAVIS KIDNEY. Wax. Qt. 30c., pk. $1.50, bu. $7.75.

WARDWELL'S KID'ry Wax. Our strain of this sort is very pure. Qt. 30c., pk. $1.10, bu. $7.00.

CURRIE'S RUSTLESS XK. Qt. 30c., pk. $1.25, bu. $5.00.

DWARF BEANS FOR SHELLING

BISMARCK GREAT GERMAN SOUP BEAN. Everybody relishes a good bean soup, but ninety-nine out of one hundred varieties of beans are too large and lack that rich delicacy of flavor that a soup bean should have. Not the German nation is great for good soup. They are known the world over for that, and a bean soup is one of their great specialties. We know while traveling in Germany that everywhere bean soup was served, and the rare delicacy of flavor varied with the pleasure of taste from every traveler. The secret of the whole thing was that they used a small soup bean. The size of the bean is smaller than a small pea, is magnificently flavored, and just the article required to make a magnificent bean soup. A lot of beans will grow sufficient beans to supply a good-sized family all winter, while for baking there is no bean this side of the stars that can get up to it in quality and richness of flavor. Pkt. 10c., qt. 35c., pk. 30c., 4 qts. $1.00, pk. $1.75.

BLACK TURTLE SOUP BEANS. If cooked in the form of a soup until the bean and skin be soft, they will have the exact taste of soup made from the famous Diamond Back Turkey. Pkt. 10c., qt. 30c., 4 qts. $1.00.
SUPERB NEW BUSH LIMA BEANS
MOORE'S NEW GIANT

Sturdy Erect Bushes Filled with Luscious Green Beans, Prodigious Yielder, Early and Continuous Bearer, Handsome Pods 4 to 5 inches in Length

Both pods and beans are twice the size of Kummerle, Thorburn or Dreer's Bush Lima. It is of stiffer erect habit. It branches freely with all the branches held upright, and the pods high above the ground, no pods or beans discolored from resting on the ground.

Moore's New Giant Bush Lima. The beans are ready for use as early as those of the Burpee Bush Lima, bears tremendous crops and furnishes the most delicious beans for the table earlier than most pole varieties. The pods contain four to five handsome large deep-green beans of the most luscious quality and owing to the fact of the beans being so closely packed, they shed very easily.

Moore's New Giant Bush Lima

is a great acquisition for the home garden, in fact it is necessary in every garden; they require absolutely no poles or brush. They will give supreme satisfaction to all who grow them. It is a very prolific and comes again until killed by frost, not only producing immense crops but has a wonderful merit over all other sorts of the "Potato Lima" types both tall and bush. Even when of full size the beans are tender, juicy and sweet of flavor when cooked. This cannot be said of the Challenger, Dreer's or Potato Lima sorts. On account of its close, upright habit it can be planted one-third closer than the old Burpee, Kummerle or Dreer's Bush type.

Moore's New Giant Bush Lima

is destined to become the principal bush variety with all who grow for home market or shipping. It is altogether unique and your claim of superiority is well-founded. I found it two weeks earlier than Dreer's Bush, is pod in size and yielding from a third to a half larger crop. It is not only early but it continues in full bearing until cut down by frost. The pods are borne in large prominent clusters and filled with delicious tender green beans which retain their sweet flavor until the end of the season.

DAVID MYERS, Pleasantville, N. J.

Moore's Big Pod Bush Lima

is quite similar to your Wilk's Prize Pole Lima in that it yields a large bulk of pods and beans. 20 lb. of your BIG POD BUSH yielded during the season 60 baskets, the Fordhook 60, Dreer's Bush 42, and the Burpee's Bush 51 baskets. I picked the first fully developed beans from your BIG POD BUSH just seven days earlier than the other sorts. You have certainly given it a good name, big pods, I should say so, and all the pods are big and filled with luscious big green beans, bigger in fact than any pole limas I ever saw.

SIDNEY JOHNSON, R. F. D., Atoe, N. J.

Walters Thick Green Pole Lima

was the most profitable and satisfactory pole lima we ever grew. The pods were from 4 to 5 inches long and were produced in numerous large clusters. Very few pods had less than 4, and some 6 large, thick, green beans. We averaged 3 cents per pod, on the WALTERS' THICK GREEN, but we did on the King of the Garden or Ford's Mammoth. For home use or market we regard it the most valuable of all pole limas.

SNOAK Bros.
Washington, D. C.

Moore's Big Pod Bush Lima

(See page 7.) Should be planted by every Lima bean grower in the land. It is a real seven days' wonder and it might be aptly termed the eighth wonder of the world. It is also earliness, being 10 days earlier than any other large lima, either pole or bush, makes it far more valuable to either the private planter or market gardener. We have received many letters from our customers writing, "I have tested all varieties and know whereof I speak; give me your Moore's Big Pod Bush Lima for early, and a money maker."

We mail postpaid any ten cent packet for 50c., or 7 for 50c.

Send $1.00 and select seeds in packets or ounces to value of $1.50; better still, send us $1.50 and select packets or ounces to value of $3.00, all mailed postpaid.

Moore's Profit-Making Lima Beans—Every Market Gardener Should be Careful to Plant Our Specially Selected Varieties

MOORE'S NEW BIG POD BUSH LIMA

In this we offer you the EARLIEST, LARGEST and BEST of all LARGE BUSH LIMAS. The pods are truly enormous in size, filled with beautiful luscious green beans larger than any bush Lima ever produced before.

The plants are uniformly upright. The plant has heavier foliage, and is of more vigorous growth than our IMPROVED LARGE BUSH LIMA or BURPEE'S BUSH LIMA. Fully grown bushes measure 2 or more inches high and about the same across the top. It will outyield the above sorts from a third to a half. It thus makes it of immense value to the market gardener.

Moore's New Big Pod bush Lima when compared with the older sorts is radically different; the pods are borne in clusters and the beans are much larger, while the beans either green or dry are about twice as thick and of the same luscious flavor as our Giant Bush or Walters' Thick Green Pole Lima. The beans either fresh or dried are of a delicate greenish white color, and are ready for use from 6 to 8 days earlier than the earliest pole Lima. We would like to tell you many more nice things about it if we had the room. Pkt. 15c., qt. 25c., 4 qts. $1.50, pk. $2.50, bu. $9.00. If beans or peas are to be sent by mail add 5e per pint and 15c. per quart to catalogue prices.

Kummerle or Dreer's Bush Lima. Generally known as the Potato or Thorburn Lima, this Lima was introduced by us in 1898, and is an improvement on our BURPEE'S BUSH LIMA. The plants are upright and compact in growth, and are completely covered with large pods, many of which contain four beans fully as large as the pole limas. Q.t. 30c., 2 qts. 55c., 4 qts. 85c., pk. $1.50, bu. $6.00.

Fordhook Bush Lima, (True Stock), A new variety of much merit. Pkt. 15c., pt. 25c., qt. 40c., 2 qts. 75c., 4 qts. $1.25, pk. $2.50, bu. $8.50.

Burpee's Bush Lima. True quarter century strain. Q.t. 25c., 3 qts. 50c., 4 qts. 90c., pk. $1.50, bu. $5.75.

Henderson's Improved Bush Lima. Of hardy growth and very prolific, bearing continuously until the end of the season. Very extensively grown in some sections. Pkt. 30c., qt. 30c., pk. $1.50, bu. $6.25.

Moore's Improved Large Bush Lima. This large Bush Lima comes absolutely true from seed. It is pronounced by all good judges to be unquestionably distinct and superior in every way; it is of a splendidly vigorous, upright and bushy habit of growth, yielding succulent large lima beans in great abundance, and equalling in size those of our famous Wilkie Prize Pole Lima. The bush grows 18 to 20 inches high, of stout growth and always erect. It is an immense yielder, the handsome large pods being well filled with from 3 to 4, and sometimes 5 very large beans of a beautiful green color, identical in size and luscious flavor to the well-known large pole lima. This strain produces beans too large to list in 10 to 11 weeks from the time of planting, and market gardeners will find it no strain to grow as productive as our Improved. We are continually improving it every year. Pkt. 10c., pt. 20c., qt. 30c., 4 qts. $1.00, pk. $2.50, bu. $8.50.

CERTAINLY GOOD.—The Club Order I sent you for nine bushels of Moore's Improved Large Bush Limas were certainly good seed. Both pods and beans were large and there was not a runner in the entire lot; and best of all they sold well.—S. C. COURTENAY, EASTERN SHORE, VA.

SEND us $1.00 and select seeds in packets and onions to value of $1.50, or send $2.00 and select seeds in packets or onions to value of $5.00.
POLE LIMA BEANS

Superior Varieties for Market Gardeners

WILKIE’S PERFECTION PRIZE LIMA

The Standard Pole Lima Bean. A Grand Acquisition

This world famous variety originated, and the seed was grown by a noted Philadelphia market gardener who assures us to distribute it to all those who wish to grow the most profitable and delicious of Pole Limas. Mr. Wilkie was over 25 years perfecting this truly valuable variety and which is unerringly pronounced to be the best large Pole Lima Bean in cultivation by thousands of market gardeners throughout the United States. The beans shell easily, are large, very tender, sweet and juicy, of a fine green color, and enormously productive—(12) pods have been gathered from a single vine, single pods yielding from 5 to 7 large beans. The vines while young produce pods in great abundance and continue to grow and bear profusely the entire season. This is unquestionably the earliest, best, and most profitable variety for the market gardener to plant; the beautiful green color and delicious quality of the beans always create a big demand for it wherever known. Pkt. 10c., qt. 30c., qt. 40c., ½ pk. $1.35, pk. $5.35, bu. $8.50.

READ WHAT OTHERS SAY:

IMMENSE CROP.—The Wilkie Prize Limas I bought from you last year were the wonder of the neighborhood for earliness, yield and size of pods. In spite of the drought I had an immense crop.—WILLIAM SINGLEY, WILLOW GROVE, PA.

GRAND SUCCESS.—An old customer of yours persuaded me last season to plant the Wilkie Lima. I planted 16 quarters and had grand success.—JOHN LONG, PITTSBURG, PA.

PLANTED THEM ELEVEN YEARS.—I have planted your Wilkie Lima for the past eleven years, getting fresh seed from you every year. I have tried many other sorts but find it best. I believe he is the earliest Pole Lima on the market, and the most profitable of its class.—PETER LEANING, MARKET GARDENER, CAYE MAY, N. J.

MOST PROFITABLE.—Your Wilkie’s Perfection Lima and Walter’s Thick Green were planted by me last year for shipping to New York and Boston in limpers, and I found them to be the most profitable sorts I ever grew. The beautiful green color of the large plump pods and beans seemed to take the eye of every buyer at the station. They were always sold for 25 to 30 cents more per limper than any other pole lima brought to this station. The yield of both sorts was marvelous, right up to hard frost. Will be sure to buy all my seed from you another year.—L. O. SMITH, WOODRUFF, N. J.

VERY RELIABLE.—I have been buying my Lima beans from you for the past 15 years and have always found you very reliable. Your Walter’s Thick Green and Cape May Giants are my favorites.—CHAS. F. NICHOLSON, R. F. D., NEW CASTLE, DEL.

Walter’s Prolific Thick Green Pole Lima

A grand selection, possessing great merit. Of most delicious quality. Will always command the highest market price.

Our illustration hereewith, which was taken from a photograph, aptly illustrates the shape and compact habit of the bean. It originated and was grown for many years by Mr. Henry Walter, one of the most successful Lima bean growers of Gloucester Co., N. J., and who always jealously guarded his seed from "outsiders." By paying him an enormous price we finally induced him to grow seed stock which we now offer to our many market gardener friends. This variety invariably commands a higher price in all markets than any other sort, and it will be found very profitable to grow by all who plant for profit. The distinctive improvements are its remarkable productivity, delicious flavor, and the forming of the beans so closely in the pod. Vines vigorous and productive, with pointed leaves and white blossoms. Pods broad, straight and thick. Beans dark green, tender, sweet and juicy, medium size, broad and much thicker and greener than any other type of Lima, and formed very close together in the pod. This is an excellent sort for the family garden and the best of all sorts for canning purposes. Pkt. 10c., Qt. 30c., pt. 30c., ¼ pk. $1.15, pk. $5.30, bu. $8.50.

SEIBERT’S LARGE JERSEY EXTRA EARLY

The most prolific and early. Pkt. 10c., Qt. 30c., pt. $1.05, bu. $8.50.

King of the Garden. Qt. 30c., pt. $1.75, bu. $6.75.

Early Leviathan (New). Early and productive. Pkt. 18c., Qt. 30c., 4 qts. $1.00, pk. $1.85, bu. $7.00.

Cape May Giant. An extremely valuable new variety which should be known to every Lima bean grower. Very early, wonderfully profuse bearer and vigorous grower, beans large, pods borne in clusters of superior quality and immense size and filled with immensely large beans of a beautiful green color, and always command fancy prices. Pkt. 15c., Qt. 30c., Pt. 30c., 4 qts. $1.75, pk. $3.00, bu. $11.00.

Dreer’s Improved or Challenger. Thick, round bean of fine quality and a heavy yielder. Pkt. 10c., Qt. 30c., 4 qts. $1.00, pt. $1.75, bu. $6.75.
These pole varieties should be sown 2 weeks later than the Bush varieties. They should be enriched with well-rotted manure in the hills; from 3 to 6 seeds are planted in each hill.

---

**True Yard Long or Wonderful Cuban Asparagus Bean.**

- **WREN'S EGG POLE BEAN.**
- **GOLDEN CARMINE HORTICULTURAL STRINGLESS.** Exceeds in earlyness, quality, handsomeness of appearance and productivity. In this new strain we have a wonderfully robust grower. The pods are large, stringless, bright golden color when very young. The vines are vigorous and very prolific. The thick pods are handsomely marked and hang in great clusters over the whole length of the vines. Taken at almost any stage up to absolute ripeness the pods are stringless and quickly cook to an almost jelly-like consistency. The quality is excellent, preferable to our state to most of the dwarf "snap" or butter beans. Pkt. 10c., pt. 35c., qt. 40c., 2 qts. 75c.

**SCARLET RUNNER.** Ornamental as well as useful. It grows 10 feet high, and produces bright scarlet flowers, followed by large shell beans. Pkt. 10c., pt. 30c., qt. 35c.

**IMPROVED DUTCH CASE KNIFE.** Early, productive, and excellent, whether used green or dry. Vines vigorous, climbing well. Pkt. 10c., pt. 20c., qt. 30c., pk. $1.50.

**NEW GOLDEN LAZY WIFE'S POLE.** It is nothing unusual to pick 3 bushels to 3 pecks from a single vine. The pods are 6 to 8 inches long, broad, thick, silvery, a beautiful yellow, and entirely stringless, surpassing all other varieties in this respect, and retaining these important qualities until almost ripe. Extremely rich, buttery and fine floured. The vines cling well to the poles. They continue bearing in great abundance when the vines are quite young, and continue to bear profusely the entire season. The beans when dry are pure white in color, and make a fine shell or winter bean. Pkt. 10c., pt. 25c., qt. 40c., pk. $1.00.

**YARD LONG, or CUBAN ASPARAGUS BEAN.** Pods grow from 2 to 4 feet long and are produced in great abundance. In color they are a beautiful green; tender and delicious, so that they not only prove a great curiosity wherever grown, but also a desirable variety as well. The pods are broken into suitable lengths while young, cooked and served with a drawn butter sauce, much as asparagus. Pkt. 10c., 3 for 25c.

**TENNESSEE WHITE CORN HILL BEAN.** It is undoubtedly the best variety ever grown for planting among corn, thus securing 2 crops easily from the same ground with but little extra labor. The vines are productive green pole bean in cultivation. As a green snap bean they are superior to any sort grown. While it is the earliest pole bean grown it will continue to bear until frost if the pods are removed while yet young. Don't fail to plant a dozen or more hills among your corn. Pkt. 10c., pt. 20c., qt. 35c., 4 qts. $1.25.

**FAMOUS SOUTHERN BUTTER LIMA.** This variety of pole beans is a little larger, and it is earlier to mature than any of the other pole sorts. It is a remarkably prolific, of delicious quality, a continuous bearer, easy to shell, and is excellent for pickling in clusters. We strongly recommend it to all our customers as a distinct, valuable and highly desirable pole lima bean. All who have home gardens should plant it. Pkt. 10c., pt. 25c., qt. 40c., pk. $2.00.

**KENTUCKY WONDER WAX BEAN.** In saying that this bean is even more prolific than its green-podded namesake we do not overstep the bounds of truth. It commences to bear when scarcely higher than the average bush variety, and keeps on producing until killed by frost. In some comparatively frostless districts it has continued in bearing from June to December. The illustration shows the height of the vine and its enormous productivity. It is a rampant grower, the vine filling a hole with a mass of vines densely loaded with lushy beans. They are solidly meaty, entirely stringless, and when cooked, deliciously rich and buttery. The seed is brown, closely resembling that of the Kentucky Wonder. Pkt. 10c., pt. 20c., qt. 35c., 4 qts. $1.25, pk. $2.50.

**WREN'S EGG BEAN.** Stringless pods hang in enormous clusters. Beans large, beautifully spotted and spotted with red, and of the highest quality. It is a capital pole bean, taken to the pole exceptionally well. Being stringless it makes an excellent snap bean at any stage of growth, and when ripe is unsurpassed for baking or boiling. Pkt. 10c., pt. 25c., qt. 35c., pk. $1.75. We will send postpaid any 30c. packets for 25c., or 7 packets for 50c.

**OLD HOMESTEAD or KENTUCKY WONDER.** It is enormously productive, the pods hanging in great clusters from top to bottom of the pole. It is entirely stringless, and the pods are of a silvery green color, resembling the popular Refugee Bush Bean. Vine vigorous, climbing well, and very productive, bearing its pods in large clusters; pods green, very long, often reaching 8 or 10 inches, nearly round when young, and very crisp. An early and very prolific sort, with showy pods which are excellent for snacking. Pkt. 10c., pt. 25c., qt. 35c., 4 qts. $1.75, pk. $6.00. We will send postpaid any 30c. packets for 25c., or 7 packets for 50c.
THE THREE MOST PROFITABLE Sorts for YOU to GROW—
they are the kind that make money for those who sell them. You will be
pleased with any or all of them. The up-to-date grower will plant some of
each of the three following.

Wesley’s Earliest Market Beet. One of the most
wonderful early
dark blood beets of the century. A handsome dark red, fine grained,
shabby, handsome, second early and late maturing. The largest
dark red early beet ever grown. Meets a long-felt want among beet growers. Every beet
salable. Always brings the highest market price. This excellent beet is an improved
for Wesley’s Early Blood Red Beet,” so extensively grown in the south
of France for early shipment to the Paris and London markets, where it is held in higher
esteem than the Bastian, Lents, Dewing’s and Egyptian strains, together with its being much better
adapted to growing under sash, owing to its very few and small leaves, thus rendering
it very profitable to the market gardener. It will invariably command the highest
market price, and not infrequently sells at a higher figure than any other sort. For a
general purpose beet it is unsurpassed. The quality is the highest, being very
tender, sweet and juicy, even when the leaves die off from age. It will also be found
to be the best house forcing beet, as our numerous testimonials will show.
Pkt. 5c., oz. 10c., $3.25, lb. 75c., 1 lb. 5 lbs. $3.50.

Nutting’s Extra Early Gem. Mr. Nutting’s success and fame as an
early beet grower has extended
over a long period of years, and the giving of this grand new early beet to the public through
our firm, he has purchased his stock—so considers the crowning effort of his
life. His neighbors have frequently offered him fabulous sums for this seed, so highly do
they prize it for its extreme earliness and beautiful red color and fine quality. Its
characteristic features consist in its being two weeks earlier than the Bastian, Lents, Dewing’s and Egyptian or Detroit strains, together with its being much better
adapted to growing under sash, owing to its very few and small leaves, thus rendering
it very profitable to the market gardener. It will invariably command the highest
market price, and not infrequently sells at a higher figure than any other sort. For a
general purpose beet it is unsurpassed. The quality is the highest, being very
tender, sweet and juicy, even when the leaves die off from age. It will also be found
to be the best house forcing beet, as our numerous testimonials will show.
Pkt. 5c., oz. 10c., $3.25, lb. 75c., 5 lbs. $3.50, 10 lbs. $6.00.

New French Trevise. Positively the earliest dark
blood red variety ever in-
trduced and we recommend every one of our 35,000 market
gardener friends to plant it largely—it will make big money for
them all. It is as symmetrical as a small orange and is in its prime
when the leaves are about one fourth inch in diameter. Skin very
an early beet grower in France—was
extended
Nutting’s Extra
Early Gem is well adapted for growing under sash. We doubt if any seedsman will ever be able to produce an
early beet better than this. Marketable beet is thirty days in its record.
Owing to its very rapid growth it will be found very profitable for
late summer sowing. Pkt. 5c., oz. 10c., $3.25, lb. 75c., 5 lbs. $3.50, 10 lbs. $6.50.

Arlington Favorite Extra Early. (Our Spec-
ial Stock.) This very early dark red variety has many points in its favor for
market gardeners. The top is short, small and well adapted for
growing under sash; for open ground planting it will be found one of
the finest dark red early varieties to be had, the seeds of any other variety obtainable,
much superior to many existing varieties. The roots are perfectly
smooth, of beautiful round shape, intense blood red skin and flesh, fine grained, and very sweet. It is earlier than Bastian, Dewing’s or Lents, and will be found valuable for sowing for an autumn or
winter crop. It never becomes woody nor stringy and sells at top
market prices. Pkt. 5c., oz. 10c., $3.25, lb. 35c., 1 lb. 75c., 5 lbs. $3.50.

American Egyptian. Much superior to the old type
of imported seed. This is
much earlier, has a shorter top, not so flat, and will not crack. Oz.
10c., ¼ lb. 25c., 1 lb. 75c., 5 lbs. $3.50.

CROSBY’S IMPROVED EGYPTIAN. Very fine stock. Oz.
10c., ¼ lb. 30c., ½ lb. 50c., 1 lb. 25c., 10 lbs. $5.50.

BASTIAN’S EARLY HALF LONG. True seed grown by
Bastian. Very choice strain. Oz. 10c., ¼ lb. 15c., lb. 45c., 10 lbs. $2.50.

MOORE’S ALL SEASONS. (New.) Fine dark red tender sort,
vieat. Oz. 10c., ¼ lb. 30c., ½ lb. 50c., 5 lbs. $4.50.

PENNY’S EARLY RED TURNIP. ½ lb. 15c., lb. 45c., 5 lbs. $1.00.

SELECTED EXTRA EARLY LENTZ. Original stock seed
sold by Lents. Much superior to that ordinarily sold. Very
fatter and sweet, fine profitable market sort. Oz. 10c., ¼ lb.
35c., ½ lb. 75c., 5 lbs. $3.50.

DEPOIT EDEL TURNIP. Our strain is extra good. Oz.
10c., ¼ lb. 25c., ½ lb. 65c., 1 lb. 75c., and upwards 50c. lb.

LENTZ TURNIP. Flesh pale red. Oz. 10c., ¼ lb. 15c., lb. 45c.

EGYPTIAN. Of good quality when young. ½ lb. 15c., lb. 50c.,
10 lbs. $3.50.

EXTRA ELYS ECLIPSE. ¼ lb. 20c., ½ lb. 50c., 1 lb. $4.50.

ITALIAN RED. Very dark blood red, very sweet and good
size top. Good fall and winter sort. Oz. 10c., ¼ lb. 25c., ½ lb. 75c.

FRENCH SWISS CHARD. (True Spinach Beet.) The best
and most popular of all spinach sorts. Oz. 10c., ¼ lb. 25c., ½ lb. 75c.

CRIMSON GLOBE. Oz. 10c., ¼ lb. 25c., ½ lb. 75c.

EARLY MODEL. New. True stock from England. Early
seed deep rich blood red crimson. Oz. 10c., ¼ lb. 30c., lb. $1.00.

ELECTRIC. Very early, dark red turnip, fine grained. Oz.
10c., ¼ lb. 25c., ½ lb. 75c.

LONG SMOOTH BLOOD. Late intense dark red. Oz. 10c.,
1 lb. 10c., 5 lbs. 40c.

DEPOIT S IMPROVED BLOOD TURNIP. Oz. 10c., ¼ lb.
1 lb. 10c., 5 lbs. 40c.
**BEETS—Continued**

**LUMP OF SUGAR.** Early? Yes; it will mature fine specimens in 40 days from sowing for the pro-\textit{ductive} market gardener. Less productive, market gardeners will find at least 1 lb. the lump of sugar, in color, is deep blood red; inside layers of blood red and light red alternately. They are beautiful when cooked, fine grained and unsurpassed in quality. It continues to grow till late in the season, containing a large size, and making a good saving and eating beet for winter. Everybody who has tasted it will want it a second and third time. **An account of its tender and sweet sugar flavor,** is one of the great money-maker, as its fine shape and size bring for it excellent prices wherever offered. Everybody is pleased with it. It makes friends everywhere. Its flavor is superb and its quality is never found wanting. Indeed, our Lump of Sugar is among the best for the family garden. They never fail to last till the first of March. It will not disappoint you, Mr. Market Gardener. Pkt. 5c., oz. 10c., ½ lb. 30c., lb. 75c., 5 lbs. $3.00.

**Strasburg Dark Blood Half Long.** We have obtained one of the most valuable and successful market gardeners. The shape is medium half long, nicely shouldered and tapering gradually to the point. It is very sweet, smooth, of quick growth and a good keeper. Market gardeners will find it the best and most profitable half-long sort to grow. Pkt. 5c., oz. 10c., ½ lb. 30c., lb. 75c., 5 lbs. $3.00.

\textbf{The Ideal in Color, Shape, Size, and Quality!}

**SILVER ASPARAGUS.** This is a most delicious vegetable, with a very delicate flavor and slightly acridulous taste. The stalks and midriffs are cooked and eaten the same as asparagus, while the young leaves are cooked and eaten like spinach. It is a great favorite in England, France and Germany, where it is found in almost every garden. The culture is the same as ordinary beets. Plants should be thinned to 10 inches in the row. We earnestly recommend all our customers to grow this delicious vegetable. Pkt. 5c., oz. 10c., ½ lb. 35c., 1 lb. 65c.

**Moore's Superior Sugar Beets and Mangel Wurzels**

In our opinion no crop is a better paying investment for farmers to grow than Mangel Wurzel Beets. The value of these for stock feeding cannot be over-estimated. The results from their use are wonderful, as clearly shown in the improved health and condition of animals, the increased yield of milk in cows, and the great saving of hay. They can be raised at a very trifling cost and our selected seed will yield immense crops per acre. Certain wealth and prosperity is assured all stock or dairy farmers who feed liberally on these. They are a valuable food to give brood sows during the winter. They are fed in conjunction with grain they keep the animals healthy, the hair glossy and the system cool. Fattening hogs like them as a change from corn and they keep the appetite up well. It is difficult to obtain a full yield of milk in winter without succulent feed, and mangel supply this to the dairy cow in a palatable form. Mangel spread the calves along during the winter. Plant an acre this spring. If by mail, add for postage at the rate of 10 cents per pound on Mangel Wurzels.

**New England Milk and Butter Mangel.** The feeding of this variety will increase your dairy profits from 25 to 30 per cent. It contains less water and more sugar and nutritious matter than any other mangel. In England, where it is considered indispensable for dairy farming, large dairy farmers state that they are not only able to obtain a higher price per gallon of milk from cows fed on this mangel, but also that the cows produce fully one-third more milk and butter and are in much better condition fed on this and the Milk and Butter Mangel, than if fed on hay alone. The largest yield of cattle food ever known has been obtained from this variety. Chemical tests show it to contain 20 per cent. sugar, while other sorts only analysis from 6 to 12 per cent. It is a compact grover, and if growing on well fertilized, this variety will stand closer cultivation than any other. The root and top is red and very smooth. Oz. 10c., ½ lb. 25c., oz. 50c., 5 lbs. $1.25, 10 lbs. $4.00.

**Danish Long-keeping Sugar Mangel.** The flesh is a deep golden yellow and is of high fat storing value. Sheep and most stock have a preference for it over various varieties. It is the longest and best keeping of all mangels. The root will keep in perfect condition till June. The yield per acre under best cultivation is simply enormous, is perfectly suitable for calcareous soils. Oz. 10c., ½ lb. 30c., oz. 50c., 10 lbs. $2.50, 50c., 5 lbs. $3.25, 10 lbs. $4.00.

**Brussels Sprouts.**

**Veitch’s Market Favorite.** Produces a very early crop of large, solid sprouts, delicious in flavor. Leaves small, crumpled, pale green in color, standing well out from the stem. The finest of all sorts. Especially grown for market gardeners. Pkt. 10c., oz. 30c., 1 lb. $1.00, 5 lbs. $3.00.

**Sutton’s Snow-White Broccoli.** This valuable new sort is a decided acquisition. The immense large, close, snow-white heads are of spotless purity, alike valuable for a spring or fall crop. And a sure cropper when left under the succulent. Extra early variety unusually profitable to cultivate. Pkt. 35c., oz. 75c., oz. 25c., ½ lb. $1.00, 1 lb. $5.00.

**Extra Early White Cape.** Heads medium size, close, of creamy white color. Pkt. 10c., oz. 50c.
New Early Gem Cabbage

Procurable only from
THE MOORE SEED CO., Philadelphia
A valuable new acquisition for all who grow early cabbage. Earliest hard heading cabbage known. A great boon to the market gardener.

All who plant EARLY CABBAGE should plant this. It means big money to all who plant it.

It has taken us ten years of hard, continuous labor to produce and perfect the New Early Gem Cabbage, which for extreme earliness and hardness of head, is the peer of early sorts. Every quality of cabbage is grown, specialists have been struggling to combine a hard head with earliness and it must be conceded that until now all their efforts have failed and that the great desideratum has been left to us to accomplish.

We feel confident that at last a variety has been produced which combines extreme earliness with hardness and good size; likewise delicious flavor, tenderness, sweetness and productivity. This is another valuable feature which makes the Moore's Early Gem Cabbage valuable for market and garden. It is the same as if you were to bring into consideration by all, viz.: Its compactness of growth. Notwithstanding the large size of its head, the leaves are very few, small, and set close to the head. So compact is its growth that 15 lb. heads can be grown to the acre without any extra price. We earnestly commend it to all our many thousands of customers.

Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $3.00.

Moore's Selected Beauty Wakefield. This is the best type of Early Wakefield. Our strain is universally conceded to be the best type of Wakefield early cabbage in cultivation. The heads are remarkably hard, of being planted variously, and its firm texture all at once. It has always been our aim to have the very finest strain of this important variety and it pleases us to state that we have a really superior strain for our Market Garden Friends and we hope those who will avail themselves of the opportunity will get our extra stock of this valuable early variety.

Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $3.00.

Large Early Ox-Heart. For many years past the true type of this valuable cabbage has been offered by any American seedsmen. We are proud to say that we are now enabled to offer to our patrons the true type of this long famous and valuable old sort. We pronounce it the very best early Ox-Heart Cabbage in existence. The heads are nearly twice as large as the Early Jersey Wakefield, often weighing fifteen pounds, and nearly as solid as our Early Hard Head, and of very compact growth. It also stands the cold better than many other sorts. Its leaves are very few, cut; thus admitting of close culture—upwards of 12,000 can be planted to an acre. Our market-gardeners who use it have been uniformly pleased with it. It is particularly adapted to thin, light soils. This is a great acquisition, as every cabbage grower will at once recognize.

Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $3.00.

Boston Early Hard Head. This superior variety nearly equals Jersey Wakefield in earliness, and forming very small, large heads, very uniform in shape and general appearance, fine grained, short stalk, with few loose leaves, thus allowing them to be set near together; it also has a very valuable quality of remaining much longer in fair condition than any other early variety, without cracking or bursting. It is likewise an excellent sort for winter. Try it. Pkt. 10c., oz. 25c., 1/2 lb. 75c., lb. $3.00.

CROWN JEWEL. A good second early sort with large solid flat head. Excellent for fall or winter crop on light soils. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $3.00.

CHARLESTON LARGE EARLY WAKEFIELD. The uniformity and trueness of our strain is appro- proved by the many thousands who use it. Pkt. 10c., oz. 50c., 1/2 lb. 75c., lb. $3.00.

EARLY JERSEY WAKEFIELD. Our stock is well selected and has no equal. Pkt. 5c., oz. 25c., 1/2 lb. 75c., lb. $3.00.

IMPROVED EARLY SUMMER. Our own highly selected type. Pkt. 10c., oz. 25c., 1/2 lb. $2.00.

PHILADELPHIA EARLY WINNERS TAI. Much superior to imported seed. Solid heads, with short side stems. Pkt. 5c., oz. 20c., 1/2 lb. 60c., lb. $1.00.

EARLY SPRING. Medium size flat heads. Pkt. 10c., oz. 30c., 1/2 lb. 70c., lb. $2.50.

HENDERSON'S SUCCESION. (True Stock.) Our stock is unusually fine. Pkt. 10c., oz. 25c., 1/2 lb. 75c., lb. $3.00.

THE LUPTON. (Originator's own seed.) Pkt. 10c., oz. 20c., 1/2 lb. 60c., lb. $2.00.

THE HOUSE. Carefully grown seed, late sort. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $3.00.

THE LEADING EARLY VARIETY.

Selected Large Early Ox-Heart.

Having made a specialty of growing Cabbage Seed for a great many years, for seed purposes, we know that we are in a position to fully appreciate the trouble and pains of the grower in the selection of the heads that have to be set out each season, and from which our seed is saved. There is no crop which depends more upon the quality of the seed than the Cabbage, and the old CABBAGES is of the utmost vital importance if you expect satisfactory results. The seed we offer we know is not surpassed anywhere for beauty, texture, and vitality before it is sown. We are most particular with our customers, so that success is certain where soil and seed are favorable. Our one aim has always been, and is, to sell at reasonable prices, and as low as any reliable firm in the American Seed Trade who has an honest reputation for offering only strictly first-class Cabbage Seed to their customers.

We Offer You the Best Cabbage Seed in the World

NEW MODEL SUMMER CABBAGE

The grandest summer cabbage in existence. In the illustration we display what we consider—as well as all those who grow,—the finest type of summer cabbage in existence, whether for medium, early, or winter use. You will never grow a better cabbage unless you plant the leaves during hot summer days. We say, without exaggeration, that it is the finest summer and winter type of cabbage, and we have found that for summer use it has no equal. It is the cabbage in every respect for the market gardener or private planter, being large in size, handsome in color and of the finest quality. It is a small probability, the most practical, and to plant for summer use, a crop is sure, no matter when planted. The quality is excellent, tender and sweet. All our varieties of summer cabbage have, for many years been the acknowledged standard of excellence by every one interested in this important seed. It will hold up in good condition longer than any other kind. For compact growth and size, it is without a peer; and as Mr. William L. Lippincott, of Morton, Pa., writes us: "It is the best and most reliable summer cabbage I ever grew."

Pkt. 10c., oz. 30c., lb. 85c., lb. $3.00.

"I have been planting your Model Summer Cabbage for 5 years. It produces large heads, and most reliable summer cabbage I ever grew."—SIMON WILCOX, R. F. D., FREEHOLD, N. J.

Moore’s New Early Stonehead Cabbage

A highly Valuable Novety. Will surely please all who plant it. A good type all by itself. An early, very hard, heading variety maturing from 3 to 4 days later than our Early Summer Cabbage. Somewhat globular in form, with a heart, somewhat globular, shaped, small, well shaped leaves, small, very close and of fine, delicate texture; can be planted very close, about 20 inches in the row. A money maker for market gardeners, and very suitable for the home garden. Heads medium size, heavy and hard, solid as a stone—our customers say, it is a sure solid header, always produces a crop, the heads though hard in winter burst. The superb hard heads are excellent for making salo or sauerkraut, and owing to their great solid keep well when stored for winter use. A first type for selling in salads. It is now extensively grown in all parts of the country and is universally pronounced a great success. Pkt. 10c., oz. 30c., lb. 80c., lb. $3.00.

LARGE DARK RED DANISH. (Danish Round Red.) Unquestionably the largest and finest round red cabbage grown. Heads medium size, heavy and hard, solid as a stone—one of our customers said, it is a sure solid header, always produces a crop, the heads though hard in winter burst. The superb hard heads are excellent for making salo or sauerkraut, and owing to their great solid keep well when stored for winter use. A first type for selling in salads. It is now extensively grown in all parts of the country and is universally pronounced a great success. Pkt. 10c., oz. 30c., lb. 80c., lb. $3.00.

IMPROVED EARLY RED DUTCH CABBAGE. By careful selection we have greatly improved this sort in size and color, and our improved strain will give universal satisfaction for an early crop, will mature about 3 weeks earlier than Large Dark Red Danish. Very solid dark red heads of medium size. Good market sort. Pkt. 10c., oz. 30c., lb. 80c., lb. $3.75.

RED ROCK. An old American variety, Not so large nor solid as our Large Dark Red Danish Drumhead. Pkt. 10c., oz. 30c., lb. 80c., lb. $3.00.

BOSTON EARLY HARD HEAD. No One Should Miss Planting This. This superb variety nearly equals Jersey Wakefield in erininess, and forming very much larger head. It is a very distinct type of cabbage and highly praised by hundreds of the most successful market gardeners of the country. Very uniform in shape and general appearance, fine grained, small short stump, with few loose leaves, thus allowing them to be set out near together; it also has a very valuable quality of retaining much longer than any other, after fall maturity, without cracking or bursting. It is likewise an excellent sort for winter, and is probably the hardest of all the cabbages in cultivation. It makes a fine basket cabbage. Try it. Pkt. 10c., oz. 25c., lb. 85c., lb. $2.50. 5 lbs. and upward $4.25, per lb.

BRUNSWICK NETTED SAVOY. The Hardest Heading, and Best Variety for Early or Late Crop. Heads large, very compact, solid and deliciously tender and sweet, and well adapted for either early summer or late autumn and winter crop. Entire “pits” of it will keep in perfect condition until May. Walter P. Payson, of Payson, Wis., writes: "I have grown all the advertised kinds of Savoys, but found no other half so good a keeper, it being in good market condition on the 15th of May. It also differs from all other kinds of Savoys in its being able to stand late frosts in the field better than the Lee or Marville strains. Its rich, sweet flavor of surpassing excellence and fine, curly, netted look, causes it to outdo all other varieties. Every valuable for rapid raising and quick to develop. Pkt. 10c., oz. 35c., lb. 75c., lb. $2.50.

AMERICAN DRUSKHE CABBAGE. Our American grown seed is much superior to the imported. It is a hardy, larger, and later than our famous Brunswick Netted Savoy. Pkt. 10c., oz. 30c., lb. 50c., lb. $1.75.

SUREHEAD CABBAGE. We are headquarters for this famous cabbage which was first introduced 33 years ago (1872), and our stock is as good as it ever was. It produces large round flattened heads of the flat Dutch type, and is remarkable for its certainty to head. It is all head and always sure. We have never had any complaints against it. The heads are remarkably uniform, extremely hard, fine in texture, and ordinarily weigh from 10 to 15 pounds each. It is very sweet flavored, has but few loose leaves, keeps well, is good for shipping, and is just the variety and quality to suit all lovers of good cabbage. Extra selected seed. Pkt. 10c., oz. 25c., lb. 90c., lb. $2.50.

Moore’s New Stonehead Cabbage

"Moore’s Stonehead Cabbage is a very pure strain in the sense that the best I have grown is 15 years. It is a wonders out of 100 plants only 1 died to head hard. Neither worms nor lace borer."

—JOHN S. CROSBY, MANHEIMER, N. E.

Boston Hardhead Cabbage

Brunswick Netted Savoy

Genuine True Stock of the Valuable Variety Cabbage Seen Here From Us
Moore’s Famous American Grown Cabbage Seed

Moore’s New Model Cabbage

What we claim for Moore’s New Model Late Cabbage:

1st. Uniformity. In one field of three acres there was not a single plant thrown out, or that showed, in any respect, any variation from a true and valuable type.

2d. Uniformity and Solidity of Head. In this respect it is a vegetable wonder, as the heads are of about equal size and shape, weighing from 15 to 25 pounds each.

3d. Quality. Unlike most types, the heads are of a rich color, solid, and the leaf does not roll up into the head nearly as far as in all other types, and the flesh is exceedingly firm, tender and white, making it a most desirable form for kraut, as well as for all other purposes for which cabbage is used.

4th. Hardiness. In this respect we have never seen a type which would favorably compare with Moore’s New Model. The most severe winters ever known in this section did not inflict the slightest injury to the Moore’s New Model. While all other kinds suffered terribly, not a head of this was lost, and while others have partially or totally dropped out, our fields of this give promise of an enormous crop. In fact, it is already secured, and at the present writing ready for the harvest. We think this point of hardiness of great importance to the shipper.

5th. Earliness. This type is remarkable for its quick-growing habit. We have noticed particularly this type, and that it will mature its heads fully two weeks earlier than any of our late growing kinds. Let us be fully understood in this matter. If we plant sets of any of our winter cabbages on July 1st, Moore’s New Model need not be sown before July 15th to August 1st—a quick of growth for a winter sort. This excellent new variety is adapted to all climates, all soils—like all other cabbages thrives best in good rich soil. Price of Moore’s New Model Cabbage: pkt. 10c., 3 pkts. 25c., oz. 40c., ½ lb. $1.00, lb. $3.00.

HOLMES’ Houser Cabbage.

This famous cabbage has gained steadily in popular favor. No other variety can approach the Houser in quality, size, productiveness, smallness of heart and keeping qualities. It is remarkable what enormous crops are produced from this particular stock. To keep this seed pure requires a great deal of attention and care, and we have contracted with Mr. Houser, the originator of this cabbage, to grow for us yearly one pound of stock seed, for which we pay him about $8. This seed is then sent to our planters, where it undergoes the second selection. Our contract with this grower is that he shall not allow a single grain of this particular seed to be sold to any other seedsmen; consequently the pure and genuine stock can be had only from us direct, or from some of our regular wholesale dealers, to whom we sell the seed. It is very fine-grained, sweet-flavored, has but few loose leaves, is good for shipping, and is just the variety and quality to suit market-gardeners, farmers and all lovers of good cabbage.

A WARNING.—It is absolutely necessary to plant out the Houser Cabbage two weeks earlier than any other late sort, as it requires this much longer to mature than the Flat Dutch types or any other late variety.

Seed grown from the original as selected stock and procurable only from us or one of our wholesale dealers. Pkt. 10c., oz. 35c., ¼ lb. $1.25, lb. $4.00, by mail, postpaid, to your address.

MOORE’S DANISH “ROUNDHEAD” CABBAGE.

An Earlier Shorter Stemmed Type of the Famous Royal Danish “Ballhead.” Of more robust growth, the heads are heavier and of equally fine quality. The original Royal Danish Ballhead Cabbage (introduced by us many years ago) is esteemed for the extreme solidity and great weight of the heads, as well as for the superior quality and keeping qualities, but it can be grown most successfully only in a comparatively cool location. Danish Roundhead has less outer foliage and is better able to resist blight, being, in most sections, as vigorous in growth as the best American type. The heads average larger in number and are ready two weeks earlier. The heads are unusually solid and beautifully white when trimmed. They are splendid keepers when stored away for the late winter and early spring, at which time the fine heads bring the highest market price. Crop short. Pkt. 10c., 3 pkts. 35c., oz. 40c., ¼ lb. $1.15, lb. $4.00.

MOORE’S ALLHEAD EARLY CABBAGE.

Moore’s Allhead is the earliest of all large cabbages, and considerably larger than any other early summer cabbage that is equally as early. The deep flat heads are remarkably solid and the most uniform in color, form and size of any variety. The hard heads grow so free from spreading leaves that fully one thousand more heads than usually with large cabbages can be obtained to the acre. It is really an all-early summer cabbage, being equally good for winter. Allhead Early is considered by many the best second-early cabbage—and we know all varieties. If planters everywhere only knew the excellence of Moore’s Allhead Early Cabbage, even our large supply of seed would not suffice to meet the demand. It is undoubtedly altogether unequaled in many sections as an early summer Cabbage, and is fully as good for winter use, being really an all-early-year-round Cabbage. Our claims as to the merits of the Allhead have been fully sustained by reports from planters everywhere.

This small illustration herewith of a single head of Allhead Early Cabbage is a candid photograph. Pkt. 10c., oz. 30c., 2 ozs. 50c., ½ lb. 85c., lb. $3.00, postpaid.
THE WORLD'S BEST CABBAGE SEED
IS GROWN BY AND CAN ONLY BE HAD FROM US

NEW ROYAL DANISH BALL HEAD CABBAGE

PROCURABLE ONLY FROM THE MOORE SEED COMPANY.
PHILADELPHIA.
The True Danish Round Head Type. It is the best of all the Danish cabbages. Early, hard head, short stem and the best keeper of all. Always commands a higher price than any other type of Danish cabbage. 40,000 pounds per acre is not uncommon. The heads are nearly round, very hard and solid, and the best keeper of all the types of Danish or Hollander cabbages. Very round grower, close outer foliage, never rots or blights in the field, and about two weeks earlier and shorter stem than the old type. The heads when trimmed are of a beautiful, attractive clear white.
Pkt. 10c., oz. 30c., ½ lb. 85c., lb. $3.00.

WHAT ENTHUSIASTIC GROWERS SAY OF IT.

THE BEST CABBAGE IN NEW YORK STATE—Statement:—"I am both a grower and a shipper of cabbage. I planted 21 acres of your New Royal Danish Ball Head, and all who saw it, as well as myself, pronounced it the best strain of Danish Cabbage in New York State. My crop averaged 35 lbs. per acre, and I did not lose one head from rot or blight."—A. J. THOMAS, ONTARIO, N. Y.

THE EARLIEST TO MATURE.—"I planted three kinds of Danish Cabbage last season, including your Royal Ball Head, which was ready to eat twelve days before the others. For solidity and long keeping it beats anything in my twenty-two years' experience."

PETE FORWELL, LEBANON, N. Y.

DEALERS ALWAYS PREFER IT.—"In answer to your inquiry, I find my customers decidedly prefer your Royal Ball Head, which is due to its great tenderness and delicate, sweet flavor. The heads remain firm and the leaves retain their crispness longer than the German Export, full Danish Round Head sorts. I find dealers always prefer it to any other cabbage they can get."—JAMES CUSICK, BROOKLYN, N. Y.

HAINES' PERFECTION LATE BEAUTY

1. It is the surest heading American variety of cabbage.
2. It is known to flourish on all soils, north, south, east or west.
3. It is planted by more gardeners than any other late sort.
4. It is almost proof against the destructive cabbage worm.
5. It is the best winter keeper for the southern states.
6. It is the best to grow for home markets.
7. It will produce the greatest money value per acre.
8. It is the best for the family garden.
9. It is the best to sell by the 100 heads or carload.
10. It is the best sort for the dealer to handle.
11. It is sure to head solid.
12. It makes a crop where other sorts fail.
13. It is worth many times the price we ask for it.
14. It is the best American variety for making pickles and sauerkraut.
15. I am sure to please everybody.
16. I am sure to please everybody.

Our attention was first called to this new late cabbage produce by Mr. Albert Haines, of Burlington Co., N. J., who for many years kept in his own family and occasionally sold a little to his friends at 50c. per lb. Many of those who grow it call it the "Greasy Head," owing to the peculiar dark, smooth, oily appearance of its outer leaves. This feature renders it quite free from the attack of the cabbage worm. This feature alone is of inestimable value to all who plant it. We offer it at the extremely low price of pckt. 10c., oz. 35c., ½ lb. $1.00, 1 lb. $3.50, 2 lbs. $6.50.

NEW RUSSIAN ROUND GIANT.
Large size, deep round heavy heads. Extra choice seed. Pkt. 10c., oz. 35c., ½ lb. 75c., 1 lb. $2.50.

BURPEES ALL HEAD EARLY. A very early, medium size, compact heads. Very pure stock. Pkt. 10c., oz. 35c., ½ lb. 75c., 1 lb. $2.50.

CABBAGE SEEDS GROWN BY CROSBY, THE LARGEST GOVERNMENT CONTRACT GROWER OF CABBAGE SEED, PITTSBURG, PA.
CARROTS—Best Market Sorts

We have exercised the greatest possible care in selecting the best varieties of carrots, and the careful manner in which the seed has been saved will insure our customers purity of strain and the most satisfactory results from sowing our Carrot Seed. Market gardeners will derive great satisfaction from sowing our Carrot Seed.

Ox-Heart or Guerande. It is intermediate as to length between the half-long varieties (such as Danvers) and the Short Horn Carrot, but much thicker than the latter, attaining at the top from three to four inches in diameter. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

American Luc Half Long. (See cut.) The color of the roots is a rich shade of orange-red, and in shape and size midway between our Perfection Rubicon and Long Red Surrey. Tops small, slender, of the same color as the roots, which are smooth, straight and free from roughness. Ideal for sowing in the early spring. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

New Perfection Rubicon or Model Carrot. (See cut.) In this new variety we have an entirely new and distinct appearance of the roots. The roots are thick and smooth, with a fine, well-defined shape, and the leaves are dark green. They are very productive. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

Long Red Surrey. A great improvement on the various types of Long Orange Carrot. The roots are even, uniform, and of a well-formed and deep-colored root; it is larger, better flavored, of a deeper orange color, and more certain to produce a crop than any type of long carrot; flesh very sweet and tender; very productive, and never becomes hard or woody at the heart. The roots grow very regular and smooth; they are of good size, being from six to eight inches in length and two inches in diameter at the top, tapering gradually from the shoulder to the tip of the roots. In color, shape, and texture, it is the ideal sort for a market gardener's late crop. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.00.

RUBICON HALF LONG. A wonderful producer. Oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

Improved St. Valley. The roots grow very regular and smooth; not as productive as our Long Red Surrey. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

Reselected Danvers Half Long. (See cut.) Seed grown by a leading Philadelphia market gardener. Stump rooted, very smooth, fine in texture, extra dark color, finest quality, best market strain and heaviest yielder. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

Reselected St. Valley. Uniformly from the well-known strain. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

French Red Forcing. (See cut.) An excellent dark red coreless variety, about 3 inches long, with very small, short top, remaining tender, juicy and sweet. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

French Market. Fine grained and good flavor, 4½ inches long, stump rooted. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

CARROTS—For Stock Feeding

We rank Carrots as high as hay and grain for feeding live stock. One acre of good carrots equals $33 bushels of oats and will produce from 20 tons of hay, much in demand in Philadelphia and other large cities. The roots are fine for feeding stock. This attains the largest size, and will yield more in bulk and keeps better than any other sort grown. Uniformly from the well-known strain. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

Large Red Belgian. This new variety is undoubtedly the best of all the white sorts for feeding stock. This attains the largest size, and will yield more in bulk and keeps better than any other white sort grown. Uniformly smooth in form; they are easily eaten. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

New Giant White Australian. This new variety is undoubtedly the best of all the white sorts for feeding stock. This attains the largest size, and will yield more in bulk and keeps better than any other white sort grown. Uniformly smooth in form; they are easily eaten. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.

White Yoseg. This is a field carrot, and especially suitable for salting and making pickles. Pkt. 5c., oz. 10c., $1 lb. 25c., 10 lbs. $2.50.
ITALIAN GIANT EARLY SUREHEAD CAULIFLOWER

Italian Giant Early Surehead is the very best early Cauliflower in cultivation, either for forcing under glass or outdoor planting, not excepting any variety, and we challenge the world to produce a finer Cauliflower, larger or earlier Cauliflower than our Italian Giant Early Surehead. It is remarkable for its extra earliness and certainty to produce fine, large, handsome, pure white, compact heads of finest quality. Many heads often measure twelve inches in diameter. It is the earliest of all Cauliflowers, and is becoming the standard everywhere. Whether for forcing under glass in greenhouses or open ground it is the surest heading in existence—"it is a gem." On account of its dwarf and compact habit and short outer leaves it is peculiarly well adapted for forcing in the winter or early spring. Whoever essays to grow this most delicious vegetable, either for home use or market, should plant this variety. Of dwarf, compact habit and short leaves, enables it to be planted very close—20 inches apart each way. This sort has given the very finest results wherever planted, for a late crop. While we originally recommended it for an early crop, we, as well as hundreds of our customers, find it superior to all other sorts for a late or autumn crop. The heads are very compact and deep, closely set and heavy and entirely free from any yellow or purplish tinge while young, thus insuring fancy prices. One grower of twenty-nine years' experience, says he has "gotten fifty per cent. better satisfaction from it than from any other advertised early sorts." If you grow Cauliflower for home use, home market or to ship to distant markets, it is surely the best sort for you to plant.

Selected Early Dwarf Erfurt. Small-flowered dwarf, for open ground, producing pure white heads of fine quality. Pkt. 15c., oz. $1.00, lb. $15.00, lb. $55.00.

Gilt Edge Early Dwarf Erfurt. Excellent for forcing under glass as well as for growing out doors and a great favorite with many critical growers. Produces very large heads. Pkt. 15c., oz. $1.50, lb. $5.00.

Improved Earliest Snowstorm. The earliest best for forcing. Pkt. 90c., oz. $3.50, lb. $12.50, lb. $47.00.

CHAMPION DRY WEATHER CAULIFLOWER

This is an entirely new and valuable type of Cauliflower, producing large, solid, heavy, pure white heads a few days later than our famous Italian Giant Early Surehead. On account of its being very deep rooted, which insures abundance of moisture, and having unusually large leaves which furnish ample protection to the heads, this sort is found to lend itself perfectly in dry or warm weather. In localities subject to excessive heat, this variety has produced beautiful large, heavy, tender heads when all other sorts failed. It will thrive anywhere in the United States or Canada. Many of our customers in Texas, Arizona, Oklahoma and New Mexico write that heads of the finest quality, weighing from 10 to 15 pounds, are not uncommon with them. By the use of our new Dry Weather Strain and our Italian Giant Early Surehead, this delicious vegetable can be had at any season of the year. We may also say it is a grand good sort to plant for first early; it thrives even better on rich moist soils. In growing any kind of cauliflower it is essential that the ground be well enriched and well cultivated during the growing season. Don't fail to give it a trial, it will surely succeed.

Pkt. 25c., double pkt. 50c., oz. $3.00, lb. $10.00, lb. $40.00.

CORN SALAD—FETTICUS or LAMB'S LETTUCE

Large-Seeded Italian Broad-Leaved. (True) The best and most productive variety for market. Oz. 10c., lb. 20c., lb. 50c.

BROAD-LEAVED DUTCH. lbs. 15c., lb. 40c., 10 lbs. $3.50.

This remarkable variety is easily grown in any garden and combines the following good qualities, viz.: Earliness, size and prolificness. Makes valuable forage for stock. Color of nut is white; large and rich flavor. Growers of the "peanut" have always found ready sale at remunerative prices for their product. It does not require a rich soil. Plant in April, two inches deep, cultivate same as potatoes. Pkt. 10c., Qt. 25c., Qrt. 35c., postpaid.

CHERVL. Plant and use similar to parsley. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 80c.

CRESS, or PEPPE GRASS

FINE CURLED. (Pepper Grass.) Pkt. 5c., 1/2 lb. 15c., lb. 40c.

Water Cress. One of the most appetizing, delicious flavored of all salads. It does fairly well in very moist situations, but thrives best in shallow water, on edges of streams, where it grows most luxuriantly. Pkt. 10c., oz. 25c., 1/2 lb. 35c., lb. $2.50.

GEORGIA SWEET, PROLIFIC GROUND PEANUT OR CHUF
GOLDEN SELF-BLANCHING CELERY

INvariably brings the highest price wherever sold.

The verdict of all who grow it is, "It is the best that grows," no matter where it is planted—east, west, north or south. It is the best strain of Golden Self-blanching Celery that grows. It is particularly well adapted to growing on heavy muck lands that have been reclaimed from swamp lands.

It always grows solid, robust, very crisp and of good flavor. It is less affected with hot, dry weather than other old strains. The stalks are numerous, large, solid and of a remarkably beautiful golden-yellow, and interlaced with numerous inside shoots or hearts of the same handsome yellow color and fine quality. Its beautiful appearance and fine quality always insured.

Our strain of this is acknowledged by all who plant it—and they are thousands—to be the finest and purest in existence, and far superior to any other. The stalks grow much thicker and taller and more solid than the old sort, and are of a more beautiful and richer waxy golden-yellow color. Very solid and of a delicious nutty flavor. The beautiful appearance of this strain, which is of strong, vigorous habit, is well shown in the illustration. Our strain contains no green, has an abundance of hearts or inside shoots, is always solid; silky or spongy stalks are unknown. No strain can surpass it, and ours will give the highest satisfaction to all who grow it. An excellent keeper and shipper. If you grow for home market or shipping you should not fail to plant our seed. It is the best you can get. Those who plant it always get satisfaction. Pkt. 15c., 3 for 50c., oz. $1.00, lb. $15.00. Crop very short.

GOLDEN SELF-BLANCHING. Imported seed; same strain as offered by other leading seedsmen. Pkt. 10c., oz. 75c., 1/2 lb. $2.00, lb. $8.00.

See our Special Offer of Seeds in packets and ounces on page 47.
THOUSANDS of MARKET GARDENERS

Throughout the United States acknowledge our Celeries to be the finest in existence, and use no other

Moore’s Selected Boston Mammoth White Plume Celery—THE FINEST AND BEST WHITE PLUME CELERY IN THE WORLD

This is an entirely new strain, having originated with a highly successful market gardener near Boston, who sent it to us for introduction. It is now in our possession for nearly ten years, and we have found it remarkably hardy and in every way a success. It is remarkable for its robust size, as it grows unusually tall and thick, while the number of plants it produces is simply astonishing. It is perfectly suitable for its usual home market or for the market, and will remain in perfect condition as late as March 20th. It is a very rapid grower, “whitens up” earlier, and is ready for market sooner than the old sort. The ribs are thick, long, strong, remarkably tender, crisp and rich flavored, and possessing a deliciously sweet flavor which no other celery can approach. It is also absolutely pure, contains no green whatever and will surely give extra satisfaction to all, as it is the finest type of White Celery marketed in the world. Market houses wash it once, plant it always, because it always sells so well. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $3.00.

SOLD FOR AN EXTRA PRICE

"I had the finest crop of Boston White Plume Celery last fall from your seed that was ever raised in this section. It was truly remarkable and so acknowledged by everyone and I had plenty of stalks, pure white, two feet long, crisp and of elegant flavor. I sold every stalk at an extra price."

O. B. DANGREMAN, Jersey City, N. J.

MOORE’S NEW SILVER SELF-BLANCING CELERY

Combines the grand qualities of the three most popular celery strains: The sturdy, solid habit of our California Mammoth Solid Golden Self-Blanching; the exquisite color and earliness of our Boston Mammoth White Plume, and delightfully rich flavor of our Sweet Nut. This grand new celery is easily described as a Golden Self-Blanching plant with White Plume coloring. It possesses the robust, sturdy, compact habit of Golden Self-Blanching, the stalks being even thicker, more solid and heavy, with immense solid hearts and all brittle, crisp and tender, free from string or pitiness, and of delightfully rich flavor. The foliage is tipped and variegated with white, while the inner stalks and leaves are naturally white. It may be easily and quickly blanched by leaching boards on either side of the row. Its extreme earliness renders it valuable celery for the market from early spring and it does not "burn-down" so suddenly as many other celery sorts. It does not require the same side tests with White Plume and Self-Blanching. Its class and all in earliness, flavor, size and solidity of heart, and height of stalk and head, standing usually six inches higher than White Plume. Its foliage is green and white, its stalks are not stringy, tough or bitter, but tender, brittle, very sweet and of a nutty flavor. Leading Philadelphia market gardeners have it on the market June 25th. The seed can be sown earlier than any other sort without running to seed; this alone is a highly valuable feature to the market gardener. It is sure to bring fancy prices. Pkt. 10c., oz. 40c., 1/2 lb. $1.35, lb. $1.50.

Moore’s New Giant White Arrezzo Celery. We unhesitatingly pronounce this the best and most profitable of all celery for winter use. It is of unusually vigorous growth, showing immensely thick and heavy stalks and large heavy hearts, all remaining a beautiful light green until blanched by earthing up or being stored for winter. It blanches to a clear white, while the stalks are heavy, coarse, stringless and exceedingly crisp, possessing a flavor surpassingly rich and nutty. Any market gardener who wishes the best and most profitable winter celery winter can get will find it in our Moore’s New Giant White Arrezzo. Pkt. 10c., oz. 40c., 1/2 lb. $1.35, lb. $1.50.

New Broad-Ribbed or Sweet Nut Celery. The most desirable type of celery ever introduced. It is the sweetest, crispest, tenderest, finest flavored and most solid of all celery sorts. No other sort equals it in these valuable qualities. Again, if ever there was a celery we can truthfully recommend as the best celery, it is this one. It is a celery that produces the finest celery of all time and one of the finest celery varieties for the market. Its beautiful white celery is both fine in quality, and also is a celery that blanches almost as easily as our famous Boston White Plume. Pkt. 10c., oz. 40c., 1/2 lb. 85c., lb. $2.00.

M. & S. Matchless Giant Perfection Long-Keeping Golden Heart. A variety of rare merit. The most desirable type of Golden Heart Celery known to the trade. Remarkable for its many long, broad, thick ribs and numerous "inside hearts" of the finest golden color. This variety blanches easily, keeps remarkably long in perfect condition. The ribs are unusually solid, firm, crisp, tender and beautiful in appearance. This variety has been produced by careful crossing and is one of the finest of the early celery growers and will grow well. It is a celery that produces the finest celery of all time and one of the finest celery varieties for the market. Its beautiful white celery is both fine in quality, and also is a celery that blanches almost as easily as our famous Boston White Plume. Pkt. 10c., oz. 40c., 1/2 lb. 85c., lb. $2.00.

COLUMBIA GOLDEN HEART. Pkt. 10c., oz. 30c., 1/2 lb. $1.00, lb. $3.00.

LONG ISLAND MAMMOTH LARGE-RIBBED GOLDEN HEART. Pkt. 10c., oz. 30c., 1/2 lb. $1.00, lb. $3.00.

WHITE PLUME. Extra selected stock. Pkt. 10c., oz. 30c., 1/2 lb. 66c., lb. $2.00.

SCHUMACHER CELERY. Selected. Pkt. 10c., oz. 25c., 1/2 lb. 80c., lb. $3.00.

WINTER OCEAN. Pkt. 10c., oz. 15c., 1/2 lb. $1.50, lb. $3.00.

SILVER CELERY. For flavoring. Oz. 8c., 1/2 lb. 50c., 1 lb. 40c.

GOLDEN HEART or GOLDEN DWARF. Selected stock. Oz. 30c., 1/2 lb. 40c., lb. $1.50.

IMPROVED GIANT P-SCHAL. Oz. 20c., 1/2 lb. $1.00, lb. $2.00.

GOOD HABIT. Oz. 20c., 1/2 lb. $1.00, lb. $2.00.

WHITE WALNUT. The color is a beautiful clear white; of exceptionally fine, delicious, nutty flavor, solid and firm, crisp, tender and beautiful in appearance. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $2.00.

Golden Rose. A pink form of our California Mammoth Solid Golden Self-Blanching, of the same strong, stocky habit, husky, strong and easily blanched. The stalks are broad, solid, heavy and positively brittle, free from ridges and stringiness, to which merits must be added its beautiful coloring, golden yellow, rose tinted. It is a good keeper and of superior quality. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $1.75.

Celeriac, or Turnip-Rooted Celery.

APPLE SHAPED. Oz. 10c., 1/4 lb. 40c., lb. $1.50.

PRAGUE. Selected stock. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $2.00.
SUGAR CORN

**OF PRICELESS VALUE**

TO MARKET GARDENERS

It is just like coining good money to plant this corn. It is positively the earliest table corn ever introduced. Over 200 carloads of this corn were shipped to New York City alone last season. Big profits await all who plant it.

Moore's First Early Table Corn. Every market gardener who wishes the earliest table corn of good quality can get should not fail to plant this exceedingly valuable sort. In our Moore's First Early Corn we have a truly productive and profitable extra early variety. It is positively the earliest table corn ever introduced. It is the hardest of all varieties of corn, and cold, wet weather has little or no effect upon it. On account of its extreme hardship it can be planted from two to four weeks earlier than Crosby, Minnesota, Cory, Preemo or other varieties of sugar corn. We particularly caution our market garden friends to plant it at least two weeks earlier than they usually do their sugar corn, if they would secure all the advantages of this profitable extra early sort. Again, don't fail to plant it early. The stalks grow about six feet high, and nearly always have four to six well developed ears from six to nine inches in length. Leaves small and few; will bear very close planting. Ground should be well fertilized to secure its wonderful productiveness. The grain is deep, pearly white, very tender, sweet and juicy, considering its extreme earliness. The ears mature very rapidly and care should be taken to pull the ears while young. It required long and patient care, as well as the expenditure of much money, to develop this variety. We assure our market garden friends they can easily amass snug fortunes if they will plant it liberally for large friends not to be afraid to plant plenty.

**REAPED BIG PROFITS.** John Sufferin, Baltimore, Md., writes: "Myself and five of my neighbors sent you our last year for four bushels of our Moore's First Early Corn. We planted it April 1st, commenced shipping June 26th, and reaped big profits. The quality was fine. It is miles ahead of Cory, Fremo, Adams or Horton's. Ears were remarkably large and perfect. You will note we took your advice about planting it early."

**Shallcross' New Five-Eared Sugar Corn.** A truly remarkable production now introduced to us for the first time. Just think of it—FIVE good, well-developed ears of deliciously sweet corn on one stalk, yes, some stalks even loaded with six ears. We know this sounds strange; nevertheless it is true—yes, every word of it. This is a splendid money maker for any market gardener and a great novelty, and desirable, too, for the kitchen garden. It is early also—yes, 10 days earlier than Evergreen. It is a magnificent corn and will be a great boons to all who plant it. We want you and all your neighbors to plant it. You will surely regret it if you do not follow our advice. This and our Moore's First Early Table Corn will make you big money. It cannot be too highly recommended. Just try a peck or a bushel; the more the better for your family, postpaid. Pkt. 15c., pt. 35c.; qt. 1 qt. 60c., postpaid; by express or freight, pt. 20c., qt. 35c., 4 qts., 90c., pk. $1.30, bu. $5.50.

**Hyde's Earliest Sugar.** The best of all the extra early sugar varieties for market. Height 6 to 6 feet. Good size ears of most exact quality. It follows closely our Moore's First Early. We advise every market gardener to plant some of this valuable early sort. It is sure to please. Pkt. 10c., qt. 25c., 4 qts., 75c., pk. $1.50, bu. $5.50.

**Hickman's Extra Early Three-Eared.** A remarkably valuable early variety for market, excellent quality, very productive, yielding from 2 to 6 bushels per stalk. It is the result of many years of careful selection to secure earliness combined with large size, productiveness and fine quality by one of the most successful large sugar corn growers in Gloucester County, N. J. It is sure to please all who plant it. It is superior to all others for family and market use. A "milk" a long time. Matures immediately after Hyde's Early. Pkt. 10c., qt. 15c., pt. 35c., 4 qts., 85c., pk. $1.50.

**Howling Mob.** Earlier and better than Cory or First of All. Pkt. 10c., pt. 15c., qt. 25c., 2 qts., 45c., 4 qts., 75c., pk. $1.50, ½ bu. $2.75, bu. $5.50.

**ADAMS EXTRA EARLY.** Qt. 15c., pk. $1.00, bu. $3.50. (Postage 20c. per qt.)

**Cape May Early.** Large ear, sure cropper, ears pearly white. Good market sort. (Postage 20c. per qt.) Pkt. 10c., pt. 15c., qt. 25c., pk. $1.50, bu. $5.00.

**GRANVILLE'S EARLY.** Qt. 20c., pk. $1.30, bu. $4.25.

**STARKER'S EARLY.** Qt. 20c., pk. $1.30, bu. $4.25.

**TRIUMPH.** Qt. 20c., pk. $1.30, bu. $4.25.

**EARLY MAMMOTH.** Qt. 20c., pk. $1.30, bu. $4.25.

**EARLY MONARCH.** Qt. 20c., pk. $1.30, bu. $4.25.

**EARLY Banana.** Fine market sort. Large ears of luscious quality. Qt. 25c., pk. $1.35, bu. $4.50.

All our Sugar Corn is of 1910 crop. Moral: Buy your corn from us and be sure of your crop.
Moore's New Snow White Evergreen Sugar.

This is without doubt the most valuable Sugar Corn introduced for many years past. It is white as chalk, white marble in color, very pure and clear. Those who have seen the boiling ears say, "I never saw any as white." All the large, handsome ears are filled with very deep this grains of nearly whiteness and sweeter than any Sugar Corn grown. To see it is to buy it.

The largest Sugar Corn Seed grower in the United States wrote us that there was NO BETTER strain of White Evergreen Corn grown than our Moore's Snow White.

Moore's New Snow White Evergreen

Should be planted by all

Market gardeners, canners and all lovers of good sugar corn who will find it to represent the highest ideal—white, sweet, tender, fine quality and productiveness. It is just the corn you have long been waiting for. Ears contain sixteen or more rows of beautiful and delicious deep grains. Two and occasionally three attractive large ears are produced on each stalk. Another valuable feature is the grains retain their teneness and their sweetness longer than any other late sort. It is profit and satisfaction to all who plant it. It always brings fancy prices.

Our seed is limited, and we hope our many thousands of customers will send their orders in early, as we wish every customer to have plenty of this wonderful variety. Generally speaking, those who come first are best served. Pkt. 10c., qt. 25c., 4 qts. 75c., pk. $1.10, bu. $4.50.

Early Zigzag Evergreen. (Hancock's.)

Much superior to the old type. Deep grain and fine large ear. Pkt. 10c., qt. 25c., pk. $1.10, bu. $4.50.

Stowell's Evergreen. Pkt. 10c., qt. 25c., pk. $1.30, bu. $4.50.

New French Honey Sugar. Pronounced to be by those who grow it, to be the most delicious sugar corn ever grown. It is a strong, vigorous grower and heavy yielder, with large grain of good size; it has 14 to 16 rows, and crops in after the earlier varieties. No stalk has less than two large ears. Just the sort for the market trade, especially for the middle market, which is now beginning to be sold direct to the consumer. Excellent sort for the family garden. We cannot say too much in its praise. Pkt. 10c., qt. 25c., pk. 75c., bu. $1.50, bu. $4.50.

Price's Perfection Early Sugar

One of the best second early varieties for market, excellent quality, very productive, yielding mostly two beautiful long ears per stalk. It is the result of many years of careful selection to securing size, combined with large size, productiveness and fine quality. The grain is deep and remains in "milk" a long time. Pkt. 10c., qt. 25c., 4 qts. 70c., pk. $1.25, bu. $4.50.

Cooper's Large Early Shoe Peg

We have obtained this delicious sort from Mr. Thomas Cooper, Newport, R. I., who has grown quite wealthy by marketing it to the eastern buyers in Boston and New York. The productiveness of this sort is simply prodigious. When grown on good ground and well favored, ears of 10 inches in length are often developed. The cob is very small, the grain deep and of rich flavor. Stalks bearing 4 ears are not uncommon. We cannot recommend this sort too highly to all our customers. The ears are just the right market size and is a "mint" for all who grow for summer hotel trade. Pkt. 10c., qt. 25c., pk. 75c., bu. $4.50.

Moore's Later Concord, or Main Crop Sugar

It is strictly an evergreen sort; in remaining long in edible condition it ranks with the best, and is admitted to be the most "ever-lasting" of evergreens. The ears are of perky large size, mostly 2 to a stalk, grains deep exceptionally tender and sugary, and has the advantage, as we said above, of remaining longer in the green state than any other sugar corn stock has been carefully grown and selected. Pkt. 10c., qt. 25c., 4 qts. 70c., pk. $1.50, bu. $4.50.

Baltimore Market. A great favorite with Baltimore market gardeners, who prize it for its remarkably heavy yielding qualities. If by mail add 5c. per pt. Pkt. 10c., qt. 20c., pk. $1.25, bu. $5.00.

Sweet Corn for Fodder. Cattle highly relish it, and when fed on it keep in fine condition and give an abundance of milk. Price subject to market changes. Qt. 10c., pk. $1.00.

COUNTRY GENTLEMAN. Pkt. 10c., qt. 25c., pk. $1.25, bu. $5.00.

HYDE'S EGYPTIAN. (True.) Pkt. 10c., qt. 15c., pk. $1.00, bu. $4.00.

LATE MAMMOTH. Fine stock. Pkt. 10c., qt. 15c., pk. $1.00, bu. $4.00.

If to go by mail add 10c. per quart on all varieties of Sugar Corn except where noted.
**Field Corn**

**POOR MAN'S CORN**

A NEW 90 DAY YIELDS

60 TO 120 BUSHELS PER ACRE

**ADVANTAGES OF CHANGING SEED CORN**

There is perhaps no other crop that we raise that is so much benefited by the introduction of fresh seed from time to time as a field corn. We think great pride in introducing to our best customers will not plant their own raising of seed at all, but buy of us every year. They can grow nearly double the crop on the same land, and that they can from their own raising, and of better quality and more salable in the markets. Always "Change your seed" is the motto of all prosperous farmers.

**POOR MAN'S CORN**

Possessing Magnificent Properties, Splendid Qualities and Tremendous Possibilities. The Most Valuable New Field Corn in the World To-day.

This great corn is the result of a series of crosses and subsequently by a continuous systematic selection, accumulating and perpetuating the superior merits of its parents, we have evolved a superior new variety, which we take great pride in introducing to our best customers. We have named it the Poor Man's Corn because it will produce more corn on poor, light soils than any kind low in cultivation and is greatly assisting the poor farmer who has little money with which to buy fertilizer. It grows in strong, rich soils, but it has no superior. The root system of good size, handsome, with large, deep grains of a rich orange color, and very small red cob, rarely producing less than ten in a Husk and shelled easily. It is also adapted to a greater variety of soils than any other varieties, producing unusually well on light or heavy land, where other varieties would not thrive. It matured we selected corn in 85 days, planted May 25th. One hundred and thirty bushels shelled corn to the acre grown on good corn ground, with corn but not extra, cultivation. Moreover, it commands the highest market price. It is destined to be planted largely. You should be among the 1st.

**KANSAS GOLDEN KING Early Dent Corn.**

This glorious corn combines solid merit, grows large ears and matures early. The ear grows larger than the Leasing Corn, and on poor, thin soil will yield 40 per cent. more. For many years we have made the varieties of field corn a careful study and through investigation we have seen samples of corn grown in nearly every State in the Union, and personally tested with the object to secure an early maturing variety that would yield the most shelled corn to the acre and at the same time command the highest market price. We are confident that the trial attained this end in the Kansas Golden King Early Dent Corn from the Great Elk Horn Valley, Kansas. Will mature in from 80 to 90 days, stalks vigorous, growing from 6 to 10 feet high without exhausting the soil, and as it roots deeply it withstand the drought better than any other late corn. The grains, as shown in the illustration, are unusually deep, and when dry, well selected ears will make a bushel of shelled corn. This variety will yield from 10 to 20 bushels more corn to the acre than any other late corn, and whether planted on high or low ground, its yield is equally marvellous. From 60 to 100 bushels per acre is not an uncommon yield on good corn ground. It is sure to please all who plant it.

**Price, carefully saved for seed, pkt. 10c., lb. 30c., 3 lb. 55c., ph. 1.25, by express or freight, qt. 20c., 4 qt. 45c., pk. 75c., ½ bu. $1.20, bu. $2.25.**

**North Dakota Extra Early Prizetaker Dent.**

This is without doubt the earliest yellow dent corn in cultivation, bright orange color, short leafy heads, bears 4 to 5 feet high, well selected ears, small red cobs, long deep grains, very rich in oil and starch, and the most prolific of the early Dent varieties. It will make better fodder than any other known variety and all stock eat it with evident relish. It ripens earlier, does out quicker, tolerates drought better, and will yield more. No. 1 shelled corn than any other extra early corn and three and three-quarter shelled ears to a stalk is no uncommon thing to see in this corn. Seventy pounds of ears when shelled weighed 28 pounds leaving the cobs to weigh 42 pounds. No extra yellow dent corn in America can get up to it in earliness and big yields. For the first 10 years it has never failed on account of early frost. It was ahead of frost every time. It will yield as early as Early Yellow Canada or Longfellow flint. We cannot too strongly urge its merits upon our farmer friends. Postage of the Dakota Extra Early Prizetaker Dent Corn carefully saved for seed, pkt. 10c., lb. 35c., 3 lb. 80c., pk. 1.25, by express or freight, qt. 15c., 4 qt. 40c., pk. 75c., ½ bu. $1.20, bu. $2.25.
Figure it Out for Yourself

It costs but 35 cents for seed for 1 acre, freight included, for any of our improved varieties of seed corn; 50 acres of Diamond Joe’s Big White will make you a yield of 4,000 to 6,000 bushels. Seed planted to common varieties will make you 1,500 to 2,000 bushels. Here is a difference of 2,500 to 4,000 bushels or less than a CENT PER BUSHEL FOR THE INCREASED YIELD, or a hundred times the cost of the seed. Figure it out for yourself.

DIAMOND JOE’S BIG WHITE

This wonderful new variety of white corn was originated and first introduced 4 years ago and is now acknowledged by farmers, planters and corn growers everywhere as the “King of All White Corn” for light, thin or sandy land. When we cataloged this corn for the first year, although we had about 8 thousand bushels of it, our entire stock was exhausted long before the season was over. Since then we have grown it much more extensively, but each succeeding year the demand for it has increased until we have always sold out long before planting time was over. Those who were fortunate enough to secure some of this corn won a prize, and everywhere doubled their yields on light land and without exception were well pleased. In fact it would make one gasp with astonishment to see and read the reports that come to us from all parts of the country about the wonderful yields this corn has made on thin or sandy soil. From nowhere comes a word of disappointment, but all are enthusiastic and in some cases when planting time comes, “DIAMOND JOE’S BIG WHITE” is incomparable with any other white corn we have ever before grown or handled in all our 40 years experience. It is especially well adapted to old, thin, or sandy land, and on good strong corn ground there is no variety in the world that makes more big bushels of good, sound, well matured corn in the acre. It is absolutely free from barren stalks, every stalk bearing 1 to 3 well developed ears. It is very early to maturity, making itself anywhere from 90 to 100 days. It will thrive and do well in extreme drought. In short, “DIAMOND JOE’S BIG WHITE” is a superior variety of corn from every point of view over any white corn in the world. If you are looking for a white corn that will make you the most bushels and the most money on light land, stop right now and order enough to plant your entire crop. It’s the white corn that will do it. Pkt. 10c., 1 lb. 30c., 3 lbs. 85c., by mail, postpaid; pk. 75c., bu. $2.25, 2 bu. $4.25, by express or freight at purchaser’s expense.

LONG’S DROUGHTPROOF

A New Yellow Dent Corn
Resists Drought and Scorching Heat better than any other yellow variety. More corn fields have been ruined by the drought and hot sun killing the tassel and pollen this past season than the writer has ever known, and especially is this fact true in the great corn belt. This magnificent new yellow dent corn was sent out through 6 weeks of growing weather without a drop of rain, and it is the best the most severe ever known in this section, and it has made a crop where other sorts failed on account of dry weather. All fields that leaned towards the hot sun burned up. The pollen on these fields was killed; therefore the silk was not fertilized; result, no grains on the cob. On the other hand, a large field of this wonderful strong-growing variety, which leaned toward the sun, kept green and yielded over 100 bushels per acre. We do not hesitate to say that all points considered—its beautiful color, small cob, long yellow grains, large ears—taking all points combined, it is the finest drought-resistant yellow corn ever introduced, and each customer who gives it a trial will be fully convinced that it is the best 90 to 100 day corn he ever planted.

Droughtproof Corn is phenomenally excellent, and must be tried by all farmers. It will yield big crops wherever corn can be grown. We advise all our friends to try it.

Pkt. 10c., 1 lb. 30c., 3 lbs. 85c., by mail, postpaid; by express or freight, not prepaid, pk. 75c., bu. $2.25, 2 bu. $4.25.
Moore's Earliest. Remarkable and Highly Valuable Early Cucumber. Has yielded $1,100.00 per acre. The superior and the best shipper of all White Spines. It is the variety that will return you the most money, no matter where you ship it. As an early extra White Spine Cucumber there is no strain equal to this. It is truly an evergreen, retaining its beautiful dark green color until fully ripe. It is a sport from our famous Green Fournier Cucumber. We have devoted a number of years to the careful selection of the finest specimens for seed purposes, and herewith offer it to our many thousands of customers. Color is dark olive green, white or light spines running from blossom end. It is the earliest and finest formed of all the strains, and the best for home market or shipping. It is smooth, tender, crisp, remains green on the vine and after picking. It is very hardy. We recommend this as the best strain of extra early White Spine for the market gardener. It seems to be peculiarly adapted to both northern and southern soil and climate, always developing symmetrical fruit of a beautiful dark olive green color, from six to ten inches in length. At the same time it gives the earliest picking and the largest crop of any known variety. The vines are robust and very free from disease, which is so devastating to many varieties. Indeed, the fact of its containing every good quality, is readily and quick sale in our market at double common sort prices, its fine appearance and its remarkable, astonishing productiveness led us to give it the name of Ideal. We can heartily recommend same to all who desire a really matchless cucumber for shipping long distances, as it holds its beautiful dark green color longer than any White Spine hitherto introduced. Our word for it: Every cucumber grower should plant it. It will yield more money to the acre than any other sort. Pkt. 10c., oz. 15c., 1/2 lb. 45c., lb. $1.50, 5 lbs. $6.50, postpaid.

Important to the Planter. All our Cucumber Seed is very carefully grown under our own supervision, from very carefully selected stock seed. No two crops of seed are grown in succession on the same ground, thus avoiding all possibility of blight from this source. We also practice this policy in growing all our tomato, melon and potato seed. The careful and intelligent planter will at once realize that this method renders our seeds much more valuable than seeds grown in the usual way by others, and market gardeners, large planters and associations will gain none but the very finest quality of this important seed from us, and we are prepared to furnish any quantity our largest planters may require.

MATCHLESS WHITE SPINE

(Pale Stock)

This private strain we have had over ten years, and it is the most thoroughbred, uniform and shapely variety known among the White Spine type, not only for first early but for general crop as well. In purity it is unequalled. Vines are vigorous growers, heavy and long continuous yielders. Keeps green much longer than the yellow varieties. Only one sort ever exists it in crispness and flavor. Every market gardener and shipper knows how difficult it is to secure pure, erect, but hardy as the sort is absolutely without mixture, we are sure it will be quickly appreciated by all critical growers. Selected seed. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c.

Early Fortune. Originated near Baltimore, Md., and is a fairly good type of early long White Spine. Our stock is very pure. Oz. 10c., 1/2 lb. 35c., lb. 75c., 10 lbs. $7.00.

Burrell's Early Klondike. Early, smooth, long and of good deep green color; good shipper, pure stock. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c., 5 lbs. $3.50, 10 lbs. $6.00. Large buyers of any kind of cucumber will be quoted special prices upon stating quantity wanted.

TAILBY'S HYBRID. True. Oz. 10c., 1/2 lb. 35c., lb. 75c.

California Gem. A remarkably fine sort of the White Spine class. A great favorite in all markets. Long and symmetrical. Its wonderful yield, coupled with the high prices it sells for, makes it very profitable for the grower. A real good thing. Pkt. 10c., oz. 25c., 1/2 lb. 60c., lb. $2.00.

PEACEFUL WHITE SPINE. Heavy cropper. Oz. 10c., 1/2 lb. 35c., lb. 75c., 10 lbs. $6.50.

DAVIS PERFECT. New. Oz. 10c., 1/2 lb. 35c., lb. $1.25.

Arlington White Spine. A rich dark green color, averaging seven to eight inches in length. Very fine type. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c., 5 lbs. $3.00.

EARLY SHARP GREEN. Oz. 10c., 1/2 lb. 35c., lb. 75c.

NEW EVERGREEN. White Spine. Oz. 10c., 1/2 lb. 35c., lb. 75c., 5 lbs. $5.50.

Boston Market or Prize-Taker. A great favorite in the Boston market. Immensely productive, fine picking variety. In length it is medium, between the White Spine and Long Green. Very thick, firm, and full at both ends, presenting a beautiful type. An excellent market sort. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c.

LONG GREEN TURKEY. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c.

Fordhook Famous. Always straight and well formed, they never turn yellow, and critical buyers are willing to pay an extra price on market for these unequalled fruits. The originator says it is undoubtedly the finest long-fruited strain in cultivation. Oz. 10c., 1/2 lb. 35c., lb. $1.25.
recommend it as a dear; the young fruit being dark-green, straight, and tender, makes an excellent pickle. Every one who grows cucumbers will be delighted with it. It is especially valuable to the local market gardener and those who have home gardens. Every one who grows cucumbers will be delighted with it.

**New Green Fournier Cucumber**

A new variety from France, of the highest merit, possessing that rich, dark green color which has been so long sought for but never before obtained. This is truly an evergreen, retaining its color until fully ripe. On sight, its distinct dark green color and smooth skin attracts the attention of every one interested. The fruit sets early and the vigorous vines abound in long, straight, handsome fruits of the most desirable qualities: the flesh being peculiarly crisp and tender, and the flavor delicate, highly productive, a valuable addition to any market garden.

---

**Moore’s Gladiator Cucumber**

This cucumber is held in great esteem by the commercial and horticultural variety and surpasses all others of its kind in flavor, delicious flavor, and size. A single plant will often yield fifteen magnificent long, crisp cucumbers, from ten to fifteen inches in length. It is pre-emminently the finest sort grown for slicing, being very crisp and crisp in all stages of growth. It has a beautiful clear dark green color, very even and smooth and straight. The green cucumbers are fit to eat at any stage, the flesh is entirely white, very clear, peculiarly crisp, tender and brittle. It is likewise a grand sort for “salting” or pickling and will always outsell any similar sort. Pkt. 5c., oz. 10c., ½ lb. 35c., 1 lb. $1.25.

---

**Paris Early Cluster**

This is the most remarkable and valuable of all picking cucumbers, and our illustration gives a very clear idea of its wonderful productiveness. For several years we have made cucumbers for pickles a study, testing and originating new sorts for this purpose, and now we think we have perfection in our Paris Early Cluster. It is short (just the right length), bearing in numerous clusters near the root, of fine form, solid and crisp in texture, excellent in quality, and combines all the elements to make it a superior pickles as well as for slicing. Its productiveness is marvelous, cropping from 200 to 250 bushels per acre on good ground.

We advise every market gardener to try them. Pkt. 5c., oz. 10c., ½ lb. 35c., 1 lb. $1.50.

---

**English Pickling**

The vines are excessively vigorous, the fruit being covered with the curious little fruits, making it a very interesting to try them. Pkt. 10c., oz. 20c., ½ lb. 50c., 1 lb. $1.50.

---

**West India Gherkins**

A very small, oval, prickly sort, distinct from all others. Pkt. 5c., oz. 10c., ½ lb. 30c.

---

**Japanese Climbing Cucumber**

It bears abundantly throughout the season, while the climbing habit enables the hanging fruit to grow perfectly straight; the cucumbers are thick, tender, and of delicate flavor, when young, and make attractive pickles. Pkt. 5c., oz. 10c., ½ lb. 35c., 1 lb. 50c.

---

**New Giant White Cucumber**

The flesh is very solid, pure white, with exceptionally few seeds, and is exceedingly crisp, of most superior flavor. Pkt. 5c., oz. 10c., ½ lb. 40c.

---

**Serpent, or Snake Cucumber**

A remarkable and very interesting curiosity. The cucumbers grow curled up like a snake with the hand protruding and sometimes are five feet in length. Pkt. 5c.

---

**DANDELION**

The Dandelion resembling Endive and is sometimes cultivated for spring greens, or for blanching for salting, also a valuable remedy for diabetes. Many market gardeners, and especially those near large cities, will find this to be a very profitable crop.

---

**FRENCH or CABBAGE**

An improved thick-leaved early variety, double the size of the common dandelion. The only sort worthy planting. Very profitable to grow for market. Pkt. 10c., oz. 10c., ½ lb. $1.00, 1 lb. $3.50.

---

**FENNEL**

Celery-rooted Fennel. Cultivated same as parsley. Thicker part of the root should be covered with soil, similar to celery. Pkt. 10c., 3 pkts. 25c., oz. 40c.
Superior Varieties of Egg Plant

Our Highly Bred and Critically Selected Types are Superior in Color, Shape, Size and Productiveness, and Unequaled for Home Market or Shipping. Our Varieties are Money Producers

NEW EGG PLANT

MOORE'S EARLY BLACK BEAUTY

MOORE'S EARLY BLACK BEAUTY
SMOOTH STEM
LARGE SIZE

MOORE'S EARLY BLACK BEAUTY

This is said by many of our customers to be the king of Egg Plants, especially to those who grow for market. It is no less valuable to those who grow for their own table. This is the result of years of careful selection from our well-known New Jersey Improved, which has given such universal satisfaction to the many thousands who have grown it. Moore's Early Black Beauty is absolutely the most productive and best selling large black fruited Egg Plant grown. The skin is of a beautiful deep lustrous black color and does not turn yellow in transit; flesh very white, tender and of superior quality. The entire plant is spineless, of a low bushy branching habit, a continuous producer and very thrifty growth, with no disposition to blight like the older sorts. All say it is a perfect "Beauty." No seed saved from diseased plants. Always sure to yield a heavy crop, and very desirable for shipping. Southern market gardeners and shippers will find this variety the very best in cultivation. It will average from 12 to 15 fine fruits to the plant. The best variety of Florida planters. Mr. T. Lane Moore, Manager for John Simon, Commission Merchant, Philadelphia, says: "Your Moore's Early Black Beauty Egg Plant is the finest that comes to this market." There are many other strains, but we regard this as being the best. Pkt. 10c., 1/3 oz. 35c., oz. 45c., ½ lb. $1.40, lb. $5.50.

IMPROVED NEW YORK SPINELESS

We have a very superior type—none better in fact—of this noted variety. It is a continuous producer of large, handsome, purple fruits. Pkt. 10c., 4 oz. 50c., ½ lb. $1.00, lb. $4.50.

EARLY PURPLE TOKIO

(New.) This grand new sort is from 5 to 8 days earlier than any other large fruited sort. This is a highly valuable feature, besides it is the most productive sort we ever saw. Each plant will yield from 12 to 20 beautiful large fruits a season. It will thrive anywhere where an egg plant will grow, and it is more extensively used in the South than any other variety. We believe it to be the ideal sort for the market gardener and shipper. A good keeper and the best long distance shipper we know of. Pkt. 10c., 3 pkts. 25c. oz. 50c., ½ lb. $1.50, lb. $5.50.

MARBALL'S NEW HIGH BUSH

MARSHALL'S NEW HIGH BUSH EGG PLANT

This new high bush type of the egg plant has been added to our line, and is being sold as a novelty. It is a most desirable type of the kind, as it is more productive and easier to manage, and is much more productive and productive than any other type we have ever handled. It is best for southern plants, and is a most desirable type for the home market. Pkt. 10c., ¼ oz. 5c., ½ lb. $1.00, lb. $3.50.

ENDIVE

MOORE'S MAMMOTH GREEN CURL TO ITALIAN

—Very large, valuable, new sort, attaining a diameter of twenty two inches. Leaves beautifully curled, tender; of an attractive greenish color and blanches easily. The centre is very close and full. Much superior to ordinary endive sold by other seedsmen. Try it and be convinced. Pkt. 10c., ½ oz. 25c., 1/3 lb. 60c., lb. $2.00.

WHITE CURL TO GUILLANDS

A beautiful variety; leaves almost white; large compact grower. Pkt. 10c., 1/3 oz. 25c., 1/3 lb. $1.00.

GIANT-LEAVED BATAVIAN (Escarole).—Leaves very large and the best market type. Pkt. 5c., oz. 15c., ½ lb. 40c., lb. $1.50.

ENGLISH BORDEAUX.—A new, large, green, curly, tender sort; splendid for summer or fall. Very pretty and distinct; will outdo any other sort. Should be grown by all. Pkt. 10c., oz. 25c., 1/3 lb. 50c., lb. $1.60.

Moore's Mammoth Green Curled Italian Endive.
TESTED SEEDS

All our seeds are carefully tested before being sold to our customers. We make many thousands of soil tests in greenhouses, cold frames, hot beds as well as laboratory, for vitality. The germination must show a high standard of vigor, so that our customers can depend absolutely upon their trustworthiness in this very important respect; and the steady increase in our business from year to year is due to the constantly widening circle of Market Gardeners who have the highest confidence in the high quality and reliability of our seeds.

USEFUL GOURDS

ORNAMENTAL. Many of our ornamental gourds are quite unique in shape and size. They are very ornamental and must be seen to be appreciated. A large selection is offered. Seeds 10c., 1 oz. 35c., 1 lb. $1.00.

HORSE RADISH

ORDINARY KIND. Medium size roots, 8 for 20c., per doz. 25c., 90c., per 100, by mail, postpaid. By express, medium size, per 100, 30c., per 1000, $4.00. Large roots, per doz. 30c., per 100, 65c., per 1000, $3.00.

MAILER-KREN or BOHEMIA. Much earlier and said to grow longer, thicker and smoother roots than the old sort. Will produce a third more to the acre. Skin thin, flesh very white. 50 roots, 50c., 100 75c., 300 $1.40, 500 $3.25, 1000 $6.00. If by mail add 35c. per 100.

GOURDS

A large and interesting class, producing a great variety of curious fruits, many of which are peculiarly marked. All the fruits are hard shelled, and will keep for years, exciting much attention.

No. 1052.—Japanese Nest Egg. These exactly resemble the eggs of hens, making a capital nest egg; superior to eggs, as they do not break and are uninjured by cold. The plant is a rapid climber. Pkt. 5c., oz. 30c.

No. 1053.—Hercules Club. Four feet long. Pkt. 5c., oz. 15c.

No. 1054.—Orange Shaped. Very useful for baskets, dishes, buckets, etc. They have hard, thick shells, lasting for years, and capable of holding from 2 to 10 gallons each. Pkt. 5c., oz. 25c.

No. 1056.—Sugar Trough. 1000, per 100, 35c., per 1000, $1.40, per 10000, $4.00. The seeds are carried between two sheets of tin, and are placed in a box packed in straw, with booklets giving directions. We are the only seedsmen in the country who carry this gourd.

No. 1057.—Sponge or Dish Rag. (True Chinese Loufia.) Pkt. 5c., oz. 30c.

No. 1050.—Bottle Shaped. Pkt. 5c., oz. 30c.

No. 1051.—Dipper. (Calabash.) Named for its resemblance to a dipper. The capacity varies from a pint to a quart, with handles 6 to 12 inches long. They are convenient for dipping hot liquids, etc. Pkt. 5c., oz. 25c. Comprising a large collection of the most curious and amusing shapes and forms, including the above. Pkt. 5c., 2 pkts. 35c., oz. 50c.

KALE OR BORECOLE

This popular boiling green for winter and early spring use is being planted more largely each year as a market crop. Shipments from southern states reach northern markets during the winter months in large quantities, and in some sections it is almost as popular as spinach. We have found the following sorts to be the best for market.

Norfolk Green Curled Scotch. (Long Standing.) Beautifully curled, very hardy, immense yielder. The hardest and best for fall sowing, to winter over in northern latitudes, heavy cropper. Pkt. 5c., oz. 10c., ½ lb. 25c., 1 lb. 60c.

Welsh Curled. Beautifully curled, long plumule leaves, heavy long continued yielder. If not cut too close to the ground it will yield continuously from spring until winter. Quite hardy; the best and most profitable sort for spring sowing either North or South, enormous cropper. Pkt. 5c., oz. 10c., ½ lb. 30c., 1 lb. $1.00.

DWARF GERMAN GREENS. Not hardy north of Virginia. Pkt. 5c., oz. 10c., ½ lb. 35c., 1 lb. 60c.

SEA KALE. Pkt. 10c., oz. 35c., ½ lb. 75c.

KOHL-RABI or Turnip Rooted Cabbage

Earliest Erfurt White. The shortest leaved and best early market variety, being entirely stringless, tender and sweet. The best variety for forcing in frames or outdoor culture. The best and most profitable sort for market either spring or fall. Pkt. 10c., oz. 30c., ½ lb. 85c., 1 lb. $2.90.

SMOOTH WHITE SHORT-LEAVED VIENNA. Not as early as the above. Pkt. 10c., oz. 90c., ½ lb. 60c., 1 lb. $2.00.

SMOOTH PURPLE SHORT-LEAVED VIENNA. Pkt. 10c., oz. 20c., ½ lb. 75c., 1 lb. $3.00.

Market Gardeners will find the above types of Kohl-rabi the finest procurable.

LEEK

Sir Aytton Castle Winter. (New.) The largest and best sort, of exceedingly fine quality and good flavor. The best for market or private use. The best winter keeper. Pkt. 10c., oz. 30c., ½ lb. 60c., 1 lb. $2.00.

LARGE IMPROVED NEW GIANT ITALIAN. Extra stocky and better than the London Flag. Pkt. 5c., oz. 50c., ½ lb. 35c., 1 lb. $1.50.

LARGE LONDON FLAG. English grown, true. Pkt. 5c., oz. 15c., ½ lb. 50c., 1 lb. $1.00.

"Your SIR AYTTON CASTLE is a grand variety, the finest I have ever seen. Nearly a foot in length and 2 inches in diameter, and will get much larger. It is a good keeper."—Mr. A. Willis, Frankford, Pa.

Moore's Early Sash Lettuce

A Delicious First Early Lettuce. A grand new early head lettuce. It is the tenderest and most delicate eating of all the lettuce family. This finery early sort is pre-eminently well adapted for growing under glass. It is undoubtedly the best of all sorts for growing under such in every part of the United States for home or nearby markets. Every plant is uniformly perfect, with a head ten inches across, few outside leaves and a very tender, wax, creamy heart of the most delicious quality, tender, crisp, succulent and sweet. It will surely be a pleasant revelation to all who plant it.

Pkt. 10c., oz. 30c., $1 lb. 75c., lb. $2.50.

California Giant Forcing

Every plant heads, and the heads are uniformly shaped, very large and thick through, and of a solidity equal to that of cabbage. They measure about ten inches across the solid head. The leaves are slightly crumpled, of a beautiful white color, and for neatness it is unsurpassed by any existing variety. It heads very rapidly. A great favorite with Southern growers and gardeners everywhere on the North, and of great value for your open-ground culture and for planting under cotton or a late crop under sash. As a shipping sort it is the best of all and always sells for an extra price. Every lettuce grower who plants it will be delighted with the result. It is tried on a trial on good rich soil. Pkt. 10c., oz. 35c., $1 lb. 50c., lb. $1.50.
HOPKINS’ BIG BOSTON LETTUCE

The King of This Type of Head Lettuce. Immense Heads as Solid as a Cabbage and of Superior Quality.

This magnificent strain of Big Boston Lettuce is the result of a very careful and intelligent selection of one of Philadelphia’s most successful market gardeners. After years of careful selection and testing ourselves, as well as in the largest lettuce growing sections of the United States, we have chosen not only the largest but the finest types that we decided to offer to our many thousand market gardeners throughout the world. It is a great key, a true long-distance, and we especially recommend it to all lettuce growers who wish to grow heavy heads.

The largest heads of Big Boston Lettuce is different and better than any other type of Big Boston. It is bred to produce and is suited with a view of producing larger heads, with leaves of finer and crispier texture, white and only repeated by lettuce growers. It stands better being cut than any type of Big or Large Cabbage Head we have ever tried. While it is very well adapted to growing in frames and cold greenhouses, it is also grown with great success and more

HOPKINS' BIG BOSTON LETTUCE

The Great Hot Weather Lettuce. Immense Heads—12 to 15 inches across. Blanches Beautifully, is Cripst, Tender, Sweet and Absolutely Free from Bitterness.

In short, it is the Acme of Perfection for a Spring and Summer Lettuce. It stands during hot, dry weather, when no other sort will.

Those who like a cabbage lettuce, with rich, buttery leaves of great substance, will be thoroughly satisfied with this new variety from Turkey, which is adequately shown in the illustration herewith, engraved from a photograph. It stands hot weather without becoming bitter or coarsening, heads large, solid, creamy white leaves of superb quality and of desirable size, crisp, juicy, sweet, and tender. They are the result of many years’ careful selection and improvement by us. It is a deep-rooted, resisting hot, dry weather to a remarkable degree. The outer color is a light blue green. It is very extensively grown by thousands of market gardeners in all sections of the country and from whom we received very satisfactory reports. It has come to stay, and is a standard main summer hot weather lettuce. It has few outer leaves, and we think very appropriately call it an All Head lettuce. It is very slow to run to seed, and it will stand in good condition fully two weeks after the heads are cut. It is much valued by the other Big Boston or Mammoth Salamander. Most highly recommended for family gardens or the market gardener who wishes fancy prices for what he grows. We highly recommend it for early spring and early fall planting. It never shows any brown or yellowing of the leaves, and to the taste it is the same as any other Big Boston lettuce.

CANNOT SAY TOO MUCH IN ITS FAVOR.—“Your Turkish Butter Lettuce shows a remarkable combination of good qualities. The beauty of its appearance and fine quality are beyond a few. I have grown it 3 years and have not met with anything like it. I trust it will continue to grow. It is sure to head every time. When Salamander and Big Boston just started to head I had your Turkish Butter all cut off. All were sown at the same time.”—SAMUEL H. WHEATLEY, gobend No. 3.

A MAGNIFICENT SUMMER LETTUCE.—“I have been trucking 21 years and have been planting your Turkish Butter exclusively the last 4 years for my summer crop. When I tell you it is a magnificent summer lettuce and that I would not be without them all my needs were met and all the fruit induced to plant it by me; 12 heads filled a flour barrel. They were beautiful large, solid, firm heads too.”—ISAAC M. JONES, WILKES-BARRE, PA.

MOORE’S NEW SUMMER GEM

This is undoubtedly one of the largest heading varieties of all summer lettuces and particularly valuable for summer planting. The heads are large, from 12 to 15 inches across; form up rapidly and are of a beautiful creamy white color, very crisp and tender. Market gardeners in warm sections write us that it heads up uniformly and is among the most salable lettuces they ever had for summer use. Excellent for private gardeners. It should have abundance of water. Don’t fail to try it. Pkt. 5c., oz. 20c., lb. 50c., lb. $1.30.
LETTUCE

HIGH GRADE VARIETIES

CONTINUED

NEW ROMAINE CELERY

A GOOD NEW LETTUCE. Very profitable to grow. This new sort produces a sweet, white head, large, and very tender. It is productive, sweet and tender and is preferred to all other varieties of lettuce. At Paris, where large quantities of it are grown for market, it is known as "Parisian Celery". The luscious white color and large size of the heads makes it very desirable. Grows to about 10 inches high, and will stand without tying. It is the best cooking and market lettuce. Pkt. 10c., oz. 15c., ¼ lb. 40c., lb. $1.50.

PARIS WHITE HEART or TRIANON. Produces long-pointed, compact heads. It has to be tied to the plant. Oz. 15c., ¼ lb. 45c., lb. $1.25.

BIG BOSTON. We have a very fine strain of this important variety. (See our description of our New Hopkins' Big Boston on page 9.) We solicit correspondence from large buyers and associations who plant this important variety. Pkt. 10c., oz. 15c., ¼ lb. 40c., lb. $1.50.

CUT AND COME AGAIN. A very crisp, sweet and tender variety for sowing thickly in rows. It can be repeated cut during the season. Excellent for plantings or selling by measure. Will make good heads if properly thinned. Should be cut about 2 inches from the ground. You will like it. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. $1.50.

Moore's Selected Early Dutch Butter. (Private Stock.) A sure heading variety. The best strain of Dutch Butter for growing during winter and early spring under glass. Large solid heads of delicious quality. Very early, sure, best for market purposes. Pkt. 10c., oz. 25c., ¼ lb. 75c., lb. $2.50.

MAMMOTH SALAMANDER. Extra selected stock. Large heads, resisting summer heat. Very fine strain. Oz. 15c., ¼ lb. 45c., lb. $1.50.

SALAMANDER. Oz. 10c., ½ lb. 30c., lb. $1.00.

GRAND RAPIDS FORCING. Pkt. 5c., oz. 15c., ¼ lb. 30c., lb. $1.00.

HAMMERSMITH SUMMER DRUMHEAD. Good summer sort. Large, solid, very tender heads. Pkt. 5c., oz. 15c., ¼ lb. 40c., lb. $1.50.

MAMMOTH BLACK-SEEDED BUTTER. Extra selected stock. Oz. 15c., ¼ lb. 30c., lb. $1.00.

NEW SENSATION. Extra selected stock. Oz. 15c., ¼ lb. 45c., lb. $1.50.

MOROCCO'S MAGNUM BONUM. Oz. 30c., ½ lb. 60c., lb. $2.00.

BLACK-SEEDED SIMPSON. Oz. 15c., ¼ lb. 30c., lb. 90c.

ARLINGTON TENNIS BALL. Extra selected stock. Good shipper and grower. Oz. 30c., ½ lb. 60c., lb. $2.00.

HANSON. Good summer sort. Oz. 15c., ¼ lb. 30c., lb. 90c.

Boston White Hot House. (Bower's Private Stock.) Early, rapid grower, very solid, compact whited heads. This extensive grower of hot house lettuce should be used more and produces large heads available at any other Boston grower. The most reliable and profitable of all sorts for growing in greenhouses. Pkt. 10c., oz. 75c., ¼ lb. 2.25, lb. $8.60.

SPECIAL FORCING GRAND RAPIDS. (Sloan's Stock.) Better color and very compact. Pkt. 10c., oz. 25c., ¼ lb. 50c., lb. $1.50.

NEW FRENCH POULTRY LETTUCE. Probably every poultry raiser knows how eagerly poultry are to eat lettuce, how they seem to enjoy it, and when opportunity offers, to actually fight for it. The French and Belgians are said to produce the finest flavored poultry grown, and largely attribute their great success to the great quantities of certain lettuce which they freely feed their fowls on. After considerable experiments we have succeeded in obtaining some of this valuable variety for our customers. It is a very strong grower, a small plot of ground will yield a prodigious quantity of delicious properties both medicinal and food which make it so valuable to the poultry raiser. All kinds of poultry eat it greedily—chickens, ducks, guineas and geese eat it with great avidity. Freely fed in connection with other foods it keeps them in the best of condition and greatly increases the egg production as well as imparting a delicious flavor to the fowl when cooked. It is a very cheap food, and very easily grown. When 3 or 10 inches high it is ready to feed. Every poultry raiser large or small, should if possible produce his own poultry food, and there is no poultry food he can produce more cheaply as growing our New French Poultry Lettuce. Pkt. 10c., oz. 25c., ¼ lb. 50c., lb. $1.50.

A FEW OF THOUSANDS

GENTLEMEN:—"I had the earliest and finest tomatoes in Henderson county this year, all grown from your seed. Am enclosing one. A. H. Hendry, R. D. 2, Henderson, I. A. HENDRY, R. D. 2, Henderson, Ten.

"Your Cabbage seed is the best in this section, and we pronounce your fX. Tomato all the best."

O. K. It's a wonder."—J. C. BELLAMY & SON, VICTORIA, FLA.

TWO RECENT NOVELTIES

THE WONDERBERRY. (We herewith give the introducer's description of it.) Fruit more like a large, rich, luscious blueberry than any other berry yet described for the market. It is rich green in color, in flavor and unsurpassed for eating raw, cooked, canned or preserved in any form. It is the largest berries, the largest fruit ever introduced, and equally valuable for the North, South, East or West, in fact, any part of the world. The Wonderberry ripens of the cool, hot, dry regions of the West, the Great Plains and the South, where fruits are always scarce, can have an abundance of luscious berries for family use or for market. It can be grown in every climate, in every soil, in every part of the country, in every garden and flowerbed. The culture is the same as for tomatoes. Pkt. 10c., 3 pkts. 25c., 7 pkts. 30c.

HOLT'S MAMMOTH SAGE. The plants are of strong growth, tall, having a height of 1 foot the first season and spread so that a single plant covers a space of 2 feet in diameter. They are perfectly hardy and make a still larger growth the second season. Our illustration shows a leaf of natural size: they are borne well above the ground, are strong in flavor, of unusual substance and of superior quality. It does not need. Price, each, 15c., 3 for 35c., 7 for 50c., 15 plants for $1.00 by mail, postpaid.

A Leaf of Holt's Mammoth Sage (Plants only).
MUSK MELONS—THE MOST PROFITABLE ONES TO GROW

Important for You to Know

That for many years we have been one of the largest growers of Melon Seeds in the United States, and we supply every season over our counter hundreds of truck gardeners with our superior strains, and ship many thousands of pounds to the largest melon growers of the South and West. We attribute the popularity of our melon, as well as of other seeds, to our careful selection of the very finest specimens of our seed stocks, thus improving and breeding up our stocks to the highest state of perfection. Many of the best and most popular melons now known were first introduced by us. Corresponding with us for SPECIAL PRICES if seed be wanted in large quantities, no matter whether it be 1,000 pounds or upward of any one variety.

We sell any three 10c. packets of Vegetable or Flower seed for 25c., or any fifteen 10c. packets for $1.00, postpaid.

Burrell Gem (Stock Seed). This seed is cut from melons of the finest possible selection as to uniformity of shape, size, netting and quality. In fact it is saved with the same care as we exercise in breeding up a new variety. Pak. 10c., oz. 30c., ¼ lb. 50c., lb. $1.50, 5 lbs. $7.50. postpaid.

Thoroughbred Rocky Ford Cantaloupe—Watter's Solid Net. The melons are very uniform in size. As grown for seed near our plantations this crop averages the right size to pack 45 melons to the standard crate. We have supplied this strain of seed to many critical planters for six years in succession, and have each year doubled our supply, and even then have been unable to supply the demand. This melon has remarkably good keeping qualities. We have known them to cut in prime condition twelve years from the date.

Thoroughbred Rocky Ford—Watter's Solid Net (Stock Seed). In saving this seed, which is every melon is passed upon, which makes it an ideal melon for growing, shipping and eating, and we feel confident in saying no finer strain has ever been produced. Pak. 5c., oz. 10c., ¼ lb. 30c., lb. $1.00, 10 lbs. $9.35, 25 lbs. $12.00, 50 lbs. and upward $8.00.

Eden Gem Cantaloupe (Stock Seed). The car of the melons of the melons of the very finest of all the Rocky Fords. This is a wonderfully profitable new melon. It has scored the highest wherever exhibited, over all competitors. It has the heaviest, thickest flesh and smallest seed cavity of all cantaloupes. Our Eden Gems made their high score on solid white netting, thickness of flesh and large percentage of sugar they contained. The first crate of "lopes" to ripen at Rocky Ford, Colo., of crop 1897, was our Van Buskirk Eden Gem and sold for $2.50. The first car was shipped August 17 to Olivett Bros., New York City. There is no trouble to sell them at the fanciest of prices. They are very extra thick, of a beautiful pinkish hue, fading to a delicate apple green. Seed cavity very small. The average yield is over 290 carates.

NEW ORDWAY PINK

It gives us much pleasure to be able to offer our customers a limited quantity of this grand musk melon seed. It is the No. 1 musk melon near Ordway, Colorado, and which we introduced in 1906. It is superior in every way and will make a mistake in planting it. It has a tough, thin rind, well arched ribs and a reddish orange, very thick, fine-grained and spicy, not containing too much water and seed, the flavor cannot be excelled. Seed cavity small and the seed closely held in place in three lobes. (This is one of the points to consider in shipping a melon, as, if the thoroous growth containing the seeds is not well developed, the seeds soon shake loose and the melon as quickly begins to decay. It is an abundant yielder, often producing from 20 to 25 delicious melons to the hill. The rind is covered with a closely laced gray netting, except the pearly stripes between the ribs, which is not netted. The blossom end is well protected. Shape oblong, averaging six inches long and tapering at the ends. It is an excellent shipper and will carry nearly two weeks without ice. This melon has brought hundreds of growers highly profitable returns and it will pay you to grow it. Stock seed. Pak. 10c., oz. 30c., ¼ lb. 50c., lb. $1.50, 5 lbs. $7.50. postpaid.

Burrell Gem—The Great Blight Resister

New Ordway Pink—The Great Blight Resister

MATCHLESS EARY MUSK MELON

It is a small melon, weighing 1 to 1½ pounds. The flesh is deep and thick, and light greenish-white in color. It is next the seeds, where it inclines toward yellow. The flavor is exceedingly fine. The skin is green, regularly ribbed and thickly netted. It is a firm, solid melon and will carry in perfect condition for a week or more after its removal from the vine. It is a heavy cropper, and is in wide favor as a market melon. Indeed, its ability to bear transportation without breaking down has made it one of the most profitable of crops, and explains why it is so universally grown. It is absolutely the earliest of all green-fleshted melons, and we particularly recommend it to all whose profits depend on being first in market. It is more largely grown in the great melon-producing State of New Jersey than any other sort, with the possible exception of our Parker's Early, and is used in enormous quantities in the Eastern cities and at the seashore resorts. Uniform size, fine shape and appearance, green fleshted, extremely delicious, are sold readily in our market at from $1.25 to $2.00 per dozen, the profit on an average something enormous, as all the melons are usually sold before other sorts come into the market. Pak. 10c., oz. 15c., ¼ lb. 50c., lb. $1.50.

Matchless Early Musk Melon
MUSK MELON—All Seed Carefully Saved from Selected Melons

FRENCH CANTALOUP

We regard this as one of the very best and most profitable early melons in existence for market gardeners and shippers, and nothing among the green-fleshed varieties surpasses it for quality. We have the honor of introducing this singularly beautiful melon, which was placed in our hands by the raider, Mr. Van sluice, of Paris. In quality, this leads all, and every home garden should include it. Medium-sized, round, with salmon-red flesh, soft, rich, sweet and juicy that it needs to be eaten with a spoon. No other melon compares with it in cutting qualities, and it is the finest of all others for the home garden. It is unequalled for marketing near home. They average about 2 lbs. each and will produce from 500 to 7,000 perfect melons per acre. Pkt. 5c., oz. 15c., 1lb. 30c., lb.$1.00.

NEW EARLY HONEY SWEET

The Most Extensively Grown of All Musk Melons. A Reliable and Bountiful Yielder, Large, Handsome, Early. Flesh, Green, Rich and Sugar. Roughs up Well and Keeps Longer Than Other Sorts.

They grow very uniform in shape and size, weighing about two pounds each, skin green and thickly netted. They are very thick, meaty flesh, of light yellow-green color, the inside surface, when cut open, being of about same color. Quality and texture are superior, being uniformly rich, strong, and luscious. They are Early, ripening a few days after the M开启es. Pkt. 5c., oz. 15c., 1lb. 30c., lb.$1.00, 5 lbs. $4.50.

Parker's Early. Very early, deeply ribbed, well netted. Wonderful, dainty, productive, Oz. 10c., 1lb. 30c., lb.$1.25. 5 lbs.$6.00.

Perfect Gem or Honey. The king of all the yellow-fleshed sorts. The handsomest, the best netted, the best shipped, the flavor the most delicate, and spiciest of all who grow it for home market. Pkt. 5c., oz. 15c., 1lb. 30c., lb.$1.25.

MILLER'S CREAM. Oz. 10c., 1lb. 30c., lb.$1.00.

CREOLE PRIZE. Very large size; delicious quality. An excellent variety for a grower who sells direct to the consumer. Pkt. 10c., oz. 20c., 1lb. 45c., lb.$1.25.

ACME. BALTIMORE. Thick green flesh, oblong, good shipper, free from blemish. Oz. 10c., 1lb. 30c., lb.$1.00.

BURPEES SPICY. Sweet, yellow flesh, oval, about 9 inches long by 6 inches in diameter. Very distinct. Pkt. 10c., oz. 20c., 1lb. 30c., lb.$1.00.

FORDHOO K

The flesh is very thin, of an attractive deep salmon color and surpassingly sweet to the very last. The beautiful salmon flesh, while so surpassingly luscious, is not only very thick, but an extremely solid. The rind, although thin, is unusually firm, so that the fruits carry very well to market. There are no musk melons (green-fleshed varieties) that are better shippers. It is most vigorous in growth, very early and extremely prolific. The fruits are ready for market fully as early as our Honey Sweet. The vines grow vigorously, and each vine sets from 3 to 6 melons immediately around the stem; frequently the fruits touch one another. The melons are remarkably even in size, weighing from 1 lb. 8 oz. to two pounds each. They are always of the handsome form and attractive appearance illustrated above.

"FORDHOOK" is so "thoroughbred" that there are practically no fruits unfit for market. Pkt. 10c., oz. 30c., 1lb. 60c., lb.$1.25.

PAUL ROSE or PETSKEY. Thick salmon-colored flesh. Oz. 10c., 1lb. 33c., lb.$1.25.

IMPROVED NETTED GEM. Oz. 10c., 1lb. 35c., lb.$1.00.

NORFOLK BUTTON. New. Small, good quality, early. Oz. 15c., 1lb. 30c., lb.$1.00.

EARLY JENNY LIND. Small, early. Oz. 10c., 1lb. 30c., lb.$1.75.

EMERALDGem. Small, early. Good quality. Oz. 15c., 1lb. 30c., lb.$1.25.

Sutton's Scarlet Masterpiece. A red-fleshed variety of the most dainty and delicate flavor. A remarkably fine shipping variety. A favorite with southern growers. Pkt. 5c., oz. 30c., 1lb. 50c., lb.$2.75.

LONG ISLAND BEAUTY. Early, good quality. A favorite in New York market. Oz. 10c., 1lb. 30c., lb.$1.00.

McCLEARY'S LARGE JENNY LIND. Oz. 10c., 1lb. 40c., lb.$1.25.

EXTRA EARLY HANDSACK. True, very good quality. Oz. 10c., 1lb. 35c., lb.$1.25.

YELLOW-FLESHED OSAGE. Fine quality. Oz. 10c., 1lb. 30c., lb.$1.00.

Everyone Should Try Our

BANANA. Flesh, very thick, of a salmon color; flavor remarkably delicious. It looks almost like an overgrown banana, and moreover, smells like one. The melon alluded to has a diameter of 18 to 20 inches, and a diameter of 26 to 28 inches. This sort is not a mere curiosity, but is in such favor as to command good prices in market. It is always in demand, and is very desirable for family use as well. Pkt. 10c., oz. 15c., 1lb. 40c., lb.$1.25.

PARKER'S EXTRA EARLY (New)

Earliest of All! Yes it is the Earliest of All Musk Melons, Without Exception.

Our attention was called to this melon by a market gardener at Atlantic City, N. J., who for the past years has always had musk melons from 8 to 15 days ahead of the neighbors. These melons were of uniform size, of fine shape and appearance, beautiful orange-green flesh, extremely delicious, and sold readily at market in from $1.50 to $1.80 per basket, the profit on an acre being something enormous, as all the melons were usually sold before other sorts came into the market. This is the Earliest, Musk Melon that we know of, and it will be sure to create a sensation everywhere.

It is nearly round, as may be seen by the cut, of good size, weighing about 2 lbs. each. Of a dark-green color outside, well netted, while inside they are of a rich copper-orange color, and, we venture to say, with thicker flesh than any other early variety in cultivation, there being sparingly room for the seeds. As to flavor, they take the keen bite, and are far ahead of everything else at present cultivated. It surpasses all other melons in delicious flavor and unusual productive power. It is a small melon, and is very desirable for family use as well. Pkt. 10c., oz. 15c., 1lb. 40c., lb.$1.25.

If you want to make money on earliest musk melons, there is nothing in the wide world that you can plant that will give quicker returns than Parker's New Extra Early Musk Melon. Pkg. 10c., oz. 30c., 1lb. 60c., lb.$1.50.
OUR MELONS ARE GROWN EXCLUSIVELY FOR THE SEED
and every melon not true to type and shape is thrown out and destroyed. Every melon under 15 pounds in weight of the smaller varieties and 20 pounds of the larger varieties is thrown out. Not a seed is saved from the small and inferior melons. Not a melon is sold from the crop or shipped by any of our regular watermelon seed growers. Naturally it costs several times as much to grow seed this way than it does to grow the seed sold by other houses at a lower price.

We make a specialty of good, pure watermelon seed of the highest vitality which we grow on new ground under the most favorable conditions. Next to our Tomato Seed it is our greatest specialty. Our seed is the best that can be grown, and if you want seed that will produce in go, perfect, sweet and salable melons, we have it. If you want to grow watermelons fit to eat and to bring you the highest price in the market, use our specially selected and carefully grown watermelon seed.

Moore's Selected Watermelon Seed is the Best
Our customers will use over twenty thousand (20,000) pounds of our Superior Watermelon Seed for their 1910 Crops

Our watermelon seed is used by many of the largest planters in the United States, and we thank our numerous Southern customers for their very liberal patronage.

Alabama Sweet. One of the finest long shipping melons. This new introduction is becoming the most popular among Southern melon growers of all the long shaped shipping varieties, a slightest. In general appearance it looks very much like the Kleckley Sweet—looks that make it sell on sight at the highest price. It is extra early, coming in almost with Seminole, and is one of the earliest medium to large size melons we have ever seen. It is of long shape with an intense dark green color, and a splendid shipper. Flesh is very fine grained, solid but free from stringiness. Pkt. 5c., oz. 10c., ½ lb. 25c., lb. 60c., 5 lbs. $4.00.

Kleckley Sweets. An immensely popular melon of superb quality, with a splendid stock, a great price, and shipping use and nearby markets. Flesh bright scarlet with broad solid heart, crisp and juicy. Seed medium, from selected specimens only. Pkt. 5c., oz. 10c., 2 oz. 15c., ½ lb. 25c., lb. 60c., 5 lbs. $3.75.

Turner's Dark Icing, or ICE RIND. Fruits of round or oval form, with dark green skin. Flesh deep pink, very sweet and melting. Justly popular with N. W. Jersey truckers, as it is famed for its solid fruit quality makes the melons sell well in any market. Pkt. 5c., oz. 10c., ½ lb. 25c., lb. 75c.

NEW NATIONAL. Exceptionally productive; of fine quality and a good shipper. Oz. 10c., ½ lb. 20c., lb. 60c., 5 lbs. $3.50.

Florida Favorite. A large oblong melon, with dark green skin, flattened striped with still deeper shade; deep red flesh of excellent flavor. Pkt. 5c., oz. 10c., ½ lb. 20c., lb. 60c., 5 lbs. $3.75.

Kob's Gem. Large grown for shipping to Northern markets, as it carries well. The melons are of a thick oval blocky form. Handsomely marked in dark and light green stripes. Flesh bright red. Pkt. 5c., ½ lb. 15c., lb. 50c., 5 lbs. $2.25.

Blue Gem. The rind is exceptionally strong, making it a good shipper. Quality superior to King Gem, larger in size and more attractive in appearance. Very pure stock. Oz. 10c., ½ lb. 20c., lb. 60c., 5 lbs. $3.50.

DEKE JONES. Heavy cropper; excellent shipper; flesh red of good quality. Oz. 10c., ½ lb. 20c., lb. 50c., 5 lbs. $2.50.

Arizona Wonderful Sugar. The melon is long of good shape, and of a luscious sweetness not found in any other. The rind is unusually thin and tough. It will be found a money maker by all our market gardeners. 10,000 melons were produced on one acre. Pkt. 5c., oz. 10c., ½ lb. 25c., lb. 75c., 5 lbs. $3.50.

Louisiana Melting Sugar. A large, long, weighty melon. Flesh red, interior always solid, the edible portion extending to within half inch of the skin. Flesh brilliant red, never tendency to stringiness, very juicy and altogether quite superior. A very hard rind, and therefore a good shipper. Oz. 10c., ½ lb. 25c., lb. 70c., 5 lbs. $3.00.

EARLY MARKET KING
Superior for Long Distance Shipping

THES EAREST LARGE MELON EVER GROWN
MATURES 60 DAYS FROM PLANTING

Notwithstanding the large size of this melon they will readily withstand packing seven layers deep, without injury, in a car, whereas the Kolb Gem or any other variety cannot be packed more than five layers deep for long distance shipping, thus fully proving it to be superior to all others as a shipper. Fruit large and heavy (thirty to fifty pounds). A melon large growers need not hesitate to plant largely. This is not only an early watermelon of fine quality, but it is also of large size. From seed planted on the fourth day of May, large, ripe melons were picked July 29th. Its setting qualities superior to all other early sorts, and always commands the highest market price. Pkt. 5c., oz. 10c., ½ lb. 25c., lb. 70c., 5 lbs. $3.90, 10 lbs. $6.00. 25, 50 and 100-lb. lots will be quoted upon application.
We Produce Water Melon Seed for Every Market, for Every Soil, for Every Locality, for Every Taste, for Every Purpose and for the Most Careful and Critical Grower

THE NEW WATSON

It certainly gives us great pleasure to introduce this remarkably fine Water Melon to our many thousand customers. It required many years of the most careful hybridizing and selection on the part of Mr. C. O. Watson to produce this, what he terms "The King of All" Water Melons, and to use his own language he "challenges the world to produce a better melon of its type, a better melon for growing, shipping or eating. This remarkable melon ripens in from 65 to 80 days and under good cultivation will weigh about 60 lbs.

It is best for every reason, the best and sweetest flavored melon in the world—the grandest of all varieties. We have given it careful trials among many large melon growers for several seasons past in the largest melon growing sections of the world, and they are all highly enthusiastic in its praise. We have never yet found a grower or consumer who was not delighted with it, and we feel sure you will join the same ranks if you are judicious in your melon selections.

One seed will produce two or three large melons. The skin is of a rich deep green, the flesh a beautiful deep red, crisp, juicy and melting and free from stringiness. It is very heavy, early, large, handsome, a strong vigorous grower, a good shipper and long keeper. One grower planted 1,200 acres of this melon last year. All seed saved from specimen melons only. Pkt. 5c., oz. 15c., 1/2 lb. 35c., lb. $1.55.

S. J. MAXWELL, RIO BANK, N. J.

"THE NEW WATSON" gave me and my customers great satisfaction. I took first premium at our fair on eating quality. It is the best flavored and crispest fleshed ever grown in this locality. The entire appearance is particularly pleasing and it has already become very popular.

GEORGIA BIG HEART

The New Shipping Melon. This is comparatively a new melon from one of the largest water melon growing districts in Georgia; it is admitted by all who have seen or handled it to be the coming melon for profitable long distance shipping, as well as for home market where large round melons are in demand. It is a large handsome melon, slightly oblong as our illustration shows. It will average from 16 to 20 inches in diameter and 12 to 15 inches in length. It is as evenly as good a shipper as the famous Kolb Gem. It commands a much higher price than Kolb Gem, Blue Gem, Triumph, Ironclad or Kolb Sweets. The skin is a beautiful dark green, occasionally showing stripes and bands of a lighter green, changing to darker green when ripe. It is particularly distinguished by its solid "Big Heart" of pleasing bright red color and delicious quality, and entirely free from hard core. The center or rind from rind to rind and hollows or cavities are entirely absent. In our opinion it is a most desirable variety for shipping or hotel trade.

Early Big Heart is a good variety to plant anywhere, and for any market it will make big money for any careful grower, where water melons can be grown. Specimens weighing from 60 to 80 pounds are not uncommon. It is particularly well adapted for shipping in car lots. No matter whether you grow one acre or a thousand acres it will give you perfect satisfaction. The vines are a remarkably vigorous grower and blight was never known to affect it. All seed saved from specimen melons only. Pkt. 5c., oz. 15c., 1/2 lb. 35c., lb. $1.55.

A GRAND NEW WATER MELON—FLORIDA GEM

This prince of water melons is the result of a cross between the Florida Early White and the Louisiana Mammoth Melting Sugar by one of Florida's largest and most successful melon growers, and who cleared over $7,000 in 2 years, growing and shipping the delicious melon's north. Our seed stock was procured from him, and we take pride in offering it to our many thousand customers throughout the world, knowing it will be the means of making many honest dollars by growing it for market. This fine new melon will average about forty pounds in weight and is of the highest table quality. It is remarkably productive, as the testimonies of those who have grown it show. While it is of southern origin, it is equally well adapted for the north and will grow anywhere where water melons can be grown. The color of the outside is rather light with distinct dark markings. The flesh is of a pleasant brilliant red and decidedly solid, and will be found to be firm and very dense in color from rind to rind. The flavor is peculiarly delicious. While the rind is thin it is remarkably tough, and it is not subject to blight to the extent that other melons are, and will yield big crops on land where other sorts fail to produce satisfactorily. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c. $3.50. postpaid. Buyers of 25, 50, and 100 lb. lots of any kind of melon seed will be quoted special prices by letter.
Moore's Superior Watermelon Seed

Moore's New Majestic. The most valuable new watermelon of the day. It has come to stay, with all shippers. Large growers need not hesitate to plant it largely. True stock. Seed grown by the Moore Co. The rind is dark green, lightly striped, flesh scarlet, very firm, solid, and of luscious quality, and frequently attains a weight of eighty pounds. For the past three years this has proved to be the most profitable watermelon sent to the Northern markets. An acre of Majestics will net 100 per cent, more money than an acre of Striped Dizes, Sweet, Hearts, etc. Last year we supplied seed for over $00,000 melons in South Carolina and for over 2000 car loads in middle Southern Georgia. We mention this merely to show its popularity in large melon-growing centres. As a shipping melon it is in every way superior to the Blue Gem, of Alabama origin; also the old Kolb Gem. Its beautiful appearance and good quality always insures the highest market price. Every melon grower should plant it. Pkt. 5c., oz. 10c., lb. 25c., lb. 75c., 5 lbs. $1.35. Buyers of 25 and 100-lb. lots quoted upon application.

Arkansas Traveler. A large, long, weighty melon. Rind dark green, with waving stripes of black. Interior always solid, the edible portion extending within half an inch of the skin. Flesh brilliant red, sweet, tender, crystalline, very juicy and altogether quite superior. Seed variable in color and size, ripening as an intermediate. A very hard rind, and therefore a good shipper. In color of flesh it is deepest red, in texture crystalline, in flavor sugar. The flesh is solid throughout, without any sign of either core or cavity, and the edible portion extends to within half an inch of the skin. Fine for plantings to mature in August and September. Pkt. 10c., oz. 15c., lb. 30c., lb. 1.00, 5 lbs. $4.50.

Harris' Earliest. In form this melon is oval to oblong. It is beautifully striped with dark green and gray stripes. It has bright red flesh, which is tender, sweet and delicious beyond description. It is very productive. It is the melon for everybody who wants to be first. It bears shipping very well, and on account of its extreme earliness, handsome appearance and fine table qualities, it always finds a ready market at fancy prices. Our stock direct from Mr. Harris. Oz. 10c., 1/2 lb. 30c., lb. 1.00, 5 lbs. $4.50.

HALBERT HONEY. Seed saved from finest specimens only. Oz. 10c., 1/2 lb. 25c., lb. 75c., 5 lbs. $3.25.

EARLY MARKET KING. (New). Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 70c.

MOUNTAIN SWEET. Oz. 5c., 1/2 lb. 15c., lb. 50c., 5 lbs. $1.00.

LIGHT ICING or ICE RIND. Oz. 10c., 1/2 lb. 20c., lb. 50c., 5 lbs. $2.25.

DARK ICING. Oz. 5c., 1/2 lb. 15c., lb. 55c., 5 lbs. $2.50.

STRIPE GYPSY or GEORGIA RATTLENAKE. A favorite melon in the South. Oz. 5c., 1/2 lb. 15c., lb. 55c., 5 lbs. $2.50.

JORDAN'S GRAY MONARCH or LONG WHITE ICING. Flesh a deep red in color and of very fine quality. Oz. 10c., 1/2 lb. 20c., lb. 60c.

CARR'S SEMINOLE. Fine shipper. 1/2 lb. 25c., lb. 75c., 5 lbs. $3.50.

EDEN GEM. Oz. 10c., 1/2 lb. 20c., lb. 55c., 5 lbs. $2.50.

PRIDE OF GEORGIA. Oz. 10c., 1/2 lb. 25c., lb. 60c., 5 lbs. $3.75.

SUGAR STICK. Fine quality. Oz. 10c., 1/2 lb. 25c., lb. 80c., 5 lbs. $3.75.

Miner's Black Pearl. The flesh is brilliant red, very solid, and in its appearance is much superior. Skin a beautiful dark green; the rind is very thin, but exceedingly hard, which renders it a valuable shipping melon. We commend it to all our customers who wish a very dark-skinned melon. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 70c., 2 lbs. $1.25, 5 lbs. $2.50.

DIXIE. Extra selected stock. Oz. 10c., 1/2 lb. 30c., lb. 50c., 5 lbs. $2.25.

DIXIE. Extra selected stock seed saved from picked melons. Oz. 10c., 1/2 lb. 25c., lb. 50c., 5 lbs. $2.25.

BLACK BOULDER. Of large size and excellent quality. Seed direct from the originator. Oz. 10c., 1/2 lb. 30c., lb. 50c., 5 lbs. $2.75.

TRIUMPH. Oz. 10c., 1/2 lb. 20c., lb. 60c., 5 lbs. $2.50.

CAROLINA BRADFORD. Oz. 10c., 1/2 lb. 25c., lb. 80c., 5 lbs. $2.75.

CHEROKEE BEAUTY. Oz. 10c., 1/2 lb. 30c., lb. 1.00.

FORDHOOK EARLY. 1/2 lb. 25c., lb. 50c., 5 lbs. $3.50.

Monte Cristo. The greatest yielder. The sweetest, juiciest, crispest and most solid melon ever produced, never having a hollow or pithy centre when ripe. The easiest to sell on the market, for when once tried people will have no other. Many of our customers have written us the past year that they have cleared $00 more per acre by growing Monte Cristo Melons. It is a grand, good shipper: has a firm, solid rind, not too thick, yet will stand the most severe handling. The outside skin is of a rich, dark green color, shaded with faint stripes of a somewhat lighter color. Certainly one of the finest appearing Melons ever grown for market shipping. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 90c., 5 lbs. $4.00.

New White Dixie. It possesses all the good qualities of the old Dixie, and is of much better quality. It is pronounced the finest of all watermelons for home use and nearby markets. The color of the seed is grainy brown, the flesh a clear brilliant red, is very crisp, sugary, melting and devoid of all stringiness, the rind hard and thin. Another valuable feature is the good eating condition longer than any sort we know of. It will hold its own in the watermelon patch for years to come, and will always command fancy prices. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c., 5 lbs. $3.50.
Moore Seed Co.'s Onion Seed is Unequaled in Quality

Moore's Philadelphia-Grown Onion Seed is acknowledged by all who have ever grown it to be superior to that obtained from any other source in both strong vitality and purity. No one can appreciate the value of reliable seeds better than those who have been once disappointed, and too much care cannot be exercised in selecting your supply. There is no vegetable where the quality of the seeds exerts a greater influence upon the crops than onions. Our stock is all grown from choice bulbs, selected carefully by hand, and is unequaled in this country.

AMERICAN GROWN PRIZETAKER

THE KING of all YELLOW GLOBE ONIONS

PRIZE-TAKER

New Zittau Extra Early White. The earliest large onion on earth. This is the biggest early onion money-maker ever offered by any. Grow it direct from the seed and you will have bigger and better onions than you may grow from sets and at equalized the cost of sets and one-half less labor. Big statements these, but every word the truth. 1,000 bushels per acre can easily be grown from seed of this variety, and in this latitude they can be had on the market by June 15th, when prices range from $1.00 to $2.00 per bushel for new onions. It is unquestionably the largest, handsomest, finest flavored, best shaped, finest keeping, most superior early onion ever introduced, and is an onion that will sell on its merits in any market. Pkt. 10c., oz. 25c., ½ lb. 50c., lb. $1.40.

White Barletta. Excellent picking variety; very early, small, pure white and of mild flavor. Very profitable for the local market gardener. Pkt. 10c., oz. 15c., ½ lb. 40c., lb. $1.40.

White Silver Skin. (Philadelphia Grown.) It is from this variety that the famous white sets are grown. Pkt. 10c., oz. 25c., ½ lb. 60c., lb. $3.00.

AUSTRALIAN BROWN. Very solid and of good quality. Oz. 20c., ½ lb. 30c., lb. $1.60.

Large buyers will be quoted special prices upon stating quantity wanted.
GOOD ONION SEED is of the utmost importance. Fully realizing this, we make a Specialty of the BEST Onion Seed.

A dollar saved on the purchase of the seed is likely to be lost many times over when the bulbs are harvested. The first cost of the seed is a small item compared with the expense involved in the proper preparation, fertilizing, and cultivation of the soil. It costs as much as to raise a crop of inferior bulbs from poor seed as to produce a crop of fine evenly ripened bulbs from a selected strain of seed. Our Onion Seed is absolutely unsurpassed.

SPECIAL PRICES. On Onion Seed in any quantity over what is quoted here will be promptly given upon application. Our Onion Seed has been a leading specialty with us for years. Write us. It may pay you big. We supply large quantities of seed to many of the largest growers in the United States.

MOORE'S GIANT SILVER KING ONION—Universally Popular

A LEADING VARIETY IN ALL SECTIONS. PRODUCES ENORMOUS CROPS OF ENORMOUS ONIONS. ALL CLEAN, SOLID, HEAVY AND PERFECT. NO "THICK NECKS." SURE CHOPPER. LONG KEEPER. UNEQUALLED SHIPPER. (New Early.) This is an entirely new type of Silver King from that introduced several years ago in that it is much earlier, which gives it a decided advantage, especially for the market gardener. Large white onions can now be had only two weeks earlier than the old type. It is a large producer, in beautiful silvery white, with flesh of a particularly mild and pleasant flavor and so sweet that it can be eaten like an apple. No other white onion attains such a mammoth size nor uniformly so large. It is adapted to a wide range of country. The popularity of this onion increases rapidly from year to year with onion growers everywhere. All who have it unani- msly declare that it deserves every word of praise that is bestowed upon it by its enthusiastic admirers among farmers, truckers and especially those who eat it. As to the wonderful size, early maturity and fine eating qualities of this famous onion we cannot speak too highly. Every one desirous of having the largest, handsomest and most profitable onions of the finest flavor will be more than satisfied with our Early Giant Silver King.

CHOICE PHILADELPHIA-GROWN ONION SETS.

Philadelphia has long been famed, the country over, for growing the best onion sets, and we are prepared to furnish the choicest stock. Indeed, we include onion sets among our leading specialties, and spare no pains to produce them from thoroughbred seed and to keep them true to name. The peck and full measure unless weight is agreed upon. They will probably run as follows:

HARDY WHITE MULTIPLIERS. Qt. 30c., 4 qts. 75c., pk. $1.25, bu. $1.00.
SHALLOTS. Qt. 30c., pk. $1.50, bu. $4.00.
EXTRA EARLY RED. Qt. 30c., pk. $1.00, bu. $3.00.
EGYPTIAN OR PERNIAL TREE ONION. Qt. 30c., pk. $1.00, bu. $3.50.
NEW JERSEY WHITE SCALLION. Qt. 35c., pk. $1.15, bu. $3.75.
GARLIC. Lb. 30c., by mail 50c.

HARVESTED 203 BUSHELS.—I harvested 203 bushels from the pound of your Early Giant Silver King onion seed, the largest measured 10 inches around. They sold for 350 per 100 lbs.—U. H. H.桠. S. A. R.

SOLD BETTER.—I had no trouble disposing of my Early Giant Silver Kings. They sold better and for more money than either Crystal Wax or Globe Reds. Will double my crop of them another year. —Chas. P. Mitten, Beaumont, Texas.
GOOD ONION SEED is of the utmost importance.

Fully realizing this, we make a specialty of the Best Onion Seed. A dollar saved on the purchase of the seed is likely to be lost many times over when the bulbs are harvested. The first cost of the seed is a small item compared with the expense involved in the proper preparation, fertilizing and cultivation of the soil. It costs as much to raise a crop of inferior bulbs from poor seed as to produce a crop of fine evenly ripened bulbs from a selected strain of seed.

SOUTHPOR T GLOBE VARIETIES

CONNECTICUT GROWN SEED. All superior stock. Good keeping qualities. Perfect shape. Large, heavy, solid and of uniform size.

SOUTHPOR T WHITE GLOBE. Pkt. 10c, oz. 30c, 1/4 lb. 75c, lb. $1.25. 10 lbs. $25.00.

SOUTHPOR T RED GLOBE. Pkt. 10c, oz. 30c, 1/4 lb. 40c, lb. $1.25, 10 lbs. $11.00.

SOUTHPOR T YELLOW GLOBE. Pkt. 10c, oz. 30c, 1/4 lb. 40c, lb. $1.25, 10 lbs. $11.00.

JAMES’ LONG-KEEPING YELLOW. A thick, flat onion, best of keepers, makes beautiful shaped sets. Pkt. 10c, oz. 30c, 1/4 lb. 60c, lb. $2.00, 10 lbs. $19.00.

MOORE & SIMON’S PHILADELPHIA GROWN YELLOW GLOBE DANDERS ONIONS—FOR SETS. Very carefully grown and selected for producing sets of the proper shape, size and color and producing onions of equally fine quality. The sets grown from this strain of seed will keep in good condition during the winter and spring longer than those from seeds grown in any other locality. Pkt. 10c, oz. 30c, 1/4 lb. 50c, lb. $1.75.

LARGE RED WETHERSFIELD. There is no better strain of this important variety in cultivation than ours. Pkt. 10c, oz. 20c, 1/4 lb. 40c, lb. $1.25, 10 lbs. $11.00.

PHILADELPHIA EARLY WHITE BUNCH ONION. The bulbs are of attractive form, flattened but thick through and of a beautiful silvery white; the flesh is very white and so sweet and tender that they can be eaten raw like an apple. For bunching in the green state they cannot be surpassed. Very productive. Pkt. 10c, oz. 30c, 1/4 lb. 50c, lb. $1.75.

EXTRA SELECTED OHIO YELLOW GLOBE. Our own Ohio grown seed. Pkt. 10c, oz. 25c, 1/4 lb. 45c, lb. $1.25.

PHILADELPHIA YELLOW GLOBE DANDERS. Selected stock, very productive. Pkt. 10c, oz. 20c, 1/4 lb. 60c, lb. $1.50.

ROUND YELLOW DANVERS. A leading market variety. Pkt. 10c, oz. 30c, 1/4 lb. 35c, lb. $1.00.

PHILADELPHIA YELLOW STRASBURG, OR DUTCH. Bulbs quite flat, of a good size; skin rich yellow, turning to brown when exposed. Ripens early, flesh white, and of white mild flavor; keeps well. It is one of the very best to grow for sets. Pkt. 5c, oz. 20c, 1/4 lb. 40c, lb. $1.25, 50 and 100 lbs. lots will be quoted upon application.

BERMUDA ONION SEED

White Bermuda Onion. This is the standard variety for market crops for shipping. It is known as “White Bermuda.” It is really a light straw color or pale yellow. Large pikt. 10c, 1/2 oz. 15c, oz. 25c, 1/4 lb. 75c, lb. $3.00.

Crystal Wax Bermuda. It is much the same as above, only slightly larger and of better flavor. Small, but large enough to make handsome sets. It sells above all other varieties and brings a higher price, where that is known. Pkt. 10c, oz. 25c, 1/4 lb. 75c, lb. $3.00, 5 lbs. $9.50.

Red Bermuda Onion. It is identical in size, shape and mildness with our White Bermuda. The color is a pale, waxy red. Pkt. 10c, oz. 20c, 1/4 lb. 60c, lb. $1.75.

Louisiana Creole. It is of good size and of mild flavor. Color red. It is by far the best shipping onion grown in the Southern States. The yield is enormous. Pkt. 10c, oz. 20c, 1/4 lb. 75c, 1/2 lb. $1.50, lb. $2.00.

Welsh or Winter. Sow in September or October. Will make beautiful large yellow, globe-shaped onions early the following spring. Oz. 20c, 1/4 lb. 60c, lb. $2.00.
MUSHROOM SPAWN
ENGLISH MILLTRACK. Per brick 15¢, (by mail 25¢), doz. $1.40, 25 lbs. $17.50, 100 lbs. $65.00, 1,000 lbs. $600.00, 250 lbs. at 1,000 lb. rates.
AMERICAN PURE CULTURE SPAWN. Per brick 30¢, (by mail 50¢), 3 bricks 90¢, 10 bricks $1.50, 25 bricks $3.50, 50 bricks $6.50.
Mushroom Circular Free on application.

PARIS MARKET PARSLEY
Paris Market or Giant Curled Parsley. Our Paris Market Parsley is much superior to all other curled varieties. In color it is a beautiful brilliant green, leaf fronds large, delicately cut and handsomely curved. The plant is half dwarf, hardy, a heavy yielder, being greatly improved by frequent cutting. It is by far the most profitable sort for market and is adapted to all soils, and the best sort for long-distance shipping. Best for forcing under glass and growing in cold frames. Every parsley grower should plant it. It sells for fancy prices. Pkt. 5¢, oz. 10c., 1/2 lb. 25c., 1 lb. $1.00.

CHAMPION DUTCH ERFURT. Extra curled, dark green and free grower, which we highly recommend for a summer crop, owing to the fact that it will not turn yellow. This is the only true “hot weather or summer green.” Pkt. 5¢, oz. 10c., 1/2 lb. 25c., 1 lb. $1.00.

SHEEP FERN LEAVED. New, early, dark green, robust grower. Fine for summer variety. Delicious edible roots. Pkt. 5¢, oz. 10c., 1/2 lb. 25c., 1 lb. $1.00.

HAMBURG. Rooted. Long smooth roots, leaves plain. Oz. 10c., 1/2 lb. 25c., 1 lb. $1.00.

EMERALD, or DWARF EXTRA CURLED. Double, very fine stock. Oz. 10c., 1/2 lb. 50c., 1 lb. $1.50.

EXTRA DOUBLE CURLED. Dark green well curled leaves. Oz. 10c., 1/2 lb. 50c., 1 lb. $1.00.

MUSTARD
MONGOLIAN CUT LEAVED. The most decorative, productive and best flavored of all. No other sort half so good. Pkt. 5¢, oz. 10c., 1/2 lb. 35c., lb. $1.00.

SOUTHERN GIANT CURLED. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 45c.

CHINESE (True). Oz. 10c., 1/2 lb. 30c., lb. 60c.

PARSLEY
New White Maltese. This strain is the result of years of careful selection by a noted parsley specialist. It embodies all the points of excellence desirable to a market gardener in smoothness, earliness, shape, tufted growth, extra sweet rich flavor, beautiful white color, and is not too long or too short. It does not crack open and is entirely free from any common looseness so common in other varieties and will usually bring from 55 to 100 per cent. higher prices. If you grow parsnips be sure and get this seed from us. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 50c., 1 lb. 75c., 5 lbs. or over 50 lbs. 100.

Ideal Hollow Crown. Medium length, thick, smooth, hollow crown, fine grained, sweet and pretty appearance. Oz. 10c., 1/2 lb. 30c., 1 lb. 50c., 5 lbs. and over 40c. per lb.

SUTTON’S STUDENT, or LONG SMOOTH. Heavy yielder. Oz. 10c., 1/2 lb. 30c., lb. 50c.

OKRA
Holt’s Prolific Dwarf. This is undoubtedly the best and most profitable variety for the market gardener or shipper to grow. Pods are well shaped, of proper size and entirely stringless. It is the earliest and most prolific of all. The best for light land. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 60c.

PERKINS’ LONG PODDED. Good quality. Oz. 10c., 1/2 lb. 35c., lb. 50c.

DWARF PROLIFIC. 1/2 lb. 15c., lb. 35c.

KLECKLEY’S WHITE LADY PINGER. Much superior to the old White Velvet. Very tender white pods. Pkt. 5c., oz. 10c., 1/2 lb. 25c., lb. 50c.

“Your Tomato seeds are the best in the world.”—O. H. KING, HAZELGROVE, MRS.

NEW PEPPERS
Myers’ New Early Ruby King
This is a big and valuable improvement in the old type of Ruby King. From plants set out May 15th the first large peppers for market were picked for market June 21st. Plant a vigorous grower and are completely laden with large handsome fruits five inches long, which are of a brilliant red color, very meaty, sweet and mild. They are highly prized and keep in prime condition a long time, and bear abundantly unseasoned by frost. It fills a long felt want for the commercial grower. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $2.00.

HOT SICILIAN
Texas Shipper. (New.) A remarkably thick-dished variety, also a remarkably good bearer. It is not uncommon for a plant to carry from 30 to 50 marketable fruits at one time. Fruits measure about 6 inches long by 1/2 inches across the shoulder, and taper nicely to a blunt point. The flesh is twice as thick as Moore’s Prize-taker, and much firmer. The very thick flesh and peculiar shape makes it the best long distance shipper ever introduced. It will keep in prime condition twice as long as any other. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $2.00.

Hot Sicilian. (New.) Our illustration is only one half the actual size of the fruit, which is borne in wonderful profusion and very hot in both the green and ripe state. There is a great demand for this type of pepper on every market, and we most earnestly hope every one of our market garden friends will give it a trial. Pkt. 10c., oz. 30c., 1/2 lb. 85c., lb. $2.00.

NEW TOMATO PEPPER
There is a great demand for this variety in all large cities, such as Philadelphia, New York, Boston, etc. An enormous yielder, of mild and delicate flavor. Be sure to plant it if you raise peppers for profit. Pkt. 10c., oz. 30c., 1/2 lb. 1.00, lb. 3.00.
BEST PEPPERS FOR MARKET

READ. For many years we have made a close study of Pepper growing for market, with a view of producing the best varieties for the purpose, and our customers will find the varieties we illustrate herewith embrace all that will be found desirable and profitable.

A GRAND PEPPER

Moore's Mammoth Prizetaker

MOORE'S SOUTHERN

is the greatest large pepper on earth. Thousands of gardeners have found it ahead of any other large variety they have ever tried. If you have not grown it you ought to do so, you need it. Sixteen large specimens fill a half bushel basket. It was discovered growing in a patch of Chinese Giant we were saving for seed in 1896, and at once recognized its many good qualities. We, as well as many hundreds of pepper growers who have grown it, pronounce it in every way superior to the Chinese Giant and the invaluable acquisition to our list of peppers. It is larger, more symmetrical, earlier, and a better yilder than the Chinese Giant. 21 baskets per acre was its record for 1902, and 41 for 1903. 14 size it longer from stem to blossom end than the Chinese Giant, delicious in flavor, and fully 50 per cent. more productive. Never before has there been a variety that produced uniformly such large fruits. Our illustration is taken direct from a photograph, and is an exact representation as to shape. The fruits are of bright red, averaging 4 inches broad by 3 1/2 to 6 inches long. Moreover, the fruit sells better than any other large sort, which makes it extremely valuable to the market gardener. Flesh thick and very mild, being entirely free from any fiery flavor. The yield is simply prodigious. We especially recommend it to all our customers who grow for market, for it sells readily at good prices. Pkt. 10c., oz. 32c., oz. 60c., 1/2 lb. $1.50, lb. $5.00.

Pedrick's New Early Prolific.
The Most Productive PEP.

PER in Cultivation. Like our Moore's Mammoth Prizetaker Pepper introduced by us in 1896, it has come to stay. It is earlier than the Chinese Giant or Ruby King or Neapolitan, and notwithstanding its earliness it will continue to yield fine large peppers, which are longer and narrower than Ruby King, up until frost. Mr. Pedrick had one plant that yielded 327 fully-sized fruits during the season. The fruits should be removed from the plants as fast as fully grown. The size and yield will thus be fully maintained throughout season. The flesh is slightly pungent, and a glossy, bright red when ripe, and being first market sure the highest price. Pkt. 10c., 3 for 25c., oz. 35c., 1/4 lb. $1.00, lb. $3.50.

Moore's Southern Shipper. This is a highly valuable New Pepper, carefully bred and selected to meet the requirements of growers who ship their peppers in crates or small packages. It is long and narrow, which is approximately shown in our illustration, enables it to be shipped to advantage in six and eight basket carriers on any other variety hitherto produced. It has become a great favorite with commission houses, dealers and consumers. Owing to these conditions it finds a more ready sale, and at higher prices than either the Ruby King, Neapolitan, Sweet Bull Nose or Chinese Giant. It does pre-eminent as a shipping sort and is also desirable for the home market. It is a money-maker for the grower, and we highly recommend it to all who grow peppers for profit. Single plants carry from 40 to 50 marketable fruits at time. They are mild, carry well and keep in prime condition a very long time. It develops quickly, a long continuous yielder and of great value to the market grower. Pkt. 10c., 3 for 25c., oz. 40c., 2 oz. 70c., 1/2 lb. $1.35, lb. $4.50.

Italian Early Red. This valuable new variety is the earliest type of Bull Nose in cultivation. It is valuable alike for the amateur and market gardener. In size it is about the same as the old Sweet Bell or Bull Nose. It is wonderfully productive. The plant is a perfect mass of peppers which are of a beautiful glossy red. It is a highly profitable sort for the market gardener, either as an ornament or for the northern or southern shipper. The peppers are in great demand at the very high prices. Wherever known, flesh is extremely mild and sweet as an apple and continues to bear freely up until frost. While young the fruits are of a beautiful emerald green and carry long distances perfectly. It is the pepper for you to plant if you wish to make money. Pkt. 10c., 3 pkts. 25c., oz. 30c., 1/2 lb. 85c., lb. $3.00.

RUBY KING. (Moore's Selected.) Beautiful red pods, 8 to 6 inches long, averaging 3 inches in diameter. Flesh sweet and mild. Pkt. 5c., oz. 25c., 1/2 lb. 60c., lb. $2.00.

CHINESE GIANT. Producing monstrous fruits from 12 to 16 inches in circumference. Flesh thick, tender, mild, sweet and brilliant glossy scarlet. Pkt. 10c., 1/2 oz. 25c., oz. 45c., 1/2 lb. $1.50, lb. $4.00.

NEapolitan EArly. Oz. 30c., 1/2 lb. 85c., lb. $3.00.

New Cardinal Potherb. This is the best sort for baking with potherbs; color a rich, glossy cardinal red. Strong and pungent. It is most productive pepper we ever saw. Pkt. 10c., 1/2 oz. 20c., oz. 35c., 1/2 lb. $1.00.

BIRD'S EYE. Miniature hot peppers. Pkt. 10c., oz. 30c.

GOLDEN QUEEN or DAWN. Pkt. 5c., oz. 25c., 1/2 lb. 75c., lb. $3.50.

RED CLUSTER. Pkt. 10c., oz. 25c., 1/2 lb. 35c., lb. $2.50.

SWEET BELL or BULL NOSE. Pkt. 5c., oz. 25c., 1/2 lb. 60c., lb. $3.00.

ITALIAN EArLY RED.
Moore's Famous Market Peas

McLEAN'S FIRST OF ALL. This delicious variety originated in England and is the earliest Pea ever produced. It is strictly speaking, an early extra sort, and will mature ahead of the Gradus, Thomas Laxton, Morning Star, Lightning Extra Early, Royal Early or Scott's Excelor. It is wonderfully productive a single plant has been known to produce 400 large size pods. It requires no brush supports in the field, and will produce better on light land than any other early sort. The pods are large and well filled with large beautiful dark green peas of delicious quality. It is remarkably hardy and should be the first to be planted, and you will have the first peas on market and get the biggest price. Our crop this year being large we can offer the seed to our customers at a very low price. It is remarkably uniform on to free from spots of any kind. Pkt. 10c., Qt. 20c., Q. 30c., 4 qts. $1.00, pk. $1.35, bu. $7.50.

MOROE'S LIGHTNING EXTRA EARLY. The earliest and most productive of all extra early white seeded peas. Are planted annually by over 40,000 market gardeners throughout the United States. They will be found of equal value for late summer or autumn sowing, or where a pea crop is required to come off in the shortest possible time. The entire crop can be gathered in one picking. This valuable sort is so hardy that it can be planted shortly after the frost is out of the ground. Under favorable conditions peas can be picked twenty-nine days from sowing the seed. The yield of these peas is simply wonderful. Pkt. 10c., Qt. 35c., 3/4 lb. $1.15, pk. $2.00, bu. $7.50.

THOS. LAXTON. Thos. Laxton is even sweeter and finer in flavor, while the large peas are of a deeper green they present a more attractive appearance on the table. The crop begins only three to four days after Gradus. Pkt. 10c., Qt. 35c., 4 qts. $1.00, pk. $3.00, bu. $11.00.

McLEAN'S ADVANCE. Second early; vines of strong growth, about two and a half feet high. Very productive of long broad pods, well filled with green wrinkled peas. Q. 30c., 4 qts. $1.30, pk. $2.00, bu. $7.50.

NEW PEA—PRIZE TAKER. A fine new English sort, having in quality and productivity, whatever exhibited; hence its name,  "Prizetaker." Plants 1/2 1/2 feet high, of a branching habit and vigorous growth; pods long, round and well filled with large peas of very sweet and juicy quality; pods are produced in pairs, usually from sixty to eighty fine pods to a plant. Can be planted fully as early as our May Queen. Matures in about forty days. Its immense productivity and fine quality make it an excellent sort for main crop for the family garden and market gardener. This grand new pea is almost a continuous yielder, three full crops are always yielded by it; plants frequently yield 200 pods, and we have no hesitation in pronouncing it the most prolific and finest quality pea ever introduced among second early varieties. Once planted always planted. Pkt. 10c., Qt. 20c., Q. 30c., $1.75, bu. $6.50.

EXTRA EARLY GRADUS, also called "Prosperity" Pea. Our strain will be found much superior to that usually sold by other seedmen. Maturing only a few days later than the small podded round seeded extra early; grows about three feet high. It produces uniformly large pods, measuring from four to four and a half inches in length, nearly round, and well filled with very large, handsome peas of the finest flavor. Much superior to the Thos. Laxton in quality. The pea remains tender and sweet for some time after they are large enough to use. Pkt. 10c., Qt. 35c., 4 qts. $1.60, pk. $3.00, bu. $11.00.

ALASKA. Early and prolific. Qt. 30c., Q. $1.25, bu. $6.00.

LONG ISLAND MAMMOTH. Pt. 20c., Qt. 30c., 4 qts. $1.00, pk. $1.50, bu. $7.00.

READ WHAT THEY SAY:

BEING BUYING 20 YEARS.—"I have been buying my early peas from you for the past 20 years and never missed having the earliest and best paying crop of peas in the county. I can also say the same of your tomatoes, nothing to equal them." —DAVID MYERS, OLPHIN, N. J.

GETS BETTER PRICES.—"I have tried about every pea to be had, but I always get better prices for your choice sorts than the common ones I get at my country store. I find it pays well to buy your choice varieties." —SALOME LOY, MARKET GARDENER, ENGLEHEER, N. J.

FINEST IN EXISTENCE.—"Your new dwarf pea, May Queen, is certainly the finest pea in existence. I do not believe there is another pea that can compare with it for earliness, size and flavor. I made the first planting on 30th, and on June 25, I picked the first peas, and they were the sweetest, tenderest and most delicious peas that we ever tasted. They are all and more than you claim for them." —LEWIS L. LEWIS, PHILADELPHIA, PA.

McLean's First of All Peas was the earliest of all extra peas in this last year. I planted a variety and it was 4 days ahead of all the rest, I realized $25.00 from 2 acres."—FRANK SMITH, PENSAKRE, N. J.

Your Filbasket Pea is the finest we ever planted. We have planted it on heavy soil without manure and on light soil with manure. Growth always 4 to 4 feet high with 24 to 26 pods to a vine, averaging 8 to 12 peas to a pod; as large as hazel nuts to a pod—quality grand. They attract great attention from all who see them and they averaged me 50 cents more per banner than Telephone or Thomas Laxton." —G. C. STOCKHAM, PASAITE, N. J.

IS WORTH $25.00 PER POUND.—"Your Carter's Golden Rata-"

JUST COINED MONEY.—"Every grower here uses your Tomato seed, they say they never get ahead of any other seed here. Your Moore's Kings of the Early and Royal Early Pea. Just coined us money last year."—ADAM G. BUTLER, HUMBOLT, TENN.
MOORE'S HOME GARDEN PEA. If you want a long podded, extremely early, wrinkled dwarf pea, of the finest quality and productive power, and grows in less than 1½ months, that proves itself with large pods of deliciously rich and tenderly flavored peas, then try Moore's New Home Garden, the prince of all early dwarf peas. This is a grand new blue dwarf wrinkled pea. It literally fills itself with large pods, ripening evenly and smoothly. It is very early, ripening in 64 days. 1,000 bushes.—Now, that's a great many, but our market gardeners and private planters require more than that of Moore's New Home Garden Pea Seed every year. They say there is no other pea just like it, hence its great demand. It's early, too, and of delicious quality. The distinct merits of this pea over any other variety are its extreme earliness, combined with its abundant production of fine peas of delicious flavor. Its strong points are its delicious richness of flavor, its extreme earliness, its dwarf habit, needing no brushing, and its large-sized pod. One of its distinctive features is its unusually regular habit of growth. It is of uniform height, so smooth and level in its growth that a row resembles a well-kept hedge. Its also a magnificent variety for market gardeners to grow; as the pods are large, it fills up a bushel quickly and brings a very fine price in the market. Pkt. 10c., qt. 25c., pt. $1.00; pk. 3 qts. $1.50; bu. $9.50.

MOORE'S ROYAL EARLY. This popular new large-podded early pea of finest quality matures pods only two or three days later than the small-podded early early; will produce one cent. larger crop, much better in flavor, and will be a pleasing revelation to all who plant it. It is the result of much careful, expert work, of selection and reselection. Grows about thirty inches high. It produces uniformly large pods, measuring from four to four and a half inches in length, nearly round, and well filled with very large, handsome, beautiful green peas of fine flavor. The pea remains tender and sweet for some time after they are large enough to use. The illustration herewith was engraved from a photograph, being exactly natural in size. It is wonderfully prolific. No pea grower for home garden or market should be without it. It is a money maker for all who plant it for first early, second early, or fall crop. Pkt. 10c., qt. 25c., pt. 50c., 3 qts. 60c., ½ pk. $1.10; pk. 3 qts. $2.25, bu. $8.50.

MOORE'S NEW PEA, MAY QUEEN. It is the most delicious dwarf English pea in the world for the cottage garden and unsurpassed as a fine market sort. This grand new English dwarf wrinkled pea is one of the very best peas we have ever grown. It is extremely early, growing 17 inches and literally fills itself with large pods, all ripening evenly and of excellent flavor. It is very early—earlier than American Wonder—rushing in forty-six days. When once tried, no other dwarf will be grown. No words of praise are too extravagant for this wonderful dwarf pea novelty. It is grand beyond description, of delicious flavor and heavy crupper. Its strong points are its delicious richness of flavor and dwarf habits. It is very hardy and flourishes everywhere. It is also a profitable variety for market gardeners, as the pods are large; it fills up a bushel quickly, and brings the highest price everywhere. Pkt. 10c., pt. 25c., qt. 50c., 3 qts. $1.40; pk. 3 qts. $2.75, bu. $10.00.

Mammoth Melting Sugar

The vines grow four to five feet in height. Very productive of enormous quantities; matures from five to six inches in length and one and a half inches in diameter; thick, plump, smooth, and glossy like string beans and served with butter since they have a sucrose flavor. Pkt. 10c., pt. 25c., qt. 40c.

HAD GREAT SUCCESS.—"I always had great success with your peas. I planted thirty bushels of your peas last year in five separate varieties and realized handsomely from my investment."—HERBERT P. CLARKE, PE-A OF THE WORLD, N.J.
We grow the Largest Assortment of DELICIOUS PEAsof any Seedsmen in America. You will get the World's Best if you buy from us.

**MOORE'S BOUNTIFUL PEA**

This is a grand new acquisition among second early peas. It gives us great pleasure to introduce this new English pea to our many customers. The illustration herewith shows the marvelous productivity of this wonderful new variety. The vines are of strong growth, three feet high, and are of a remarkably branching habit. It is a continuous or everlasting yielder; in this respect it closely resembles our famous Petreaker. The magnificent large green pods often contain as many as twelve peas, which are of the most delicious quality and possessing a delicate aroma, so highly appreciated by all Epicures and admirers of this, the "Queen of Vegetables." Our Bountiful pea is far superior to any of its class, and is destined to occupy the front rank with all who want excellence in flavor, the very same of tenderness and maximum of yield. Pkt. 10c., qt. 35c., pk. $1.25, bu. $6.50.

**A GREAT SUCCESS**

Your new May Queen is a great success for quality and yield; in fact all your seeds do remarkably well with us. Frank Fleming, Gardener to Capt. H. C. Fleming, Somer’s Point.

**MOORE'S DAISY**

This is truly a gem for the family garden; unsurpassed for quality or productivity, ten to twelve inches high, the sweetest of the sort known. The vine is heavily covered with extra fine plumy pods, containing from seven to nine green peas of superior flavor. Pkt. 10c., qt. 35c., pk. $1.25, bu. $6.50.

**NEW GIANT PODDED MARROW**

This new pea has given satisfaction to all who have planted it. It grows about two feet high, and bears handsome pods filled with large, deep green peas. Pkt. 10c., qt. 35c., pk $1.00, bu. $5.00.

**NEW EARLY SUGAR MARROWFAT PEA**

New Early Sugar Marrowfat Pea

In our annual trials of peas, numbering many hundreds of rows, this variety was conspicuous among them all for its astonishing profusion of pods, which are large and handsome and bountifully filled with dark green tender peas of the true delicious marrowfat flavor. In England, where we obtained our stock seed, it is extensively grown by the nobility, who prize the Sugar Marrowfat above all others of its class. It is the earliest of all marrows and will satisfy the most exacting who strive for the best quality. We recommend it to all who plant for home use or market; one of our best introductions. Height, two feet. Maturing about one week after our Lightning Extra Early. Pkt. 10c., qt. 35c., 4 qts. $1.15, pk. $2.00, bu. $6.50.

**NOTTS EXCELSIOR**

An extra early, dwarf, wrinkled pea. Pods one-third longer than American Wonder. Pkt. 10c., qt. 35c., pk. $1.25, bu. $6.50.

**MOORE'S FILLBASKET**

Introduced by us in 1890, this grand new Pea has been very much admired. The illustration herewith shows a pod engraved exactly natural size. The vines are of strong, sturdy growth, 1½ to 2 feet high, and of a decidedly branching character and bear an enormous crop of magnificent large dark-green pods, each containing eight to twelve peas, of remarkable size and very rich and sugary flavor. It has been appropriately termed the "Fillbasket," on account of the extraordinary quantity of large pods that it produces. We have had many letters in praise of its great productivity, the extra large size of the pod, and the delicious quality of the peas. It is unquestionably the very best large podded Pea ever introduced. Pkt. 10c., qt. 35c., qt. 35c., ½ pk. $1.25, pk. $2.00, bu. $7.50.

Large buyers of Peas will please write us for special prices, stating quantity wanted.
Grown for seed in the far North. 20 to 25 bushels to the acre. 1 peck will plant about 325 hills. **Michigan Grown Seed Potatoes.**

Our seed potatoes have been carefully grown, especially for seed, on light, sandy loam, entirely free from all disease, in the extreme north of the State of Michigan, and will give the best possible results to all who plant to.

---

**Potatoes by mail.** The price of all varieties is 30c. per lb. or 3 lbs. for 75c., correctly labeled, and sent, postpaid, to any address in the United States.

**FILLBASKET EXTRA EARLY** Originated by crossing our famous Snowball and Quick Crop. The Fillbasket Potato soon proved itself to be a very popular and profitable sort for home use and shipping and has forced its way among our largest producers. Those who grow it for market find it to be twice as profitable as Early Rose, Hebron, Triumph or Early Ohio. It always commands a higher price than other sorts and besides it is an enormous cropper, as our photo illustration shows. It is, as its name would suggest, a remarkably quick grower, of the most approved shape—viz., a very smooth, full tuber, with no slim points nor projections to waste in preparing for the table, or waste in handling. Sufficiently elongated to make a good baker, it is not too much so to serve well boiled, and it is an ideal general purpose potato. In color, it somewhat resembles the Prince Edward Island Rose. When cooked, the flesh is pure white, dry and flaky. ½ lb. 50c., pk. 75c., ½ bu. $1.25, bu. $2.25, bbl. $4.50.

**NEW EXTRA EARLY POTATO.** The **Bone** A GREAT CROPPER.

It takes a leading place among the heavy cropping varieties, an unusual thing among first earlies. It is even earlier than Early Ohio, and compares favorably with Triumph. True stock. Pk. 60c., bu. $2.00, bbl. $4.25.

**QUICK CROP** VERY PROFITABLE FOR EARLY MARKET.

It is several days ahead of the Early Rose, and is a special favorite with farmers and marketers. Maturing early, brings highest prices, and the land can be used for other crops; does well on any soil suitable for potatoes. The tubers grow compact in the hill, are easily dug, very few small ones nearly every one marketable size; few eyes which are even with the surface. Skin a delicate pink color. They keep firm until late in the spring. Many of our Southern growers plant this variety almost exclusively for early shipment North. With heavy manuring, close planting and good culture, a very large and profitable yield can be expected; 300 to 500 bushels per acre is not an unusual yield. Pk. 75c., bu. $2.00, bbl. $4.50.

**SUTTON'S EARLY MONARCH (New)** Under ordinary cultivation, this variety has by actual test produced 463 bushels per acre.

This new early potato is now attracting wide attention. Its points of excellence, as claimed, are its earliness, wonderful productivity, vigor of growth, quality, smoothness and handsome shape and appearance. It receives its name from its originator, Mr. Sutton, a noted potato hybridizer. It is a pink or flesh colored potato, of the shape indicated by the illustration. The shape is very uniform. It matures from early to second early, and its table quality is white, dry and mealy. It is as perfect in shape as the Snowball, and probably about one week later. The introducer says that the Early Monarch takes a leading place among the heavy cropping varieties, an unusual thing among first earlies. Our own observations on Early Monarch are favorable, and we do not hesitate to commend it highly. As a variety for planting for second early or late crop, it is without an equal. The tops are comparatively short and stocky, and the tubers are all bunched together in the hill, and are of good size and quality. ½ pk. 40c., pk. 75c., ½ bu. $1.25, bu. $2.25, bbl. $4.25.

---

**NEW VARIETY, Sutton's Early MONARCH**
Moore's Early Snowball Potato

This and Moore's Fillbasket are the two earliest potatoes in cultivation

Moore's Snowball can always be marketed at least ten days before the top dies, as the new potatoes commence to grow before the tops are six inches high. Another great merit lies in its great keeping properties, remaining solidly fresh until the new crop is dug, and will often remain in the cellar without sprouting until June 1st. Pints of "new potatoes" of a fit size for table use can be dug in six weeks from the time of planting if weather for growing has been favorable, and the tops thoroughly ripened in from eight to nine weeks, with crop fully matured.

Moore's Early Snowball was produced from a seed ball taken from a vine of the Snowflake, growing between Early Rose and Early Ohio. Tubers are oblong, skin a beautiful pink color, flesh white; upright, strong vines, with tubers growing compactly in the hill. We have never tested a kind which possessed the desirable points of an extra early, large yielding, high quality potato like the Moore's Early Snowball. Our grower informed us early last season, when all early crops were but half grown, that Moore's Early Snowball and Fullbasket had set much more wood and that the tubers were double the size of any extra early varieties he had planted, and adds, "We should save seed for a larger planting next year." 1 lb. 30c., 3 lbs., 75c. by mail postpaid; pk. 70c., ½ bu. $1.25, bu. $2.20, bbl. $4.75, 2 bbls. $9.00, 5 bbls. $22.00.

Moore's New Early Bonanza Potato

The great drought resister. We mean just what we say about it being a great drought resister. It stands hot, dry weather better than any other sort. We have seen Early Rose, Hebrons, Irish Cobbler, Green Mountains, Ohio's, etc., cease growth entirely and fail to produce even 10 per cent. of a crop in dry seasons, while Moore's Early Bonanza stands up green and vigorous and produced a tremendous crop of delicious potatoes. Thousands of market gardeners will bear us out in this statement. In growth the vine is dense and robust, but compact. This is favorable to close planting. It is also a magnificent main crop potato. There are many people who plant but one variety. To such we would not hesitate to recommend Moore's Early Bonanza, on account of its being a splendid potato when early, a splendid potato when used in the summer or fall or winter. It is a perfect keeper—none better. There are rarely any small potatoes in a hill. Many of our customers say it is way ahead of any other sort as an all round potato for early or late. It seems to be disease proof; neither scab nor blight has attacked it. A good thing, did you say? We should say so, my friend. It is here to stay, and we believe you are like us, in that you know a good thing when you see it and that you will plant it, and plant lots of it, too. Just one more word—no, you. If you pay you big to plant it, be it a peck or a hundred bushels.

Moore's New Early Bonanza Potato

Extremely prolific and fully a week earlier than the Early Rose. Color a beautiful white, and very mealy when cooked; size, medium to large. Growth very smooth and uniform. The shape is very well shown in our picture. This potato is in exceedingly high favor with market gardeners everywhere, and especially in the South. It makes a handsome early potato for either barrel or basket. Its beauty, good quality, extreme earliness and great productiveness make it highly profitable, no matter where grown. It is equally desirable for the home garden, where good quality is always appreciated. In point of maturity it follows our Early Fullbasket and Snowball.

We sell it by mail, postpaid:
1 lb. 35c., 3 lbs., $1.00.
By express or freight:
Pk. 75c., ½ bu. $1.20,
bu. $2.25, bbl. $4.50,
2 bbls. $8.50,
5 bbls. $21.00.

Moore's New Early Bonanza Potato

THE GREAT DROUGHT RESISTER

YIELDS 575 BUS. PER ACRE.

The Great Money Maker...
New White Rose

This new potato is no experiment: we have watched it for five seasons, and pronounce it the best long white potato we have ever known. It has always been put on the market the day before the first sign of blight, and in point of yield is ahead of all other long white sorts. This potato is a cross between the Early Rose and White Rose, is medium early and productive, and is both hardy and blight-proof. It will yield 200 to 400 bushels per acre on any good land.

New Morning Star

This handsome new variety is the finest in quality of all the long shaped early potatoes, as well as the very earliest variety combining large size. We have tested it several seasons and find it earlier than the Houson or J. E. Island Rose, fully as large and vastly more productive. The color is a very light pink. Its exceedingly fine table and cooking qualities makes it a great favorite with all, housekeeper and grower, as well. We have several records of yields exceeding 500 bushels per acre. The tops die down quickly, so that they can be prepared early for the second crop; consequently of great value to market gardeners. We know all our customers who plant this variety will be pleased with it and we have no doubt the favorable feature is, it is adapted to all kinds of land. Please order early.Pk. 75c., ½ lb. $1.25, bu. $3.00, bbl. of 165 lbs. $4.50. Special prices for large quantities will be quoted by letter.

New Early Harvest Potato

This exceedingly promising new potato was sent out for trial to some of our customers, under the name No. 7. The reports received were very flattering. The name, Early Harvest, is bestowed in honor of its originator, Clyde Somerset, a leading potato specialist of New York. It is handsome, medium early, highly prolific and very desirable in every respect. In character, Early Harvest potato has the same parentage as Empire State. It is somewhat on the order of the Beauty of Hebron, but is the same shape as the Quick Crop. Some of the blood of the M. & S. Early Snowball, it is thought, is the reason for its more nodular growth than the familiar variety. The eyes are large and prominent, and the tubers are uniform in size and shape. They are of average size, and the plant has a blight-proof quality. One of the best features of it is its excellent color, which is a light pink. It makes a very desirable, table and cooking variety. We are selling it this year, but it is not a patented variety and you can purchase it at any of our stores.

Hybridized Potato Seed

We offer a very fine strain of Potato Seed, the product of numerous hybridizations between some of the best new and old varieties in cultivation, to which we have added the best selections from prominent English, French and German potato growers. All new varieties are obtained from hybridized seed. We frequently purchase at good prices promising seedlings grown from seed purchased from us. Price, postpaid, pkt. 40c., oz. 60c., lb. $1.00. For directions for planting, cultivation, etc., on each packet.

Get Fancy Prices and Big Money for Early Truck

AUSTIN'S PATENT PLANT BED-PROTECTING CLOTH—SUBSTITUTE FOR GLASS—WILL AID YOU

This will be found an excellent substitute for glass (at one-tenth the cost) in protecting from frost all kinds of seeds and plants on which glass cases are used in early spring. The patent treatment given the cloth fills the threads and fibres and preserves them from decay, and, to some extent, sheds rainwater, and is great value to market gardeners and truck growers. We have supplied it to our customers in all sections of the country, and with hardy an almost universal adoption of its use. It can be used for protecting and forwarding all kinds of seeds and plants for which glass cases are used in early spring, etc. It will be found to be of great value to our customers, especially in the South, who grow cabbage, egg plants, lettuce, pepper, tomato and other plants that have to be transplanted. All our grades are of extra quality, one yard wide, and with proper care it will last for a number of seasons. If by mail add 5c. per yard.

Clyde’s Early Fortune

The shape is nearly round. The vines resist drought to a remarkable extent and the crop is matured before the hot dry summer sets in and is remarkably free from second growth. Planted with the Bovee the Eureka matured ten days earlier, and the vines were entirely dried up while those of Bovee made a second growth. It is a week earlier than Early Rose or Hebron, and is an excellent keeper for so early a potato. We have eaten tubers which were in good condition the spring following. The firm white flesh is of good flavor when cooked, but not equal to Sutton’s Early Monarch. The tubers are quite broad and of a shortened oblong form, thick through with few eyes. The skin is smooth and a snowy white. It is well adapted to all sections of the country and especially so on light soils. Per lb. 30c., 3 lbs. 75c., postpaid. By express or freight: Per pk. 65c., bu. $2.00, bbl. (165 lbs. net) $4.50.

Digging an 800 Acre Field of MOORE'S EARLY DIAMOND POTATOES

The best general cropper on light or heavy soils

ORDER EARLY.

Please send us your seed order as soon as you get this Catalogue so that you may have it for planting when you want it; besides, if you want heavy seeds at large quantities, they can be sent by freight very cheaply.

NEW BLOOD that is what we have in our EARLY DIAMOND—fresh and strong blood. Thousands of farmers are using seed that is so run out there is no profit in growing the crop. MOORE'S EARLY DIAMOND is fully capable of infusing new life and profit into the potato business. Price lb. 30c., 3 lbs. 75c., postpaid; pk. 70c., bbl. 50c., bu. $2.00, bbl. $4.25.

NEW JERSEY SEED SWEET POTATOES

New Jersey grown Sweet Potatoes are everywhere acknowledged to be the best in quality, being much dryer and sweeter than those grown in the South and West, while their keeping and shipping qualities are far ahead, and will always bring the highest market price. We make a specialty of seed sweet potatoes, growing our stock exclusively in New Jersey. We pack for shipment in boxes and barrels, with greatest care; but wish it distinctly understood that customers take ALL RISKS after we deliver in good condition to the express or railroad company here. We do not ship until about planting time unless special sets are ordered. 1,000 plants furnished at 1.00 rate.

EXTRA EARLY CAROLINA, JERSEY "UP-RIVERS," EARLY NANSEMOND and NEW EXTRA EARLY ACCOMAC. Each, per pk. 80c., bu. $2.35, bbl. $4.50. Plants of the above variety after May 1st; 60c. per 100, by mail, postpaid; by express, 35c. per 100, $2.50 per 1,000.

NEW OLD GOLDEN SWEET. It is better adapted for cultivation in the northern states than any other variety. Price, per pk. $1.00, bu. $2.75, bbl. $5.00. Price of plants, ready after May 1st, 75c. per 100, by mail, postpaid; 40c. per 100, $3.00 per 1,000 by express.

IMPROVED VINELAND BUSH SWEET POTATO

The Improved Vineland Bush Sweet Potato is shorter and more chunky in shape than the old variety. It originated on the farm of John Mathews on the extensive sweet potato grove of New Jersey, from the well-known Early Nansemond and old Vineland Sweet Potato. It is a perfect bush, with no inclination for spreading, resembling a bean bush very closely. They are most abundant bearers, good flavor, handsome rich yellow color and excellent keepers. Customers say: "They're a great improvement over all other sweet potatoes.

Plants of the Improved Vineland Bush Sweet Potato ready after May 1st: 50 for 60c., 100 for 1.00, by mail, postpaid, 75c. per 100, $1.00 per 1,000, by express. (500 plants at 1.000 rates.)

We will make special prices by letter for larger quantities—write us before you buy. We are headquarters.

KNISEL'S RED QUEEN. An excellent short or chunky variety with pretty red skins and deep yellow flesh, sweet and mealy. Very productive and good keeper. Generally regarded as the best eating sort of all. Plants ready after May 1st: 65c. per 100, by mail, postpaid; by express, 40c. per 100, $3.00 per 1,000. No tubers for sale.

Pumpkins are now largely cultivated for market purposes, and are found to be very profitable. They are usually planted in fields of corn or potatoes, but may be profitably raised in fields of themselves. They also make very profitable and healthy food for stock. We herewith illustrate some of the best market varieties.

**Large Cheese.** Of fine grain and excellent flavor. Pkt. 5c., oz. 10c., 1/2 lb. 30c., lb. 65c.

**Tennessee Sweet Potato.** Of medium size, pear-shaped, color creamy white, light, striped with green; flesh thick, creamy white, fine graded, dry, brittle and of excellent flavor. When cooked it has somewhat the appearance of sweet potatoes, but of more delicious taste. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 80c.

**Cashaw.** Long, yellow crookneck. Good keeper. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 60c.

**Japanese Pie Pumpkin.** The seed cavity is extremely small. The seeds are curiously sculptured in the manner of Chinese letters. It is a very productive variety, ripens early, of medium size, good keeper and weighs fifteen to twenty pounds. The flesh is a rich salmon color, unusually fine-grained, and when cooked or stewed is almost as dry and mealy as a sweet potato. Pkt. 5c., oz. 10c., 1/2 lb. 30c., lb. $1.00.

**Mammoth Golden Cashaw.** (New.) The flesh is a rich yellow color, solid, fine graded, very thick, sweet and excellent for pies, and equally good for baking. They are very hardy, bugs seldom bother them. Can be grown amongst the corn, and yield a much heavier crop than most other sorts. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 60c.

**Large Connecticut Yellow Field.** Easily grown alone or in the corn. Oz. 5c., 1/2 lb. 10c., lb. 20c., 10 lbs. $2.50.

**New Boston Golden Sugar.** Pumkins. They are round in shape and very slightly ribbed. The skin is of a rich golden-orange color. Very beautiful. Flesh of extra fine flavor, cool, soft and tender. It is a most excellent keeper. Enormously productive. Just the right size to see in basket. Makes excellent pies. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 75c.

**Mammoth Etampes Bright Red.** This giant variety, also from France, is quite celebrated and has been grown in this country to an enormous size. It is of a bright, glossy red color. A very showy variety to grow for exhibition purposes. Pkt. 5c., oz. 10c., 1/2 lb. 30c., lb. 90c.

**Yankee Cow Pumpkin.** This valuable pumpkin will be found a great boon to farmers with dairies, large or small. It greatly increases the flow of milk, besides imparting to it a rich yellow color, and really adds to the flavor of the butter of all cows fed upon it. Twelve tons of the yellow fodder are made from each ton of this pumpkin.

**Thanksgiving Pie Pumpkin.** On account of the extra thickness of the yield in pounds it is desirable that of other kinds. The flesh is orange in color, fine grained, sweet, and has the delicious pumpkin flavor essential to the making of first-class pumpkin pie. The name "Thanksgiving" was suggested by the almost universal custom of having pumpkin pie at the Thanksgiving dinner. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 70c.

**New Persian Golden Giant.** Produces truly gigantic, globe-shaped fruits. The skin is of a rich, fine salmon color, while the firm fine-grained flesh is highly colored, of a deep yellow, sweet flavored and very thick. The pumpkins attain an enormous size and will attract great attention when placed on exhibition. Pkt. 10c., oz. 15c., 1/2 lb. 45c., lb. $1.40.

**HOW TO GROW MAMMOTH PUMPKINS.** Plant in rich soil three to four seeds in a hill; make hills twelve to fifteen feet apart each way. When the plants have five fully cut out pumpkin to bear one of the finest pumpkins in each hill. As the vines develop and flower and small pumpkins come in turn, remove all but one of the best pumpkins on each vine. By doing this the full amount of each vine will go into one pumpkin and produce a large specimen.
The growing of fine types of radish seed for market gardeners is a leading specialty with us. It will pay you to get the best.

**Radish**

**MOORE'S QUICK SELLING**

The general verdict of radish growers is that it is the "quickest selling radish" they ever had; hence we named it "Quick Selling Radish." Our illustration shows its natural size and shape. The color is a very brilliant and attractive red, fresh, very crisp, and tender; usually matures in twenty-eight days from time of sowing. It is the most valuable new radish introduced for many years. The appearance is most striking to all, and it should be grown by every market gardener and amateur. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 75c. 5 lbs. $3.00.

**FRED. SIMON'S SOLID IVORY**

This is pronounced by many customers to be the only perfect round white for open ground. It is entirely distinct from any other white turnip variety. Its points of superiority are its remarkably short top and rapid growth, perfect globe turnip shape, and very small top root. It has extra fine quality and is without disappointment whatever it becomes pithy with age, remains solid and juicy long after fully grown. Owing to its very short leaves it can be grown very closely in the row without causing the leaves to "draw." Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 75c., 5 lbs. $3.40.

**MOORE'S SCARLET GEM**

This variety is indeed a perfect gem. It pleases all who plant it, and all who eat it. Very short top, very early and suitable for growing under sash or open ground. Color a beautiful rosy scarlet; flesh white, crisp and of excellent flavor. It will mature radishes in 28 days which never become pithy, and we highly recommend it. It is a choice radish grower. Don't fail to include it in your order. Pkt. 5c., oz. 10c., 1/4 lb. 35c., lb. 85c., 5 lbs. $1.00.

**WHITE ENGLISH SUMMER**

A very desirable radish for summer use, remaining solid and crisp after spring sets are over. Top of medium length. Much used in England. Very crisp and sweet. It is well adapted for storing at any season of the year. It is a quick grower, has a small top, can be planted closer than most white summer sorts—and it finds ready sale. Pkt. 5c., oz. 10c., 1/4 lb. 35c., lb. 60c., 5 lbs. $2.60.

**NEW PINK LADY FINGER**

They grow perfectly straight and smooth, and from four to five inches in length. Their attractive rosy pink colored skin is very thin, and the flesh crisp and brittle, and of delightfully mild pungent flavor; it has a clear, waxy, transparent appearance, top short, stands a long time before going to seed. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 65c., 5 lbs. $3.00.

**EARLY SCARLET GLOBE**

It is grown very small and is ideal for supplying the enormous demand in Philadelphia, New York, Boston, and other markets, where its brilliant color and attractive shape have secured it a prominent place. Our strain of this important variety looks better in the bunch and holds the color longer than any other. Our stock is not equalized by any other dealer, and is selected specially for the most critical trade, some gardeners buying as much as 600 pounds annually for forcing purposes. Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 60c. (25 lbs. and over at 10c. lb.)
IMPORTANT

All Our Radish Seeds are Grown from Transplanted Roots Only, which Insures
the Greatest Possible Perfection. Our Seed will therefore give
Much Better Satisfaction than that obtained elsewhere.

MOORE'S NEW SCARLET BALL.
This is a very distinct and
highly desirable new radish of
our own introduction and one
which we recommend to every grower of radishes. Shape perfectly spheri-
cal, color white inside and red
dark red, short, small and
leaved and a very attractive
crimson scarlet color; flesh
pearly white, solid and
deliciously crisp, mild and
tender. It attains about twice
the size of our celebrated Bright Red Forcing
Turnips. It positively will not grow below or
nearly, remains deliciously
crisp and juicy for weeks; a fine market variety for any season of
the year. Well adapted for sowing for early or warm borders or
open field culture. We most earnestly
urge every one of our customers to plant it. Pkt. 5c., oz. 15c., 1/2 lb. 10c.,
lb. $1.50.

IMPROVED WHITE LADY FINGER.
This is unquestionably the
finest long white radish for
sowing at any season of
the year. We found it growing in a field of our Quick Selling which we
had planted for seed. In color it is a beautiful white with a scarlet
tone of very rapid growth, and remarkably crisp, brittle and
tender; will stand longer going to seed than any other white sort equally desirable for
the home garden and as a market sort it will be found invaluable. Pkt.
5c., oz. 10c., 1/2 lb. 25c., lb. 50c., 5 lbs. $3.00.

FEITON'S SELECTED WHITE BOX. Very small top, early, solid, good
shape; fine for sash or open ground. Felton's own stock. Pkt. 5c., oz. 10c.,
1/2 lb. 35c., 1 lb. 65c., 10 lbs. $5.50.

IMPROVED WHITE STRASBURG. Our stock is much superior to that or-
dinarily sold. Pkt. 5c., oz. 10c., 1/2 lb. 20c., lb. 50c., 5 lbs. $2.25.

PIERCE'S IMPROVED WHITE BOX. Oz. 10c., 1/2 lb. 30c., lb. 50c., 10 lbs. $1.50.

WHITE VIENNA. Oz. 10c., 1/2 lb. 15c., lb. 45c.

PHILADELPHIA GARDENER'S LONG SCARLET. Very popular in the
Philadelphia and New York markets. The long, slender, handsome radishes are
of the most brilliant scarlet coloring. Flesh pearly white, crisp and juicy. The
best long radish; they are ready to pull in about twenty-two days. Oz.
10c., 1/2 lb. 20c., lb. 60c., 5 lbs. $2.75.

RED CHARIOT. Pkt. 5c., oz. 10c., 1/2 lb. 20c., lb. 50c.

CINCINNATI MARKET. Extra fine stock. Oz. 10c., 1/2 lb. 15c., lb. 45c.

SCARLET TURNIP WHITE TIPPED. Oz. 10c., 1/2 lb. 15c., lb. 40c., 10
lbs. 50c., 100 lbs. $3.00.

SUTTON'S SCARLET TURNIP. Some planters report that they grew these
radishes large enough to eat for seven or eight weeks. The
shape is perfectly round, about one inch in diameter, with this bright red
skin, firm flesh, crisp and mild; the skin, leaves short and small; excellent for
greenhouse or open ground culture. This new radish is remarkable for its
crispness and tenderness. While it is of most attractive appearance when
ready for market. Oz. 10c., 1/2 lb. 25c., lb. 70c.

FRENCH BREAKFAST. True imported. Pkt. 5c., oz. 10c., 1/4 lb. 15c., lb. 50c.,
10 lbs. $2.50.

FRANCE TAHITIAN. Pkt. 5c., oz. 10c., 1/2 lb. 20c., lb. 50c.

WHITE CHINA. Pkt. 5c., oz. 10c., 1/2 lb. 20c., lb. 50c.

PARISIAN BLACK SPANISH. Fine. Very black skin; pure white flesh
without core. Early, good keeper. No market gardener should plant any other.
Pkt. 5c., oz. 10c., 1/4 lb. 25c., lb. 75c.

ROUND BLACK SPANISH. Very choice. Home grown. Oz. 10c., 1/2 lb. 20c., lb. 50c.

WHITE SWAN'S EGG.
all radishes. We, however, especially recommend it as the best of all white winter radishes from seed.

MOORE'S EARLY WHITE DELICACY RADISH.
This new sort is a cross between
Wood's Early Frame and our
improved White Strasburg. A most
distinguehing character is its rich, transparent, waxy appearance.
The shape is one long sought for, and
the radish is much favored for bunching, being what might be
called half-stump rooted. The color
is pearl white, with the waxy
appearance above described, and the
texture is very firm and solid.
It is about one week later than
Simon's Red Ivory, but after they
are ready for market they remain in
marketable condition fully
three weeks. Top a short, crisp and
deliciously crisp, mild and
tender. It attains about twice
the size of our celebrated
Bright Red Forcing
Turnips. It positively
will not grow below or
nearly, remains deliciously
crisp and juicy for weeks; a fine market variety for any season of
the year. Well adapted for sowing for early or warm borders or
open field culture. We most earnestly
urge every one of our customers to plant it. Pkt. 5c., oz. 10c.,
1/2 lb. 25c., lb. 50c., 3 lbs. $1.50.

NEW SWEDISH BUTTER RADISH. Every one having one or
more milk cows should plant this valuable radish.

We know of no root crop that will insure as good health or prevent dis-
case in milk cows like this. It is a great milk and butter producer; both
the tops and roots are greatly eaten. Flesh white and compact. Acts
as a fine stimulant and causes digestion, thus increasing the flow
and quality of the milk. The roots attain a length of 18 inches by
finishes in diameter. The yield per acre is double that of rutabagas or turbinels.
Can be stored like mangel beets or turnips during winter. Sow 3 to 4
pounds to the acre in rows 6 feet apart, or broadcast in July 11th to
August 10th. Pkt. 5c., oz. 10c., 1/2 lb. 30c., 1 lb. 80c., 3 lbs. $2.50.
**RHUBARB or PIE PLANT**

Rhubarb is probably the most profitable and satisfactory crop a market gardener produces.

Giant Extra Early Paragon. In growth it resembles Victoria and is quite as large and productive as that well-known variety, but the Rhubarb is more upright in habit, and in the open ground comes earlies into use. Another and still more important merit is the beautiful color—a rich, bright red, and this characteristic remains after cooking, even when forced in absolute darkness. The sticks are large and exceedingly tender, and have a delicious flavor. Altogether this fine variety possesses a combination of qualities which will make it necessary with every progressive market gardener. Just as desirable for the family garden. It is an excellent article and sells at "top-notch" prices. One of our customers took $1.32.90 from one acre of this sort. Extra strong roots 10c., 3 for 25c., doz. 1.00, 100 $2.00. Add 5c. per root if by mail. Seed, pkt. 10c., oz. 30c., 1/2 lb. 75c., lb. 50c.

Crimson Winter. A large red-stalked, compact-growing, improved and productive variety; the earliest; quality unusually juicy, rich and spicy. Pkt. 10c., oz. 30c., 1/2 lb. 80c., lb. 5.00. Strong roots, each 10c., oz. 30c., 1/2 lb. 50c., lb. 2.00. LINEAUS. Small stalks of very superior quality; rich red color. Pkt. 10c., oz. 30c., 1/2 lb. 35c., lb. 2.00. VICTORIA. A very large, thick, red-stalked late variety of fine quality. Pkt. 5c., oz. 15c., 1/2 lb. 40c., lb. 1.25. Large roots of Lineaus or Victoria. Doz. 75c., 100 $2.00, per 1000 $16.00. Add 5c. each if by mail.

Rhubarb Roots are a great specialty with us and we can readily supply 100 or 10,000. Write for prices, stating quantity wanted.

**TRUE ESSEX RAPE.**

Valuable for Cattle, Sheep and Hogs

This is a highly valuable forage and should be fed by all who grow any kind of live stock for food purposes. Under favorable conditions it is ready for pasturing sheep or cattle within six weeks from time of sowing, and an average acre will carry from fifteen sheep or hogs six weeks to two months. When on the rape they should at times have access to salt, but water is not necessary. In the Northern States and Canada it should be sown from April to end of August for full pasturing, but as it thrives best in cool weather, it should not be sown in the Southern States until September or October for winter pastures. In the latitude of Philadelphia it should be sown in April, or in July or August. Its fattening properties are probably twice as good as those of clover, and for sheep the feeding value of rape excels all other plants we know of. At the Michigan Experiment Station, 12 lambs were pastured for eight weeks on a little of rape; sown in July, and showed a gain of 2,800 lbs., or at the rate of 3 lbs. per lamb each week. The growth is enormous and makes excellent green food for all kinds of poultry. To secure the best results the rape should be well broken up in drills. Sow 1 lb. per acre broadcast, 2 to 3 lbs. per acre in drills. 1 lb. by mail 35c., pkt. 6c., lb. 15c., 10 lbs. $1.00, 50 lbs. $5.25, 100 lbs. $8.00.

**SORRELL**

Large Leaved French. Cultivated for its acidity and much used in salads. Pkt. 5c., oz. 10c., 1/2 lb. 30c., lb. 1.00.

Swiss Chard. This is a variety of Beet grown for its stems, which, boiled, form delicious green; the stems are esteemed when cooked and serve like Asparagus. Pkt. 5c., oz. 10c., 1/2 lb. 15c., lb. 40c.

Weeding and cultivating a twenty-five acre field of our Belgium Evergreen Long-standing Spinach for seed, with Planet Jr. Special Hand Wheel Hoe No. 15. Price $5.00.

**SALSIFY**

We are very large growers of Spinach Seed and can give very liberal quotations on 100 or 1,000 lbs. of any sort.

New Amsterdam Prolific Long Standing. The most abundant cropper; the longest-keeper; the finest quality; doubles the yield of all other long-standing sorts; the best spring Spinach in the world for the amateur or market gardener. This is a new variety, distinguished for its exceedingly dark-green colored, curly leaves of robust quality, and for its remarkably long standing qualities, being from two to three weeks later than all other long-standing sorts. It is very hardy and will withstand the severest winter, of rapid growth and is adapted to show any time in the year. In account of its yielding such an enormous yielder, the ground should be well manured. Pkt. 5c., oz. 15c., 1/2 lb. 35c., lb. 1.00.

New Hardy Winter. The best for early cropping, as well as early spring; of a handsome dark green color, producing more and larger beautiful curled thick leaves than any other. Will yield double the bulk, and remain firm and brighter longer than any other. The best and most profitable curled variety to grow. Oz. 5c., 1/2 lb. 10c., 1 lb. 20c., 100 lbs. $18.00.

Belgium Evergreen, or Virolay Long Standing. Leaves very thick, tender, dark-green, and well curled; the leaf resembles the well-known "Virolay" grown and longer and yield double the quantity of the Enkheim or Prickly Seeded long standing sorts. Oz. 10c., 1/2 lb. 15c., lb. 35c., 10 lbs. $3.00.

**AMERICAN BOUND SEEDED SAVOY or BLOOMDALE.** 1/2 lb. 10c., lb. 16c., 100 lbs. $14.00.

**SPINACH**

**NEW ZEALAND SPINACH.** Yield's an abundance of the tenderest Spinach during the hottest months of the year, or in dry, arid localities where the ordinary Spinach fails to grow. Pkt. 5c., oz. 10c., 1/2 lb. 35c., lb. 1.00. Long Season. Very strong grower. Good market sort. Oz. 10c., 1/2 lb. 10c., lb. 25c., 5 lbs. $1.20, 100 lbs. $20.00.
SQUASH

Moore's New Extra Early Cluster

The ideal early Patty Pan. The most profitable early squash for either home market or shipping

The productiveness of this variety is truly astonishing, the yield is truly enormous; it is not uncommon to count eighteen or twenty beautiful green fruits on a vine at one time. Sixty-one squashes have been picked from a single hill. It is a true bush variety of unusually compact growth. Each squash is smaller than the Joe's Extra Early which we introduced eight years ago and which proved so profitable to all who grew it. The color is a beautiful green. The earliness of Moore's Cluster is no less remarkable. The seed cavity is unusually small, while the rich, delicate flavor and delicious quality is not found in any other sort. It is ten days earlier than the Long Island Mammoth White, or White Scallop. On account of its extreme earliness, beautiful appearance and fine eating qualities, it being very tender and fine grained, it outsells all other sorts on any market. Fancy prices are assured all who grow it.

It is the best pan, the fruits carry better, remain in good condition longer, and retain their attractive and beautiful pea green color longer than any sort hitherto introduced. It is grown early, but if the fruits are promptly picked it will continue to yield a marketable squash twice as long as any other. Indeed, we cannot recommend it too highly to all who wish early squashes, and plenty of them. We have had it fully tested by our home market gardeners and many large southern growers in Texas and Florida, and they all agree in saying it is the king of all early sorts for the grower, dealer and consumer. No home garden should be without it. Pkt. 10c., oz. 15c., $1.25, lb. $1.25, lb. $3.50.

Dow's Extra Early Patty Pan. Productive. The squashes mature fully a week earlier than the Long Island White Mammoth and are of varying heights. The squash cook well and the flavor is delicious. It forms no hard shell until nearly ripe, which is another great improvement over all others of this type. Color a beautiful green. Entirely free from any yellow cast. Unusually fine and heavy, which greatly enhance their value for shipping long distances. Pkt. 5c., oz. 10c., $1.25, 1b. 90c., lb. 5b. $4.00, postpaid.

Long Island Mammoth White Bush. True. Fruits are deep and light green to white. Oz. 10c., $1.25, lb. 65c., 5b. $3.00.

Strickler Green Summer Crook Neck. They have a dark green skin, are very productive, of the finest quality and sell well. Pkt. 5c., oz. 10c., $1.25, lb. 75c.

Canada Winter Crook Neck. Rich yellow, a solid and fine grained. Good keeper. Pkt. 5c., oz. 10c., $1.25, lb. 35c., lb. 80c.

Warted Hubbard. Of large size, and very dark green color. A good keeper. Pkt. 5c., oz. 10c., $1.25, lb. 65c.

Pkt. 5c., oz. 10c., $1.25, lb. 65c.

French Cucumbers. Pkt. 5c., oz. 10c., $1.25, lb. 35c., lb. 80c.

Dunlap's Prolific Early Golden Marrow. This new Marrow Squash is certainly a valuable acquisition; for, while it is remarkably productive, no variety can compete with it for earliness. It being about twelve days ahead of the Boston Marrow, and for this reason can be planted a week later than any other variety of marrow. Its color is most attractive, a brilliant orange-red. A good keeper. Pkt. 5c., oz. 10c., $1.25, lb. 30c., 5b. $3.50.

French Cocoon. For both summer and winter use. The most deliciously flavored squash grown; dry, sweet rich and wonderfully solid and productive and the best keeper of all. When well matured and removed from the vine before frost it is no uncommon thing for them to keep one year in good condition. Pkt. 5c., oz. 10c., $1.25, lb. 75c.

Golden Custard Bush. Large golden scallops. Pkt. 5c., oz. 10c., $1.25, lb. 60c.

Mammoth Bush. Pkt. 5c., oz. 10c., $1.25, lb. 30c., lb. $1.00. Very large size, good quality.

Chinese Pkt. 5c., oz. 10c., $1.25, lb. 30c., lb. 80c.

The Warren. Excellent winter sort. Pkt. 5c., oz. 10c., $1.25, lb. 75c.

Golden Warted Hubbard. Pkt. 5c., oz. 10c., $1.25, lb. 75c.

Dunlap's Early Prolific Golden Marrow

Giant Golden Summer Crook Neck. Bright yellow, warty; bears large squashes. Early and all summer. Pkt. 5c., oz. 10c., $1.25, lb. 70c.

New Egg Plant Bush Squash. Beautiful cream-colored fruit, of medium size and first-rate quality and a pleasant flavor, delicious when made into fritters. Comes into fruit much earlier, besides being free from disease and much easier to grow than egg plant proper. Certain to please every grower of this vegetable. Pkt. 5c., oz. 10c., $1.25, lb. 80c.

Boston Marrow. Flesh dry and sweet. Pkt. 5c., oz. 10c., $1.25, lb. 30c., lb. 55c., 5b. $3.50.

Sutton's White Vegetable Marrow. Pkt. 10c., oz. 15c., $1.25, lb. 30c., lb. 80c.
**TOMATO**

The growing of high grade Tomato Seed is a leading and important specialty with us and we probably distribute more seed to critical market garden and select canning establishments than any other three seedsmen in the United States.

**MOORE'S KING OF THE EARLIES**

Shaping shape and size -

**MOORE'S KING OF THE EARLIES**

Is Positively the Largest and Smoothest Extra Early Red Tomato in the World

We have here the grandest large extra early smooth tomato of the age for market gardeners, private gardeners and shippers, no matter whether you plant one dozen or one million plants for your first picking. It is just the large extra early tomato thousands have been looking for. It is just the tomato you need. It is the tomato above all other extra early tomatoes. It is an enormous yielder. The plant is a perfect mass of large, beautiful red fruit. It is the ideal "stem setter," and as there is a remarkable absence of the leaves the fruit ripens early and almost "all at once." To the tomato that will bring you wealth and fame. Each and every vine is a perfect mass of large fruit, as our illustration shows. It is a very compact grower and consequently can be planted one-third closer than any other early sort. If you grow early tomatoes, don't miss planting it. It will be both pleasure and profit to you. It is the earliest large, smooth tomato ever introduced. Pkt. 10c., 3 oz. 30c., oz. 50c., 1/4 lb. $1.00, 1/2 lb. $2.50.

**ANY TOMATO GROWER IN THE UNITED STATES CAN MAKE BIG MONEY GROWING**

**MOORE'S NEW EXTRA EARLY JUNE PINK**

Better in quality, more handsome in appearance and immensely more productive than any other extra early pink-skin variety. The vines are one solid mass of beautiful, large sized, smooth fruit, which always sells for fancy prices in every market. We have been developing and improving this remarkably valuable new extra early variety for the past eighteen years, and now offer it to our many thousands of customers throughout the world as being the earliest, most productive and most profitable extra early pink tomato in existence. First pickings of ripe tomatoes last season sold for $1.00 per crate wholesale. The crown sets often consist of thirty beautiful large fruits. Moreover, it is exceptionally hardy. The fruit is deep, very smooth, solid and meaty and entirely without core. It is a great money maker for all who grow for early market. As a long distance shipper we assure our customers that it will carry fully as well as our Moore's Royal Pink or Moore's Old Blue Stemmed Duke of York. That you know is saying a great deal. Every one of our customers who have had it pronounce it free from blight. Fine for the South and will make big money for the man who grows tomatoes for early market, no matter where he may be located. Ask your neighbor about it; he may be planting it. Pkt. 10c., 3 pkts. 25c., oz. 50c., 1/4 lb. $1.00, 1/2 lb. $2.50.
MOORE'S NEW EARLY ROYAL PINK

A truly wonderful yielder—being of large size and wonderfully prolific, as our illustration shows—and continues to yield beautiful large fruit longer than the Globe, Acme, or Beauty. Very distinct in shape, firm-fleshed, and of delicate and delicious flavor. It is a very beautiful variety; in quality there is nothing more to be desired in a pink tomato. It has a great future, it has already become a popular variety with all tomato growers who have tried it. Every market grower, large or small, is delighted with it. It is as smooth as an apple, colors beautifully, continues in bearing condition longer than any other pink variety; and meets with ready sale on all markets. Every Florida, Texas, Mississippi, Louisiana, Alabama, Tennessee or other Southern tomato grower should plant Moore's New Early Royal Pink Tomato. It matures enormous crops of No. 1 fruits only a few days later than our Moore's King of the Earlies. Beautiful large, smooth, solid pink-skinned fruit, which invariably sells above the market price. The texture is extra firm, thus making it a first-class long-distance shipper. It outclasses Livingston's Globe on every point, being one-third larger, earlier, yielding 10 per cent. heavier crops and, unlike the former, will carry thousands of miles in perfect condition. Pkt. 10c., 3 for 30c., ½ oz. 50c., 1 oz. 75c., ½ lb. $1.50, 1 lb. $5.00.

Moore's New Coreless. All markets requiring a bright, rich, red sort will be pleased with the Moore's New Coreless. In shape it is almost round, being of about the same diameter each way. The depression at the stem end has been almost eliminated, making it the most profitable variety for canning, owing to a very small amount of loss in material and labor. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the stem when plants are trained to stakes. Tons per acre and cans per ton is all important. All of the fruits are of marketable size, and many of them are quite large, twelve to fifteen ounces. A grand, good slicing variety; the seed cell being surrounded by bright red, heavy, meaty and delicious flesh, which is slightly more acid than the Livingston's Globe. The strong outside and inner walls of flesh of the Moore's New Coreless render it a very firm fruit and one of the best for long distance shipping, but it is entirely free from hard green core. Its color is that bright, rich red so desirable to packers of high-grade goods, and more important than ever now, since the law forbids the use of coloring matter. Every canner, market gardener or lover of good tomatoes should plant this grand variety this year. Pkt. 10c., oz. 40c., ½ lb. $1.00, lb. $3.75.
Bigger Crops, Bigger Prices, Bigger Profits

Are Assured to All Those Who
Plant Moore's Tomato Seed

MOORE'S WONDROUS EARLY TOMATO

INTRODUCED BY US IN 1904

Most Valuable Large Second Early Red Tomato for the Market Gardener Ever Introduced

YIELDS 50 TONS PER ACRE

Since we introduced this most excellent variety it has brought joy, gladness, happiness, satisfaction, and hundreds of thousands of dollars to the homes of market gardeners and others who have purchased their seed from us. It ripens evenly from all very few seeds, while the productivity is simply astounding, it having frequently produced 3½ bushels of beautiful ripe fruit per plant. It not only bears its crop, but continues to bear ripe fruit until frost, and unlike most other varieties, the size is held up well until the last picking. It is no experiment, but is on a broad basis of firmly established merit. It is well adapted to all sections of the country. If you would have a "good thing" don't fail to plant it. It is of especial value to tomato growers in the State of Maine, New Hampshire, New York, Michigan, Minnesota, Wisconsin, and other localities where the growing season is short, as it will withstand more frost and mature beautiful large fruit early where no other variety will grow. It is singularly well adapted to growing in the Dominion of Canada, as well as throughout the United States, and every market gardener, no matter where located, will find it a sure money maker. The meat is unusually firm, sweet, and bright red, and carries well from 8 to 10 days later than Moore's Supreme Early Selected seed. Pkt. 10 c., 3 for 25 c., oz. 40 c., ½ lb. $1.00, lb. $5.75.

MOORE'S SUPREME EARLY

A Marvelous New Tomato in a Class All by Itself

In introducing this most wonderful early and valuable variety to the tomato-growing public, we wish to state that the name of Supreme, for the reason that it embodies all the desirable qualities produced in early tomatoes "up to date." It possesses the highest, greatest, and most excellent qualities yet attained in early tomatoes to a Supreme degree. Plant it and you will agree with us. It is a beautiful large size, very early, red skinned variety, and as such is supreme in earliness, yield, beauty and fine quality, and what is still more valuable, it commands outside prices on any market. Our Moore's Supreme Early is miles ahead of any other. It is not excelled for market or home garden. It is the tomato for everybody. To plant all fruit, with few leaves, and of compact habit. It is an uncommon thing to pick beautiful large solid, ripe fruit sixty days from setting; it is also very hardy. No tomato grower should miss planting this year our new early variety. Pkt. 10 c., 3 for 25 c., oz. 40 c., ½ lb. $1.25, lb. $4.00. It has come to stay.

MOORE'S NEW IMPROVED GLOBE

Seed Grown From Blight Proof Stock

Color a fine glossy rose, tinged with purple. Very early. The fruit is of a much larger size than the Livingstone Globe, which is a decided advantage. Enormously productive; no fruit too small for market. It has already become a big leader with many prominent and successful tomato growers in all parts of the country. It has never shown any tendency to blight with us. A fine shipper. Being smooth and of large size, it always brings fancy prices and is invariably sold for double that of Crine's Pink and treble that of Early Moors, Mamers, Early Acme, Freedom, and other old sorts. Pkt. 10 c., 3 for 25 c., oz. 40 c., ½ lb. $1.50, lb. $5.00.

MOORE'S NEW GOLDFINDER

"Does Not San Scald Nor Blight"

A new tomato with many desirable qualities and quite distinct from all other sorts. It is distinct in color, size, shape and color of fruit, the foliage being dense and of a dark green color. The fruit is of a pleasing shade of red, medium early and is set well up in the sun. It is a very productive variety, a peculiar "scalding, sun-scorched," etc. Said Moore, Esq., Northfield, N. J., writes: "Your Moore's Goldfinder Tomato pleased me mightily. Not a single tomato was scalded, while I lost one-half my eggplant and paragon from this cause. I averaged twenty cents more per basket for them than either Paragon or Stone. The yield astonished me. The branches were studded with fruit. Not a single plant blight."

HORNER'S EXTRA EARLY PROLIFIC

An extra early red variety, quite smooth and solid. As its name indicates, it is extremely prolific. It originated with Mr. J. W. Horner, a large and very successful tomato grower, Miami, N. J., also of Miami, Fl., where hundreds of acres of this highly prized variety are successfully grown every season for northern markets. We have greatly improved this variety in size, solidity and smoothness, and in this respect our strain is superior to that sent out by the originator. This variety has notified Mr. Horner at the rate of $3,000.00 per acre. Pkt. 10 c., 3 for 25 c., oz. 40 c., ½ lb. $1.00, lb. $5.00.
Moore's Wonderful Tomatoes
Are Worth Many Millions of Dollars to Tomato Growers

MOORE'S BIG VICTOR
EXTRA EARLY

"There's Big Money in it for Early Tomato Growers."
Introduced by us in 1905

We have a big reputation for growing good tomato seed, and for having the best varieties. A word to the wise—MOORE'S BIG VICTOR EXTRA EARLY TOMATO is a brand new and distinct variety never before offered to the public, and was produced at great cost. This valuable market variety was developed from a chance seedling found growing in a field of our Moore's King of the Early. It is the earliest large-fruited red variety, and the largest. Extra early red variety ever produced. Its yield is enormous, every vine being a great mass of large-size red fruit of the stem setting type. Single clusters of 25 to 30 tomatoes are not uncommon. It is truly a wonderfully productive sort. It invariably brings the highest market price. This wonderful variety is actually earlier and larger than our Moore's King of the Early, and fully as smooth—but as a large early tomato grower remarked to us—"give me earliness and large size, and the tomato will sell even if it be not smooth. He was right. Every tomato grower should plant it. Our word for it—he will miss many dollars if he don't. Pkt. 10c., 2 pkts. 25c. oz. 45c., lb. $1.50.

MOORE'S
NEW RED GLOBE

This is probably the Greatest Novelty in Tomatoes ever Introduced

Said by all who have seen it to be the most peerless shaped and variety ever produced. Large size, globe shaped, full at stem end. Bright red, a strong grower and big cropper. Yes, Moore's New Red Globe Tomato is a great novelty. It is a great novelty in shape, a great novelty in yield, a great novelty in size, a great novelty in quality, a great novelty in growth—indeed it is a highly valuable novelty; and all who grow tomatoes should become closely acquainted with it, once by planting large crops of it. It ripens immediately after Moore's New Wonderful and Moore's New Early. The variety to have the red (see illustration) is ideal. It is a large main crop, rich bright red variety, highly suitable for canning, home markets, home gardens or long distance shipping. Fruits solid, coreless and almost seedless. Every amateur, market gardener or grower should plant it. Every fruit is marketable. We sincerely hope you will not miss at least some of this valuable novelty. The頂部 at the stem end has been almost eliminated, making it the most profitable variety for canning, owing to a very small amount of waste. It is immensely productive; clusters of four to seven fruits are produced at six to eight inches apart, along the stem. All of the fruits are of marketable size, and many of them are quite large, twelve to fifteen ounces. Always free from green core; ripens all over and through and right up under the stem all at once. A grand good slicing variety; the seed cells being surrounded by bright, glossy red, heavy, meaty and delicious flesh. The strong outside and inner walls of flesh of the Moore's New Red Globe render it a very firm fruit and one of the best for long distance hauling and shipping. Pkt. 15c., 3 pkts. 35c., oz. 45c., lb. $1.25, lb. $4.50.

Small-Fruited Tomatoes
Excellent for Preserves, Pickles and Pies

Red Grape .......................... Pkt. 10c. Golden Fig ............ Pkt. 10c.
Red Currant ...................... Pkt. 5c. Yellow Peach ........... Pkt. 5c.
Red Cherry ...................... Pkt. 5c. Yellow Cherry ...... Pkt. 5c.
Red Pear-Shaped ............... Pkt. 5c. Yellow Pear-Shaped .... Pkt. 5c.

MIXED SMALL TOMATOES—The above nine varieties, Pkt. 10c., oz. 30c., ½ lb. 85c., lb. $3.00.

Remember, the Main Thing in Making a Good Crop of Tomatoes is to Get Your Seed from Us. Buy the Best Purple Peach. This fine tomato resembles some peaches so closely in size, shape and general appearance that at a short distance away it is frequently taken for a peach. It seems to have the real bloom or finish that a peach should have—pale purple, blended with orange-amber; very productive, comes early, lasts until frost, and never rots. Delicate flavor. Skin thin, and peels off like that of a peach. A very ornamental variety. Pkt. 5c., oz. 35c., ½ lb. 80c.
Moore’s Triumph Tomato

The Greatest Second Early and Late Tomato ever offered to the American tomato grower. Planted last year by over 90% of the best gardeners and canners in America, who unanimously endorse it as the best ever introduced.

Our illustration gives a very correct idea of the size and shape of this valuable new variety. We introduced this grand tomato to our gardening friends fifteen years ago, and since then some of our seed has been tried without success to offer one as good. Words cannot adequately describe its many admirable qualities for the market gardener, canner or private grower. We can truthfully say, however, that in the finest medium early or late tomato ever introduced, a truly remarkable, handsome, very large, solid, smooth, bright, glossy red variety of the finest quality, ripens clear to the stem: wonderfully productive and sure to produce, does not crack; sells on sight. Its large size might lend some to believe that its fruits are few in number; just the opposite is true, it is even more prolific in fruiting than any of the standard sorts now in cultivation. It is unquestionably the heaviest cropper known. The tomatoes are borne in immense clusters of four to eight fruits, and occasionally ten large fruits have been found in a single cluster. In solidity and meatiness it has no equal, while in luscious quality none surpass it. While it is an excellent sort for medium early, it is the best in the world for a late crop. As a carrier it “holds up” perfectly well during the entire season until used by the grower. The large size, beautiful color and productiveness are maintained throughout the season until killed by frost. Every grower should grow it for his home market. Pkt. 10c., ½ oz., oz. 30c., ¼ lb. $1.00, lb. $3.50.

Moore’s Old Blue Stemmed “Duke of York”

Of Special Value to Florida Growers and all Long Distance Shippers

Introduced by us. One of the handsomest tomatoes recently introduced. Color rich glossy scarlet, similar to our Moore’s Royal Early Pink, splendid cropper, somewhat globular in shape, flesh very firm, large size, fine flavor. A leading feature of this variety is that it ripens its fruit more uniformly together than any known kind. The size and ripening is uniform in all clusters, and ranging eight and ten large evenly-formed clusters each, makes it conspicuously handsome. Ripens evenly to the stem, is a strong, healthy grower, not subject to rust or blight, is an enormous cropper, and produces until the vines are killed by frost, holding its size exceedingly well until the season is over. Quality the very best, very solid and meaty. It is in every way a desirable variety for market gardeners, as its beautiful appearance always insures an extra price. As a long distance shipper it stands foremost of all other sorts. The walls of the fruit are unusually thick and dense, so that it is a good shipping quality and ability to “stand up” well after arrival, it is a great favorite with Florida, Florida, Porto Rico, Cuba, Isle of Pines and the Bahamas Islands. We are headquarters for selected seed of this important variety. An excellent sort for summer and fall. Plants should be “set out” earlier than other late sorts. Pkt. 10c., 3 for 25c., 1 oz., 3 oz., ½ lb. $1.00, lb. $4.00.

Moore’s New Extra Early Giant Fruited Acme

The Handsomest and Earliest Type of Acme Tomato

Positively the earliest and largest Acme tomato ever introduced. Extremely valuable to market gardeners and shippers. Just what you have long sought—a large fruited, early, smooth, solid tomato, with a pink or purple skin. Herefore all pink skinned tomatoes, such as the Acme, Dwarf Champion, Beauty, Imperial and Advance, have been too small in size to make them salable or profitable for the market gardener or shipper to grow. By repeated crossing and skilful selection we have produced our New Early Giant Fruited Acme which is many days earlier, much larger and vastly more productive than its old prototype, on account of its beautiful appearance and fine quality, sell more readily and for a higher price than any similar sort. This variety appeals pre-eminently to all those who grow tomatoes for profit. It possesses all the qualities that go to make up a perfect tomato, viz., clearness, large size, quality, yield, appearance, solidity, fruit, “beefy, meaty,” thick, solid and almost seedless. Now, what more could you wish? We predict an enormous demand for our Early Giant Fruited Acme, when its many good qualities once become known. It is adapted to all sections of the United States, and more particularly to those who ship long distances. We advise every one to plant it. Pkt. 10c., 3 pks. 35c., oz. 30c., ½ lb. 85c., lb. $5.00.
General List of STANDARD TOMATOES

SELECTED NEW STONE. Our strain of this variety has obtained much favor among gardeners and market gardeners everywhere. Its solidity and carrying qualities are remarkable. Its color is a desirable red. Seed saved from finest specimens only. Pkt. 10c., oz. 35c., 1/2 lb. 75c., lb. $2.50.

LIVINGSTON'S BEAUTY. Early, large, smooth, solid, and excellent in quality. Color a very glossy crimson, with a tinge of purple. Pkt. 10c., oz. 25c., 1/2 lb. 60c., lb. $2.00.

SELECTED EARLY PARAGON. Flesh solid, well covered and flavored. Ripens between the early and late varieties. Color of skin glossy deep red. Very choice stock. Pkt. 10c., oz. 35c., 1/2 lb. 60c., lb. $2.00.

BUCKEYE STATE. Color somewhat darker than Beauty. Matures about the same time as our Moore's Triumph. Good shipper, but not a heavy yielder. Pkt. 10c., oz. 35c., 1/2 lb. 90c., lb. $3.00.

GREATER BALTIMORE. (Improved.) A late large red. Pkt. 10c., oz. 35c., 1/2 lb. $1.00, lb. $3.00.

THE TRUCKER'S FAVORITE. Color purplish red; very solid, firm flesh, heavy yielder. Pkt. 10c., oz. 25c., 1/2 lb. 75c., lb. $2.50.

GOLDEN FIG. It is wonderfully productive, yielding double that of other sorts. This variety makes pickles and preserves of the finest quality. It is particularly adapted for the small yellow sorts for canning. Pkt. 10c., 3 pks. 9c., oz. 35c., 1/2 lb. 75c., lb. $2.50.

JAPANESE TREE TOMATO.

FORCING or GREENHOUSE TOMATOES

We make a special study of these and find the following to give the best satisfaction. Those who force tomatoes under glass can place fullest confidence in our varieties.

MOORE'S EARLIEST OF ALL. Unquestionably the earliest red forcing Tomato in cultivation; fruit smooth, of medium size and very productive. Pkt. 10c., oz. 25c., 1/2 lb. 75c., lb. $2.50.

SUTTON'S PERFECTION. A superb Tomato, combining great productive qualities with excellence of form, high quality, and large size. Flesh rich yellow and perfectly smooth; color rich bright crimson; flesh solid, almost free from seeds, and of an agreeable piquant flavor. One of the finest Tomatoes for exhibition and excellent for g-near indoor cultivation. In favorable seasons enormous crops may be grown out of doors. Pkt. 25c., 3 for 60c., oz. 50c., 1/2 lb. $1.50.

BLOOMERANG BEAUTY. A very choice tomato, with rich, crimson or scarlet, skin, and rich crimson color, firm, and filled with the best quality tomato. Pkt. 50c., oz. 90c., oz. 50c., 1/2 lb. $1.00, lb. $3.50.

HURST'S COMPACT. Pink, very smooth, solid, fruit produced in clusters, few seeds, free from disease. A splendid sort. Pkt. 25c., 3 for 60c., oz. 60c., 1/2 lb. $1.50.

LORILLARD. Greenhouse grown seed, a medium size red, and very productive. Pkt. 25c., oz. 90c., oz. 50c., 1/2 lb. $1.00, lb. $3.50.

FORCING COLDFINDER. Beautiful and productive, glossy red, compact habit. Pronounced by many as the finest dinner-plate sort for forcing. Pkt. 50c.

MOORE'S SURPRISE. Possibly the most wonderful and valuable variety known in the market. Pkt. 25c., oz. 90c., oz. 50c., 1/2 lb. $1.00, lb. $3.50.

MOORE'S BIG CROP. This variety has proved a marvelous bearer of tomato which should become as widely grown as this under glass for home use or market; it is bound to give the utmost satisfaction to all. It is of perfect shape, of a deep rich crimson color. The skin is firm without blotches and the fruitfulness of the plant perfectly astonishing. Pkt. 50c., large packet $1.00.

FORCING COLDFINDER.
PERFECTION RED TOP MARKET WHITE GLOBE. This is the finest, broad-leaved, deep-yellow, perfectly round and full-turnip of all. The flesh is of the finest quality, clean, tender and sweet. The stock is of the best kind, productive and disease-free. The flavor is far superior to any other turnip. The finest grade of turnip of this variety is made into the famous "Car's Ruta Baga." It is the best sowing variety for the home garden and is the favorite of turnip fanciers. The stock is of the best kind, productive and disease-free. The flavor is far superior to any other turnip. The finest grade of turnip of this variety is made into the famous "Car's Ruta Baga." It is the best sowing variety for the home garden and is the favorite of turnip fanciers.

**Turnip**

PERFECTION MARKET WHITE GLOBE. This is the finest, broad-leaved, deep-yellow, perfectly round and full-turnip of all. The flesh is of the finest quality, clean, tender and sweet. The stock is of the best kind, productive and disease-free. The flavor is far superior to any other turnip. The finest grade of turnip of this variety is made into the famous "Car's Ruta Baga." It is the best sowing variety for the home garden and is the favorite of turnip fanciers. The stock is of the best kind, productive and disease-free. The flavor is far superior to any other turnip. The finest grade of turnip of this variety is made into the famous "Car's Ruta Baga." It is the best sowing variety for the home garden and is the favorite of turnip fanciers.

**Danish Golden Milk Turnip.** At the present price of turnips, the profit margin is very much reduced, and the feeding of roots alone offers the solution of profitably conducting this industry. The grower realizes the immense value of roots of various kinds for feeding his dairy, as well as all other stock he may have, the sooner will he experience the degree of prosperity he has so long waited for. It is the growing and feeding of root crops alone that makes the English, Danish, and other European dairy farmers the most prosperous. The dairy can be made to produce milk which is superior to any other, and the dairyman who produces this kind of milk will be able to sell it at a premium. The farmer who grows and feeds these turnips will realize a higher price for his stock, and the better the quality of the milk the higher the price. The farmer who grows and feeds these turnips will realize a higher price for his stock, and the better the quality of the milk the higher the price.

**Herbs**

- **Basil.** Sweet. Pkt. 5c, oz. 25c., 1/2 lb. 40c., lb. $1.50.
- **Dill.** American. Much superior to the imported. Pkt. 5c, oz. 10c., 1/2 lb. 30c., lb. 70c.
- **Fenel.** Sweet. Pkt. 5c, oz. 10c., 1/2 lb. 25c.
- **Lavender.** Pkt. 5c, oz. 15c., 1/2 lb. 50c., lb. $1.25.
- **Marjoram.** Sweet. American. The strongest and most lasting. Pkt. 5c, oz. 10c., 1/2 lb. 30c., lb. $1.50.
- **Sage.** Pkt. 5c, oz. 25c., 1/2 lb. 50c., lb. $1.00.
- **Summer Savory.** Pkt. 5c, oz. 25c., 1/2 lb. 30c., lb. $1.00.
- **Thyme.** American. Of upright habit; broad-leaved. Very productive, highly flavored and hardy. Pkt. 5c, oz. 25c., 1/2 lb. 75c., lb. $2.75.
- **Tarragon.** Strong plants, 25c.; by mail, 50c.
### Valuable Books

**Tomato Culture.** In three parts. Part I—Tomato Culture in the South. Part II—Tomato Culture, Especially for Canning Factories. Part III—Plant Growing for Market and High Pressure. Gardening in General. A practical book for those who work under either glass or cloth, as produced 130 pages, cloth bound. $1.00

**Southern Gardener's Practical Manual.** A log of the work is furnished a practical, practical, practical guide to those who desire to avoid the wonderful facilities afforded by our sunny South. It is a complete guide for any of the fish-faced items with fresh produce from the kitchen garden every day in the year. Illustrated. 226 pages. Cloth $1.00

**The Forcing Book.** In this work the author has compiled in handy form the cream of all the available information on the subject of forcing vegetables under glass. In addition to this, the experience of many practical growers in different localities is furnished. 169 pages. Cloth $1.25

**Mushrooms—How to Grow Them.** A practical treatise on mushroom culture for profit and pleasure. This is an eminently practical book by a practical man who is a specialist in the cultivation of mushrooms, and one of the most successful growers in the country. The subject is treated in detail, minutely and plainly, as only a practical man actively engaged in mushroom-growing can handle it. Illustrated. 169 pages. Cloth $1.00

**Pear Culture for Profit.** Teaching how to raise pears intelligently and with the best results, the best varieties and the best methods of raising pears. The subject is treated in detail, minutely and plainly, as only a practical man actively engaged can handle it. Illustrated. 169 pages. Cloth $1.00

**The Business of Dairying.** The author of this practical little book is to be congratulated on the successful manner in which he has treated so important a subject. It has been prepared for the busy dairymen and their helpers. It will furnish milk and will make dairying a business. Its purpose is to present in a clear and concise manner the dairying operations, with the aid of practical illustrations. It really contains an elementary textbook for colleges and especially in short course classes. Illustrated. 256 pages. Cloth $1.25

**Commercial Violet Culture.** A comprehensive and complete treatise on the commercial growing and marketing of violets for profit. Yet it contains no small amount of information of as much interest to the amateur as to the professional grower. Illustrated. 260 pages. Cloth $1.50

**Irrigation for the Farm, Garden and Orchard.** This book is offered to those American farmers and other cultivators of the soil who, from painful experience, can readily appreciate the losses which result from the want of water in various periods. Illustrated. 276 pages. Cloth $1.00

**Ginseng.** Its cultivation, harvesting, marketing and market value. A complete working treatise for the grower of ginseng. There is a new crop which is attracting such general attention among farmers and gardeners. It discusses in a practical way how to begin with either seed or roots, soil, climate and location, preparation, planting and maintenance of beds, artificial propagation, manures, enemies, selection for market and improvement, preparation for sale and the profits that may be expected. Illustrated. 159 pages. Cloth $0.60

**Tobacco Leaf—Its Culture and Cure, Marketing and Manufacture.** A practical handbook on the most approved methods of preparation for curing and for tobacco, with an account of the operations in every department of manufacture. Over 500 pages, with 150 original, handsome and practical illustrations, embelishes this book. Illustrated. 290 pages. Cloth $2.00

**How to Make the Garden Pay.** It is a book of entirely new and original work and treatise on gardening for pleasure, health, profit and morality; market gardening, farm kitchen gardening, hints in marketing, manure and fire hazard, methods of thinning, fertilizers, vegetable, hand forcing houses, drainage, irrigation, insects and other foes, seed and seed sowing, rotation of crops, thinning and transplanting, monthly memora, etc. Illustrated. 372 pages. Cloth $1.00

**Spraying Crops.** Here are the principles and practice of the application of liquids and powders to plants for destroying insects and fungi. Illustrated. 180 pages. 5 x 7 inches. Cloth $0.50

### "Knowledge is Power"

**Celery Culture.** By W. B. Beatrice. It contains many illustrations giving a clear conception of the practical side of celery culture. The work is complete in every detail, from sowing a few seeds in a flower-box to the picking of the bunch ready for market. Illustrated. 150 pages. Cloth $0.50

**New Egg Farm.** A practical, reliable manual upon producing eggs and poultry for market purposes, either by itself or connected with other branches of agriculture. It tells all about how to feed and manage, how to breed and select chickens, how to build and manage efficient poultry houses, etc. Over 300 original illustrations. 331 pages. Cloth $1.00

**Asparagus—Its Culture for Home Use and for Market.** In successive chapters the author treats exhaustively on the raising of the seed, the preparation of the soil, the cultivation of the soil, planting, cultivation, manuring, cutting, bunching, packing, marketing, canning and drying, insect enemies, fungous diseases and every requirement to successful asparagus culture, special emphasis being given to the crop. As no garden is complete without an asparagus bed, so is no gardener's or farmer's library complete without this interesting and instructive book. Handsomely illustrated. 174 pages. Cloth $0.50

**The Tomatocreeper's Handbook of Culture and Marketing.** A treatise on growing tomatoes and keeping pure cider. Illustrated. 120 pages. Cloth $1.00

**The Nut Culturist.** A treatise on the propagation, planting, and cultivation of nut-bearing trees, shrubs, and vines. Adapted to the climate of United States. Illustrated. 286 pages. Cloth $1.50

**Gardening for Profit.** A guide to the successful culture of the market and family garden. Profusely illustrated. Entirely rewritten and greatly enlarged. Illustrated. 376 pages. Cloth $1.50

**Greenhouse Construction.** A complete manual on the building, heating, ventilating and arranging of greenhouses, and the construction of hotbeds, frames, and plant pits. The lucid descriptions of each topic, and the 118 diagrams and 131 illustrations are drawn by the author, a skilful amateur and professional grower or florist, and enable the beginner to proceed without fear of loss from errors of construction or arrangement. Many of the illustrations are half-tone engravings from photographs of actual greenhouses and forcing houses. This is the only work published in America on greenhouse construction by practical American methods, and for the actual needs of American horticulturist. 216 pages. Cloth $1.50

**Greenhouse Management**—Comprehensive. By W. C. Pfeiffer. The Cultivation of The Chrysanthemum; The Violet, Bulbs and their Culture; Tuberous Begonias; Orchid Culture; Azaleas; Calceolarias; Cinerarias and Primulus; Ferns, Smithe and Asparagus; Palms, Pandanums and Aramaria; Dragonlilies and Cattleyas; Daffodils; Tomatoes and Melons; Mushroom Culture; Asparagus and Rhubarb; Radishes, Carrots, Beans and Beans; Grape Growing Under Glass; Strawberries Growing Under Glass; Fruit Trees Under Glass; Management of House Plants; The Growing of Bedding Plants; Propagation of Plants by Seeds and Cuttings; Propagation by Layering, Sprouting and Budding; Insects of the Greenhouse; Diseases of Greenhouse Plants; Insecticides and their Preparation; Fungicides, their Preparation, and Use. Mines and Watering; Fuel—Coal, Oil and Gas. 128 original and practical illustrations. 400 pages. Cloth $1.50

**The New Rhubarb Culture.** A complete guide to forcing and field culture. Part II—By J. E. Morse, the well-known Michigan trucker and originator of the now famous and extremely profitable new methods of forcing and field culture. Part II—Other methods practiced by the most experienced market gardeners, green-house men and experimenters in all parts of America. Compiled by G. B. Fiske. Illustrated. 150 pages. Cloth $0.50

**The Nursery Book.** A complete handbook of propagation and pollination of plants. It tells, plainly and brieafly what every one who sows a seed, makes a cutting, sets a graft, or across a flower wants to know. The text is profusely illustrated and explained in methodical order. The cuts number almost 100, and are made especially for it, direct from nature. The book treat all kinds of cultivated plants, fruits, vegetables, green-house plants, hardy herbs, ornamental trees and shrubs and florist's plants. Illustrated. 382 pages. Cloth $1.50
Mennonite Prolific Spring Rye

Most productive sort. Distinct from the winter rye, grain of finer quality and more productive; can be successfully grown in any latitude, and is now being largely sown in the Middle States in place of oats, being a much better wheat. The farmer who has Oats, corn, grasses, etc. and we know that the leaves and stalks are tender and do not stand the winter well. If sown early in the fall, it will do well in the spring. This rye is of the Prolific type and is hardy and does splendidly everywhere. The farm is well watered in the fall and does splendidly everywhere. It is not hardy enough to stand out in the winter, but this year have a couple of thousand bushels mow, and we hope that orders will be filled in time for those who order in time.

A SOWING

We sowed some of our Mennonite Prolific Spring Rye on winter wheat that had died out, waiting until almost April, and found it did splendidly. It gave us a yield of 40 bushels per acre. It is one of the very best things to grow for a catch crop, as it always gives good yields. Price of our Mennonite Prolific Spring Rye is:

- Pkt. 10c., 25c., 50c., $1.00, postpaid
- By express or freight, pt. 70c., bu. $2.00, 2/3 bu. $1.50, $1.00
- For 100 bu. pk. 60c., $1.75.

Large buyers will be quoted special prices on application.

Haley's Early Prolific Soja Beans

The Great Soil Improver, Makes Richer Feed Than Other Crops, Makes Poor Land Rich, Makes Rich Land Richer, Makes Good Land Mocks Others, Incl. Also a Half Feed Shop, the Rate 7/8 of a Sack for Fattening All Kinds of Stock, Enriching the Soil, Even When the Crop is Cut Out.

HALEY'S EARLY PROLIFIC SOJA BEAN.

This Soja Bean is called by many an agricultural wonder on account of its great prolificness, wonder and growth, its adaptability to all climates and soils and its enormous yield of green forage. Its chief value, however, lies in its great fertilizing qualities. The root system of the plant is very extensive, and its root system is known to enrich the average fertilizer drawn from the barn yard. It has been demonstrated beyond dispute that it will enrich a turnip-out piece of land by the use of barnyard fertilizer than by sowing plenty of Haley's Prolific Early Soja Beans and plowing them under. Two crops a year can be raised and two seasons can be grown on the same piece of land by sowing quite early in the spring as soon as danger of frost is past. The rate at which the leaves and stalks are grown underground is about 30 inches high. The second crop can be plowed under at the same rate. The second crop can be plowed under and this crop is the one that is shown. The next season the same land is sown with Haley's Prolific Early Soja Bean and the crop is as good as it is anywhere else, and has been on the same land, and the result is that it enriches the soil very greatly. All orders should be filled under this system. The rate at which the beans are grown underground is about 30 inches high. The second crop can be plowed under at the same rate. The second crop can be plowed under, and this crop is the one that is shown. The next season the same land is sown with Haley's Prolific Early Soja Bean and the crop is as good as it is anywhere else, and for some crops, this is the only crop that furnishes a balanced ration in one crop. Our farmers report that they do not find it necessary to feed corn, cotton seed meal, or any other kind of feed, when feeding Soja Beans. The beans are rich in protein and are very satisfactory everywhere.

EXCELSIOR WHITE WINTER RYE

A variety from Vermont that has never failed to yield at least 40 to 50 bushels per acre. With the original, a four-acre field yielded 52 bushels to the acre. Pk. 50c., bu. $1.50, 10 bu. and over $1.00 per bu.
MOORE'S FAMOUS BLACK NORWAY OATS

Imported Direct from Bergen, Norway

Few farmers are aware of the fact that the best black grapes in the world are produced among the Fjords of Norway facing the Arctic Ocean. It is here that the black grape is cultivated to its greatest perfection as to yield, weight, quality and freedom from disease. Our stock seed was obtained direct from Mr. Hanson Hjort, who has devoted two decades to developing his favorite strain of "Hjort's Fred Braun." Mr. Hjort has, on carefully prepared land, raised as high as 31½ bushels (by weight) per acre of his truly wonderful oats. Our own and other tests this past season showed a yield of over 200 bushels per acre. Any farmer can secure the same enormous yield under the same conditions.

An acre of ordinary land on your farm that will only produce 85 bushels of common oats will readily yield 100 bushels of our Famous Black Norway Oats.

We do not feel backward in pushing this Famous Black Norway Oats, because we have seen such marvelous yields of this variety the past summer that we know any farmer can make lots of money sowing it. There is nothing like it in earliness in any other kind of black oats that we know of. Our crop was ripe and stacked before any of our neighbors. The wonderful yield of this remarkable oats, as well as its resistance to the elements, is very largely due to its wonderful stubbing habits. We have seen single kernels produce 102 strong, healthy stalks. Every farmer knows that when an oat stands, its yield is increased in proportion. Take an oat that does not stand and it cannot produce as heavily.

OTHER REASONS WHY YOU SHOULD PLANT IT

First—Drought Proof. It matures so early that the crop can be gathered before dry summer weather sets in. No sort we ever heard of so completely and thoroughly withstands dry weather.

Second—Feeding Quality. No variety equals it in superior sweet quality. All kinds of stock prefer eating it to any other.

Third—Profit that Interests You. It makes farming profitable in every state and territory in the United States. Your neighbors will want it if they see or hear of it. They will pay you an extra price for it.

Fourth—The Last Forty Bushels. It is the last 40 bushels per acre that makes farming profitable. If the common sorts yield 50 bushels per acre, and this gave you 70 bushels, but the last 40 bushels would be the profit; but if this gave you 100 bushels, it is very easy to figure great profits on 100 acres or more. Try it and convince yourself.

Fifth—Most Marketable. It comes from a country where rust does not exist. The low price we sell it for ought to induce every farmer to plant it. Its wonderful stiff straw holds it up like a wall where the wind and rain beat other sorts flat. Yield, which is enormous, some say 70, 150, and others 200 bushels per acre.

IF WE HAD MORE ROOM WE WOULD TELL YOU MORE

Price of Moore's Famous Black Norway Oats

Large pkg., 15c., lb. 40c., postpaid; by freight or express, pk. 75c., ½ bu. $1.00, bu. $1.75, 3½ bu. $3.75, 5 bu. $7.25, 10 bu. $14.00, 20 bu. $37.00, 25 bu. $52.00.

215 BUSHELS PER ACRE

Solomon Cutter, Genesee Co., N. Y., says: "Your Famous Black Norway Oats was a sight to behold, standing fully four feet high, a solid mass of grain. The straw was so stiff that not a stem lodged. It yielded at the rate of 215 bushels of 22 pounds per acre. I congratulate you warmly upon your remarkable success in producing farm seeds of such superlative merit."

EVERY MARKET GARDENER OR FARMER

Should grow his own horse feed. The best authorities say there is no grain food equal to Black Norway Oats for feeding horses, cows, sheep or hogs, either in the green state or dry grain. It possesses all the food elements necessary to keep the animal in perfect physical condition and greatly assists in warding off all manner of diseases. Sow 3½ bushels per acre. It is the easiest, cheapest and best feed you can grow. It cleans the soil.

Send for a copy of our Seed Buyer's Guide for 1910—a postal will bring it.

THE MOORE SEED COMPANY, 339 MARKET ST., PHILADELPHIA, PA.
**An Agricultural Wonder**

**Best in the World.**

![Image of Oats]

**New Zealand OATS.**

It will Pay You Big to Change Your Seed Oats This Year

It will pay you to sell your common Oats and sow these improved varieties this year while the seed is so cheap. In our field the New Zealand Oats yielded about 100 bushels to the acre, and the Lincoln 90 bushels, while neighboring fields of other varieties under similar conditions yielded only 40 to 50 bushels. The increased yield on a few acres will cover entire cost of seed for your farm.

**New Zealand Oats**

Progressive farmers who have grown them pronounce them to be the most valuable Oats ever grown in America. It contains more new blood, hence more vigor and producing qualities than any other Oat we know of.

It has stood the test on 12,750 farms, scattered all over America, in the remotest corners and obscurities of each state and territory - even where it did well, despite the most terrible season ever known.

This is absolutely the earliest Oat grown. Nothing like it in earliness that we know of. Our crop was ripe and cut and stacked eight days before other sorts were ripe, which stamps this variety as absolutely the earliest in existence.

It means big money to the farmer. That's what the earliest Oats always bring in the market, and especially in the farm, for many farmers are short of Oats in the summer when this ripens.

**It Withstands Drouth.** No sort that we have ever tested so thoroughly and completely withstand dry weather - yes, long continued dry drouths as New Zealand; the price of our New Zealand Oats is 1 lb. 50c.; 10 lb. $4.00; 50 lb. $19.00, postpaid.

Indeed, it seems to be proof against every element of nature in the shape of weather, withstanding all and yielding heavily.

**Strong Straw.** Now, then, New Zealand Oats have wonderfully stiff straw, withstanding severe winds to a marked degree and coming forth after storms standing straight - a pleasing sight to behold. When other sorts lodge badly, this stands up like a strong stone wall.

**Yield.** This is simply enormous, some are from 60 to 100, yes, 200 bushels or more per acre, but we honestly believe that 100, yes up to 200 bushels or more can be grown per acre under careful cultivation; when specially planted it has yielded as high as 250 bushels per acre.

The color is a beautiful silvery white beautiful in the extreme, aids it to sell quickly and rapidly at an advanced price in almost every market on the globe. The color alone makes it a great seller.

No Oat exceeds this in excellent quality, and it has that advantage that it will make more and better oat meal than any other known Oat at the present day, while all others will fight for it for food. All miles who have seen it pronounce it excellent in the extreme.

Now, then, here is an Oat that makes profitable farming absolutely certain in any state from Maine to California, and south to the Gulf and north through Canada. This Oat, if sown, will insure profitable farming. It will certainly yield from 20 to 100 bushels more per acre than any of the common varieties, which will ten times pay the cost of the seed.

The price of this Oat is ridiculously low, but that's the way we do when we have a good thing; we sell at a low price, so that all farmers can make money out of it.

The Last Forty Bushels. It is the last forty bushels per acre that makes farming profitable. If the common sorts yield 30 bushels per acre and this gave you 70 bushels, the last 40 bushels would be the profit; but if this gave you 150 bushels, it is very easy to figure out great profits on 100 acres or more. Try it and convince yourself.

**GROW WONDERFUL ARABIAN CORN FOR POULTRY**

Can be planted and thrive anywhere in the United States, and is the cheapest poultry food known. Stalks grow four feet tall, high and produce numerous heads of grain 12 to 16 inches long. The yield of grain is simply enormous, averaging about one pound of fine, fully ripe, plant same time as field corn. It is a wonderful egg producer and keeps farmer, besides it is a wonderful health protector. All poultry and pigeons greedily eat. The leaves and stalks make excellent range for cattle either green or dry. 80 pounds will plant an acre. Unaffected by drought or dry summer. Sow in 3 foot rows. Pkt. 10c., (lb. 35c., postpaid); by express, 1 lb. 25c., 5 lbs. $1.00.
SMALL FRUITS

There is only one way possible to succeed in fruit growing, and that is to plant the right varieties. It does not matter how good your market is, or how well your soil is adapted to fruit, or how hard you work, you are bound to fail unless you plant varieties that will produce the kind of fruit you want and in paying quantities. We have gone over the long list of varieties year after year, adding to and discarding until we have a list that cannot fail to do well. We have worked the problem out and are sure we can help you. We have laid the foundation for success for hundreds of our customers. We want to lay the corner stone in the foundation of your fruit career—fruit growing. You can succeed. We will help you—with advice, good plants and the right varieties. You may need help in getting started.

This year our strawberry plants are very fine and our stock is larger than ever, and we solicit large and small orders. Wherever possible we would have all plants to be shipped by express. We wish to thank every one of the many thousands who entrusted their orders with us last year.

Note.—Our plants are first-class, full of life, and worth double the price of many on the market. Besides, they are the varieties that will make you money, if that is what you care for.

BLACK BERRIES, if by mail, add 10c. per doz., or 40c. per 100.

CRYSTAL WHITE. Berries of fine translucent white, of good size, sweet and pleasant. Cane prolific, but not entirely hardy. Should be planted near other sorts to fruit well. Each, 15c., doz. 75c., 100c. $3.00.

DICKEL'S EARLY HARVEST. The earliest blackberry to ripen. Exceedingly good flavor. Very profitable on account of its earliness and great productiveness. Our plants are fine and true to name. Genuine stock is very scarce. Each 15c., doz. 1.00, 50c., 1.00 $3.00.

KENOYER, No. 1. A prodigious bearer of very showy fruit, of good color and size, with good shipping qualities, with good strong canes. We have the size and will yield double that of Early Harvest, largest cropper of all, and fine market sort. Medium early. Each 15c., doz. 1.00, 50c., 1.00 $3.00.

MERSERAU. Very profitable on account of extreme earliness and great productiveness. Cane prolific, but not entirely hardy. Should be planted near other sorts to fruit well. Each 15c., doz. 50c., 1.00 $3.00, 1.000 $25.00.

ELDORADO. Highly recommended by growers and experiment stations everywhere. It is an oblong berry of large size, fruiting in numerous pendulous large clusters, with few thorns. Color black, flesh deep crimson, flavor sweet and distinct, rich quality. One of the finest. Each 15c., doz. 50c., 1.00 $3.00, 1.000 $23.00.

RATHBUN. Large, intense jet black. Very glossy, never turns red. Small, seeds, extra fine quality, with a peculiar rich aroma. Yields abundantly, and ripens early. Forms a compact bush four to five feet high. Has few thorns. Each 15c., doz. 75c., 1.00 $3.50, 1.000 $25.00.

WARD WONDER. Big glossy black fruit; rich, sweet, tender and melting. Average yield 200 bushes per acre. Cane very hardy. Cane 4 to 5 feet high. Agreed, profitable variety. Each 15c., doz. 50c., 1.00, 50c., 1.00 1.00 $20.00.

BLOOMER'S FAVORITE. Berries of fine translucent white, of good size, sweet and distinct, rich quality. Each 15c., doz. 50c., 1.00 $3.00, 1.000 $23.00.

WAUCHUSETTS, MINNEWASKI, ERIE, OHMER, EARLY KING, ANCIENT, BRITTEN AND STONE'S HARDY, each 10c., doz. 50c., 1.00 $2.50, 1.00 1.00 $16.00.

KITTATINNY, LAWTON, WILSON, TAYLOR, SNYDER and WARD, each 10c., doz. 50c., 1.00 $2.00, 1.000 $14.00.

PRIMOS DEWBERRY. (NEW). Ten days earlier than Lucetia. Uniformly large, glossy black, finest quality, sweet and of unequalled quality. Each 15c., doz. 75c., 1.00 $2.00, 1.000 $15.00.

LUCETIA DEWBERRY. Doz. 30c., 1.00 $1.30, 1.000 $10.00.

COURRANTS

"PERFECTION." (A New Variety from New York). It has been awarded many valuable prizes and medals. Certainly approved by the very highest authorities and should be tested everywhere as there is big money in growing large currants. The color is a beautiful bright red. Size as large or larger than the Fox, the clusters averaging longer. The size of the berry is well maintained to the end of the bunch. The "Perfection" has a long stem from point of attachment to the bush to the first berry, making it easy to pick without crushing any of the berries. "Perfection" is a great bearer, resembling its parent, the White Grape, in this respect.

Quality. Rich, mild, slightly sweet, plenty of pulp with few seeds. Less acid and of better quality than any other large currant in cultivation. Remarkably large, healthy foliage. Each 15c., doz. 75c., 1.00 100 $14.00.

WHITE GRAPE. The best white fruit, large and sweet, good grower and very heavy yielder. Each 15c., doz. 1.00 $1.00, 100 $5.00.

BLACK NAPLES. The best black for all purposes; will stand most any climate; valued by some for jelly; it is very productive and hardy. Each 15c., doz. 1.00.

FAY'S PROFICIENT and NORTH STAR. Each 15c., doz. 1.00 $1.00.

VERSAILLES, CHERRY, RED DUTCH and VICTORIA. Each 15c., doz. 85c., 1.00 $4.00.

MOORE'S NEW RED CROSS. Jacob Moore, the originator, says: "Red Cross clusters are long and have well-pecked berries, double the size of Victoria, and far superior in quality to Cherry or Victoria. Nothing will compare in quality with Red Cross but White Dutch, which is so small. I have seen the fruit growing in such masses as to hide the upper branches from view. It is later than Cherry. The plant makes twice the growth of Cherry and yields 2 or 3 times as much fruit. I recommend it with confidence. I consider Red Cross one of the best of the new currants." Each 15c., doz. 1.00, 1.000 $7.00.
RASPBERRIES

KING'S HAYMAKER. This valuable new raspberry is certainly the greatest.

MOORE'S RUBY. Pronounced by thousands to be the best red berry to grow for profit. Color a beautiful bright red, Ripens with the earliest and continues picking a long season. Excellent table berry and a good flavor, often sells for 25c. per quart. It stands shipping long distances better than any other. It has been grown commercially for 3 years and to-day stands at the head of all other raspberries for long, market and profit. Each 15c., doz. 15c., $1.00 $7.50.

NEW BRILLIANT. The berries are large and beautifully brilliant. It ripens the entire crop early and all at once, while the price is high. It carries its brilliance to market and looks as fresh as when first picked. A most marketable variety. Every grower should have it. Each 15c., doz. $1.00, 1,000 $10.00.

GOLDEN QUEEN. The most profitable yellow berry grown. Doz. 75c., 100 $8.50.

THE NEW CARDINAL. This wonderful large red variety will grow ten feet high and bear in proportion. It is the wonder of the century, and every grower should plant it. A variety of great merit. Each 15c., for 25c., doz. 75c., 100 $3.50.

LODEN, red, medium late; EATON, red, long bearer; EUREKA, purple canes and berries; SMALL, 3 zones; EVERBEARING, doz. 15c., 1,000 $3.50.

GREGG, CONRATH, OHIO, KANSAS, SOUCHEGAN, PALMER, EUREKA, CANDYBEAR, doz. 75c., 100 $2.00, 1,000 $13.00.

TURNER, HANSELL, MILLER, MARLBOROUGH, TOMSON, doz. 75c., 100 $1.50, 1,000 $10.00.

EARHART NEW EVERBEARING. Actually bears continuously from June 1st until killed by frost in September. The canes are literally loaded with fruit in all stages from bloom to ripe fruit. Creates the greatest surprise when shown at fairs and horticultural societies. Has no equal as an ever-bearing variety. A great novelty and a very valuable one as well. Each 15c., doz. $1.00, 100 $8.50.

DAVIS' CUMBERLAND. In hardiness and productiveness it is unequalled by any other variety. Its fruit is so large that the amount is simply enormous, far surpassing any other sort. The berries run seven-eighths and fifteen-sixteenths of an inch in diameter, and are of such handsome appearance that they are selling for 25c. to 75c. per quart; careful growers give it a record of 220 per acre. It is the earliest red can on record. Medium size, fine quality, enormous yield, very firm. It will make you big money. Doz. 15c., 100 $2.50, 1,000 $16.00.

GRAPE VINES. Strong No. 1 two-year-old healthy stock.

CONCORD, early, good size, black; CATAWBA, large late red, good wine variety; DELAWARE, small red, delicious, superior quality; MOORE'S DIAMOND, seedless white, large, fine quality, juicy; MOORE'S RUBY canes earlier than CATAWBA, large, hardy, rich, sweet and good; FOCKLINGTON, white, large bunch, later than Niagara; WORDEN, blue, large, early, spicy flavor; CHAMPION, VERGENNES, dark purple, very nice; PIES, ELIJAH, white, very productive; BRIGHTON, red, fine quality, hardy, medium; MEAD'S RED, red, good quality, hardy, medium; CAMPBELL'S EARLY, glossy black, early, good keeper, sweet and juicy, bunch and berry large; PATIENCE, red, large bunch berry, quality fine. Price, Eaton and Campbell's Early, each 25c., doz. $2.50; all other varieties, each 15c., doz. $1.50. If by mail add 25c. per dozen.

PEARL

GOOSEBERRIES

Extra Strong One-year-old Transplanted Stock. These must not be confounded with cheap layer stock.

Of late years Gooseberries have, proven to be the most profitable of all small fruits. Plant same as currants, in good, rich soil, give liberal dressing of manure every season; regular pruning is essential for fruiting over green or mildew, for fruit as leaves appear, and occasionally through the summer, with potassium sulphate, one ounce to the bush. The most profitable are those that ripen later in the season. It is very hardy, earlier than those from mildew, superior in size and flavor, and is certainly more productive than the Downings. It is likely to supersede this standard sort. From the many flattering testimonials of this new berry from all the leading horticulturists we have pleasure in recommending this variety for small or extensive planting as one of the best berries of recent introduction. Each 20c., doz. $1.75, 100 $13.00.

Houghton. Berries medium. Color, pale red; tender and good; plants make a spreading growth of slender wood; extremely productive.

DIXON'S PEARL. A very desirable American variety—a cross between Houghton and Industry one of the large English varieties. It is very hardy, entirely free from mildew, superior in size and flavor, and is certainly more productive than the Downings. It is likely to supersede this standard sort. From the many flattering testimonials of this new berry from many of the leading horticulturists we have pleasure in recommending this variety for small or extensive planting as one of the best berries of recent introduction. Each 20c., doz. $1.75, 100 $13.00.

DOWING. A large handsome fruit, green in color; fine flavor, immense cropper, and always in demand at high prices; free from mildew. Each 15c., doz. $1.50, 100 $10.00.

Houghton. Berries medium. Color, pale red; tender and good; plants make a spreading growth of slender wood; extremely productive.

RED JACKET. What the introducer says of it: "When we introduced this new gooseberry it was with entire confidence that it possessed the best foliage and was the most vigorous in growth of any gooseberry in America; also that it was a good cropper and fruit of the best quality. Although a pure native American (no English blood), it required time to get reports from other states where it was introduced. The most important question was whether it would grow in other localities, be afflicted with that curse mildew, which in America affects not only all English gooseberries, but all planted with English blood. We knew it was all right as a mildew in our state, but we were greatly surprised to hear so much good from such a wide extent of territory." Strong plants. Each 15c., doz. $1.50, 100 $10.00.
THOROUGHBRED MONEY MAKING STRAWBERRY PLANTS

The market never yet had a sufficient supply of the best strawberries. Little berries, sour berries, soft, ‘squashy’ berries—these are shipped by the hundred from Florida to Oregon. The big red, firm, juicy, sweet, deliciously flavored strawberries—these are so rare that few persons are fortunate enough ever to have enjoyed the privilege of knowing that so fine a fruit actually exists to bless the world! These are the kind that will pay you to grow, and no other.

There is no such thing as poor quality, or lack of quality, of the plants set out by the grower. It has been said of old that ‘Whatever a man soweth, that shall he also reap.’ Poor plants inevitably produce poor fruit. Quality in fruit can be had only where there is quality in the plants.

The commercial strawberry grower, therefore, must at the start consider the quality of his product and see to it that he make no mistake in the choice of his plants, if he would find a ready market at profitable prices. But he also must take into account the weather, the factors that never have a hard and fast rule of their own. The potentialities of the fruit grower’s land and climate will grow strong, full, the vigor that insures a fine foliage and huge masses of fine fruit, fully developed and ripened perfectly, so that the full value of each berry may be secured and the highest market price obtained.

This combination of Quality and Quantity are the prime essentials to success in strawberry production. This combination may certainly and uniformly be had in the plants we herewith offer you. We advise early orders.

Price List of Thoroughbred Strawberry Plants

Please Read Carefully Before Making Out Your Order

We give thousand rates on that variety; but we do not permit customers to combine several varieties to make the number of plants $500 in order to secure thousand rates. 50 plants are not sold at 100 rates. We leave nothing undone in order to grow the best plants possible, and the prices quoted are the lowest at which they can be furnished. When plants are to be sent by mail, add at the rate of $2.00 per hundred miles to the prices given, if plants are to be sent to Canada, $4.00 per hundred miles. This will enable us to insure strong, full-size plants well packed and safe on arrival. No orders accepted for less than one dollar, and no fewer than 25 plants of any variety will be sold.

EARLIEST OF ALL.—Bisexual. Medium-large, bright-colored berry, very round and full on the calyx and tapering to an obtuse point, with prominent green backs. A bright red, juicy, sweet, deliciously flavored berry. The fruit is wine-color, growing lighter toward the centre, and is very fine-grained and of a fine texture. A simple calyx, with a small neck to the stem and when picked the berry is attached to the berry by a small neck which makes easy and quick work when preparing them for the table. Its productiveness and high quality combined makes Earliest of All very popular, both as a market and family berry, as it adds to its other virtues that of being a splendid shipper. This is the tenth year Earliest of All has been in our breeding beds and with special care in making a selection from the most promising mother plants, age only adds to its value.

DICKY.—Is a long season berry and one that grows big crops, and good authorities say there is no finer. Fruit runs very large and attractive. Quality surpassed. Just the sort for the home garden, and very profitable for the home market.

GREAT SCOTT.—The Great Scott plant is perfection itself. The foliage and fruit shine as though varnished, having no blemish or rust. The fruit is very large and full, of a bright variety red, having dew drops when nearer ripe. Its qualities are good; the grower calls it extra. It is the most productive of any large variety I ever saw

PRESIDENT.—As its name implies, this variety grows enormous quantities of huge berries. The berries are rather broad and wedge shaped with a crimson-colored surface and dark yellow seeds. The calyx is light green and lies flat on the stem. The stem remains green after the berries are picked, thus aiding to retain a fresh appearance in the fruit after reaching the market. It is one of the finest in color and form, and the meat a deep pink, very juicy. It is a very popular variety for the family trade and ‘once a purchaser always a purchaser is the rule with this stand-by. This is the thirteenth year of selection and restriction in our breeding beds, our careful selection of both parents and friends to be sure and get enough of them for the trade they are bound to develop.

PRIDE OF MICHIGAN.—An old customer writes: Of all the varieties of strawberries we ever have grown, the Pride of Michigan certainly stands at the head for flavor, color, and beauty. We may say impossible and unmeaning to tell of its fine qualities. We have received several million plants of this variety, and the letters we are receiving from customers who have fruit, it from their experience and the winner among our customers is the country. Another customer writes us: The berries lie in the windrows and the heavy, dense foliage spreads out wide enough to shade them. It is a splendid show, and to see a bed of stems set in contact with each other, and a huge market in a class of its own. For six years we have had it in our fruiting beds, where the most careful attention has been made.

HERITAGE (New).—Last year we were much impressed with the performance of this variety, and realizing that there exists such a great demand for late varieties that produce bumper yields of big red berries of a quality we are under long-distance shipping, we know our customers will find in Heritage a berry that will fill their highest ideals, both as to quantity and quality of fruit. With us this variety ripened its fruit as late as the Lady Gay, and was easily twice as productive. Berries are good shipper, large as to size, dark glossy shining crimson, exceedingly rich in flavor, and it is sure to be one of the leaders in the next season. plant remains green, and holds its fruit erect and entirely free from the ground. It is seldom the stems droop sufficiently to allow the fruit to touch the ground. We feel very secure in advising all our customers to give this variety a trial, as we feel it has described its good points thus completely in the hope that every one of our customers may give it a good trial. We feel that many of the large growers of berries, among which the weight of the heavy fruit gradually pulls them down until the berries rest on the clean mullench. This makes picking an easy job, but selling the fruit is still easier.

GREAT CROPS OF STRAWBERRIES AND HOW TO GROW THEM

STRAWBERRY CULTURE.—How to grow strawberries. For farmers, market gardeners, village people and small or large planters. Please write for free circular. The special object of this work is to teach beginners all the various details and methods by the study of which the growing of strawberries may be assured. 50 cents postpaid, or will be sent free on request, with an order for $10 worth of strawberry plants.
some splendid new
strawberries

we are greatly pleased to offer our customers some new strawberries of real merit, an improvement over many kinds being offered by other dealers and growers. we find it pays to grow only the best for big returns and good results. you must grow good berries to succeed. it is absolutely necessary to do it or you fail, no matter how good your ground or how much care you give your plants. the plants we offer are the best varieties that can be obtained. we try almost all kinds. we have to do it to find out which are the valuable ones and then offer those only that prove valuable, thus protecting our customers from a long list of varieties, half of which are absolutely worthless and a waste of time and money to plant. the varieties we offer have made our customers money. if you will let us do it, we can furnish you plants that will make money for you and give you results that will open your eyes. are you willing? it costs no more to plant our good reliable plants that you can build on than others, besides, you then have the assurance of success.

if strawberry plants are desired by mail, add for postage 10c. to the dozen price, and 60c. to the 100 price.

the grand strawberry
“big victor”
(mid-season to late—perfect flowering)

although the big victor has only recently been offered to the public, yet it is already world famous from the superlative bearing capacity in the horticultural press from the experiment stations and from strawberry critics to whom a few plants were given for trial. it has been thoroughly tested in many parts of the country and has given universal satisfaction for shipping and home market, as well as for the family garden. the berries of the big victor are magnificent and of immense size—very firm, solid and juicy for so large a berry. in general it is broadly heart-shaped, without neck; occasionally fruits will be found shaped as if two berries were joined together. flesh red to the core, of delightful aroma, rich, spicy and luscious. the seeds are not slightly imbedded, which adds to it we can furnish you plants that will make money for you and give you results that will open your eyes. are you willing? it costs no more to plant our good reliable plants that you can build on than others, besides, you then have the assurance of success.

HIGH GRADE STRAWBERRY PLANTS

If wanted by mail, add 10c. per doz. and 50c per 100.

WHEN TO ORDER—Order early by all means, while the plants are in a dormant condition, before they commence to grow in the spring; they will ship better, stand more neglect and rough usage, and will start off better when set out. Allow time enough before you need the plants, so that if the weather should interfere with all transplants for a week or two, it will not inconvenience you. The best time to transplant is the very start of the season. The ships will start for your locality as soon as the plants can be cut without injury, and you are entitled to the earliest stock that is available. GUARANTEE.—We guarantee our plants true to name, well-rooted and from new beds that have never fruited; if they prove not to be so, we will refund the money or replace the same, and we do claim to raise better plants than anyone else on earth, we do claim that we raise them better than some, and as good as the others.

Moore's Earliest of All Strawberries

The most valuable production of the age. The most wonderful and remarkable early berry ever introduced. Absolutely the earliest large strawberry in existence. Immense size, prodigious yield, delicious flavor. Plant strong, luxuriant and healthy. Flowers bi-sexual.

Has Produced 16,000 Quarts to the Acre

Every market gardener who plants it largely is insured handsome profits. Its beauty and extreme earliness always commands the very highest market price. Its extreme earliness is due to its having the buds form late in the fall, and remain unaffected by the winter cold or early spring frosts—a remarkable thing but true. The blossoms are produced before the leaves in the spring, and are not affected by any frost during the winter, no matter how severe. This valuable variety does remarkably well on poor, thin land, while on heavy soil the yield is simply prodigious. In our vicinity they usually commence bearing about May 5th to 8th, and continue producing large, beautiful berries of delicate flavor long after all early sorts are exhausted. The plant is a good strong grower, with dark green foliage and nearly rust-proof; extraordinarily productive even in light soil; the fruit is borne on strong stems of large size and of a most brilliant scarlet color. The flavor is slightly tart, but very good; a grand berry for the private garden, or market entry. Its fine color and general excellence making it a fine dessert fruit. It is especially adapted for long distance shipping and we especially commend it to southern growers. Every berryerner, north, south, east or west, should plant it. Prices for 100 30c., 100 1.00, 500 5.00, 1,000 $6.00. Add 10c. per doz. if to be go by mail. Special prices will be quoted on lots of 5,000 and upwards.

Warfield Prize (Bi-sexual: early to late)

Regarded by the great strawberry growers as the best variety for general use, either for the family or for market. In the New York market it commands a higher price than any other, owing to its uniform size, delicious flavor and handsome appearance. It ripens uniformly, not a green tip ever to be found on it; the color when ripe is a glossy crimson scarlet. It is medium in size, juicy and solid in the center and of a delightful flavor; in fact, this is one of its excel lent merits, and is the cause of its having been in demand by the finest hotels and private families in New York, since the fruit was first sold there. It is an all-season berry, ripening early and bearing late, perfecting its fruit to the last berry as perfectly as the first one. It is an abundant bearer, yielding as much as plant per much as plant as the most prolific, and on account of its prolonged fruiting is more valuable than those which perfect their crop in a shorter period. After a close study of it for the past two years, we are convinced that it has no rival as a good all-round strawberry for the family or market— one that is certain to give satisfaction. Doz. 30c., 100 $1.25, 500 $4.00, 1,000 $7.50.

BEST IN 22 YEARS

Fred. Maring, P. O. Box 300, Washington, writes: Your Boston Mammoth White Plume Celery is the best I have grown during the past twenty-two years.

TWO WEEKS EARLIER

Paul Ess, Phillipsburg, N. J., writes: Your Moore's King of the Early Tomatoes were two weeks earlier than the Earliana.

Kentucky Wonder (Bi-sexual; Mid-season to late)

A tall, luxuriant grower, with large, dark green foliage, free from rust or disease, very prolific, enduring extremes of heat or cold. It will grow on any soil the same as the Crescent. The fruit is produced in great abundance on tall, stout stems, which stand up from 6 to 8 inches tall. In the season, holding its load of berries from the ground so they do not get dirty, rotten or spoiled. It is beautiful in color, being a dark, glossy red, which alone will make it an ornament for any table. It is so beautiful in appearance that the moment they are put on the market they will sell for the highest price. The flavor is delicious. One of the finest of the sweetest of strawberries, it can be called the honey strawberry; while its fine aromatic flavor, resembling that of the wild strawberry, makes it one of the most delicious of berries. Doz. 30c., 100 $1.00, 500 $5.00, 1,000 $6.00.

Mixed, Large-Fruited Hybridized Strawberry Seed

We herewith offer a remarkable opportunity to our customers to procure the best new and novel varieties of the best American and European varieties of strawberries. Our mixture includes all the best large-fruited, while, red and purple everbearing; also the finest early and late fruiting sorts of the highest merit, which will insure the planter the most satisfactory results possible. Many valuable new varieties will be found by planting our hybridized seed. From seed sown in April or May, we have in the following year picked large quantities of fruit, ripening early in the strawberry season, but as late as the third week in October. Occasionally the plants bloom the first year from seed and invariably so sown early enough in the greenhouse and transplanted the customer with a garden or farm should miss this fine opportunity for obtaining valuable new varieties of strawberries. Pkt. 10c., 1 oz. 25c., 4 oz. $1.25.
GOOD THINGS FOR THE POULTRY KEEPER

NEW CHINESE WINTER EGG BEET

Thrives on any soil and anywhere in the United States, and is the most valuable winter egg producing poultry food known. It is especially valuable for feeding chickens that are confined to small enclosures and to such it should be fed the year round. The roots can be preserved during winter same as turnips or potatoes. Culture same as for garden beets and the yield per acre may easily exceed 1,000 bushels. The flesh is a pale golden yellow and it is the most profitable and most nutritious of all beets. It is likewise an excellent sort for the kitchen garden. Plant some time before the year round as well. Pkt. $0.50, oz. 10c., 1 lb. 30c., 1 lb. $1.00.

WATERPROOF PAPER FLOWER POTS

Here we offer Waterproof Flower Pots made from water proof fabrics. They are very durable, unbreakable, cheap, and of terracotta color, and are more economical than clay pots and just as practical for most purposes, and for some purposes they are better than clay pots. Just the pots for growing seedlings and seedling plants. Florists, nurserymen, strawberry growers, market gardeners and plant shippers have been using our waterproof pots for many years. They cannot break and are very durable.

DIAMOND STEEL GLASS CUTTERS

An Indispensable little tool which every Florist and Market Gardener with glass should have.

In these glass cutters we are offering a more durable and convenient tool than any other now on the market. Every wheel is carefully tested and ground by special process. Preferred by many to genuine diamond for cutting glass.

No. 16—Rosewood Finish Handle, Turret Head, containing six Cutters. 25c.
No. 20—Putty-knife handle, polished and nickel plated. Turret Head, with six cutters, each 35c. Mailed postpaid.

THE MOORE SEED CO., PHILA., WHOLESALE CATALOGUE FOR MARKET GARDENERS AND FLORISTS 69
**Horse Radish and Coconuts Graters**

Will grate from 10 to 15 pounds an hour of Horse Radish, Coconuts or similar substances. They are easily operated by one person, who turns the crank on one hand and holds the root with the other hand, against the revolving cylinder. The grated material falls into the drawer, shown in the cut. We furnish the machine with two kinds of cylinders, the cheaper being covered with heavy perforated tin; the better has a wooden cylinder studded with steel pins.

Crosswicks Farms Thoroughbred Pigs

Our Stock. — Our stock is always bred and always will be our best advertisement. Few, if any, in the livestock business, shipping as largely as we do, are able to show such a record of length of service, and so many years experience. A pair of pigs or a pair of sows sent from our neighborhood by the most prominent advertisers of the Superior excellence of our stock, bring us frequently as many orders of other stock from Europe and many parts of the United States, and are also shipped to a large number of animals to the West Indies, Europe, etc.

Guarantee. — We guarantee all stock shipped to be strictly first-class and as represented and represented as purchased and paid for. We box pigs comfortably at the same time as lightest possible, and will supply food for the journey at prices named. Get a pair of pigs and you can make a big money out of the investment by selling the pigs for breeding.

Large English Berkshires

No breed of hogs is so popular today as our extra quality, high-class LARGE ENGLISH BERKSHIRE at the best type. Sired by MEADOWBROOK BARON, and BERKSHIRE SOW VENUS OF WOODBRIDGE 3rd, 99750. The first in the country—20 lb. in 1 month. These are Berkshires of quality, the great money-making class with a guarantee on every animal. This one famous breed of pigs is getting deep interest from farmers and money with increasing fame as the pure-bred farmer, who are growing for the production of pork, and consider that we ship specimens that are superior. We have some of the best qualities of this breed. Southampton picture, and good example of the right breed, with all times breed, remarkably true in color, marking, etc. They are unusually broad, with high vital powers, and well for themselves. Young pigs are very strong, and grow rapidly. They may be thus purchased and kept for meat. Their flesh is of the very highest quality. They are less liable to disease than other breeds. Sows are very prolific and good mothers. They are in every way of constant, quality, constitution, prolific breeding and good weight. Price $40.66.

Crosswicks Farms Model Chester White Pigs

Always available on account of their large size—they really weigh 150 to 200 pounds at 6 months old, 200 to 300 pounds at 12 or 14 months, 300 pounds over even and becoming unusual weight favored by well-turned out points. The finest, really following qualities—as when they can be fattened for market it remains, and may be kept to any reasonable weight de-stash: good to eat, full flesh, full rolling at A; liveliness and proficiency, they are faultless and truly superb. Extremely pure, very healthy and well-grown stock. Chester Whites are also well and thoroughly established breeder, with well-defined characters, so that the breed very true—true in the Berkshire or Poland China. We have shipped pigs to almost every state in the Union, and everywhere, they prove the very topnotch of an advertisement, proving to every man of every county. The genuine Chester White, such as we ship, have the following prominent characters: Head very short and broad between the eyes, ears medium and projecting forward; neck short and thick; legs short and stocky; full body, ample and well-rounded; tail short and well set under the body, of sufficient strength for bearing the heavy weight. Hair pure white, skin fine and thin; tail neat and short in proportion to size body. The accompanying cut of the sire pair "Kilmore Chester County," and "Chester County Model of Perfection," is drawn from the best stock, fitting the form for that purpose. Priced Single pigs, 8 to 10 weeks old, either sex, each $12.00; pair, boar and sow, not skin, $24.00; trio, 1 boar and 2 sows, not skin, $30.00.

The Most Useful of All Dogs

Thoroughbred Scotch Collies

The Collie is the most useful dog for all purposes, possessing great intellect and courage, and remarkable for being easily taught. A properly bred Collie will hunt and set for hares when he is a puppy and is a good, faithful watch dog. The pure-bred Scotch Collies are of a light and fine-boned disposition, and become strong attached to their master's family. They are very watchful and always on the alert, while their intelligence is really remarkable. All our Collies are able to perform full duty, both in stable, on farm, and in other stock, attending them all day when necessary. They are long and driving off all strange intruders. They learn to know their master'scommands from others in a very short time, and a well-trained dog will gather them home and put without roofs right off. They have a fine, glossy, and fine-striped body, and are of the highest quality. They should be without one or more of the highly useful animals. Both of our stud dogs and breeding bitches are all pedigree and have had for their progenitors the most famous champion, prize-winning English kennels. The latest stock have been selected and are for the excellent qualities they possess individually as to disposition and head qualities, also up-to-date family for the best qualities for their lineage. This our customers may depend upon getting a dog of practically everything good to be had in the most useful of all dogs. All our puppies are entitled to registry in American Kennel Club Stud Book.
